

Note to Teachers

The **Smart Phonics Placement Test** has been designed to help teachers accurately place students into the appropriate level of the series by evaluating students' existing knowledge of phonics.

The test questions come directly from the five levels of the **Smart Phonics** series, starting from single letter sounds and ending with double letter vowels. The test is divided into two sections:

Part 1 – Listening (15 questions)

Part 2 – Reading and Writing (28 questions)

There are 43 questions in total. Each question is worth 1 point. Allow students approximately 20 minutes to complete the test – five minutes for Part 1 and 15 minutes for Part 2.

<Scoring Rubric>

Score	Recommended Level of Smart Phonics
0-11	Book 1: Single Letters
12-19	Book 2: Short Vowels
20-27	Book 3: Long Vowels
28-35	Book 4: Double Letter Consonants
36-43	Book 5: Double Letter Vowels

Placement Test Advice

For students who score above a 40 on a placement test, a brief review of **Smart Phonics 5** followed by a higher level series would be recommended. For more information on e-future's series, visit www.e-future.co.kr (Korean) or www.efuture-elt.com (English).
