

How to Use My Spelling Dictionary

My Spelling Dictionary is a personal spelling dictionary for students that includes front and back cover pages and the dictionary pages from the Grade 1 Student Edition.

Follow these steps to create **My Spelling Dictionary**:

1. 1. Print a set of front and back cover pages and dictionary pages for each student. You may wish to print the cover pages on cardstock and provide additional blank pages for students to add other words.
2. 2. Show students how to staple the pages together at the left edge, or punch holes in the covers and pages and lace them together.
3. 3. Ask each student to write his or her name on the cover.
4. 4. Encourage students to take this personal dictionary home at the end of the school year for use during the summer.
