

Course Outline

I. Regular Lesson Flow

Lesson 1

Introduction (Target Sounds)

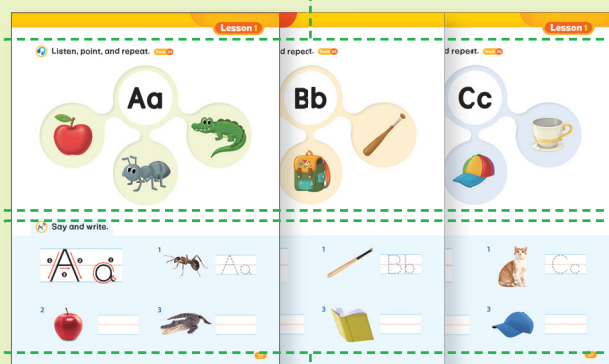

A

B

A Target sounds, letters, and their representative words are initially introduced. Students will learn the letter-sound relationships by listening and repeating.

B A phonics-instructive chant is provided that includes learned sounds and words. Students will more closely familiarize themselves with the unit's targets by sounding them out through chanting.

Introduction (Target Words)

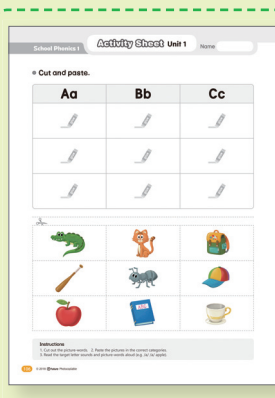

C

D

C Letter-picture association maps are presented to introduce students to more representative words and pictures of each target sound. Students will learn more words and strengthen their grasp of the unit's target letters and sounds by listening, pointing, and repeating.

D The stroke order of each target letter is displayed along with photos of their representative words. After writing out the letters, students will have a chance to practice vocalizing them.

Lesson Extension

E

E An activity sheet is provided for each unit. Students will consolidate their comprehension of the unit's targets through the completion of various activities.

*Photocopiable and printable from the Teacher's Manual.

Lesson 2

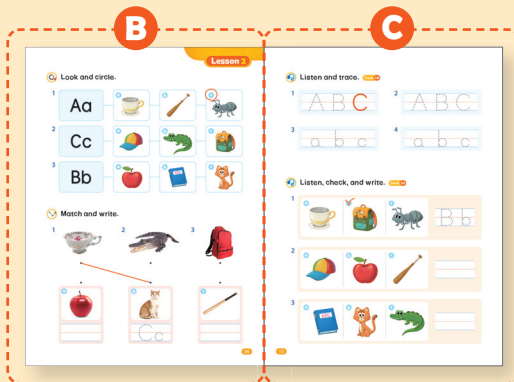

Link

A

A A combined sticker and chant activity is presented comprising the unit's target letters, sounds, and words. Students will have a chance to refresh their grasp of the previous lesson's targets in order to prepare for applying them in subsequent exercises.

Practice

B

C

B Students will practice identifying, matching, and writing out the unit's targets through a pair of reading-based exercises.

C Students will practice identifying and writing out the unit's targets through a pair of listening-based exercises.

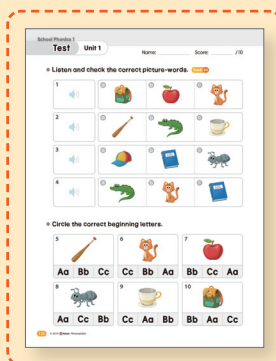

Story

D

D An amusing, target-filled unit story is presented with dual tracks to listen and read along to. The story's animation is also provided on the Hybrid CD and Mobile App. Students will practice reading the target words in context so as to reinforce the phonics skills that they have learned.

Lesson Extension

E

E A unit test is provided for each unit. Students will check their degree of comprehension of the unit's targets.

*Photocopiable and printable from the Teacher's Manual.

II. Review Lesson Flow

Lesson 1

Review Practice (Listening)

A

- Review practice aims to consolidate the recognition of targets that were introduced in the preceding block of units.

A Students will review the targets by completing a series of listening-based exercises.

Review Practice (Reading & Writing)

B

C

B Students will review the targets by completing a pair of reading-based exercises.

C Students will review the targets by writing out the letter sound of displayed picture-words.

Lesson Extension

D

E

D An activity sheet is provided to help students consolidate their comprehension of the reviewed targets.

E A review test is provided to check students' overall level of comprehension of the reviewed targets.

*Both are photocopyable and printable from the Teacher's Manual.

Readers Story

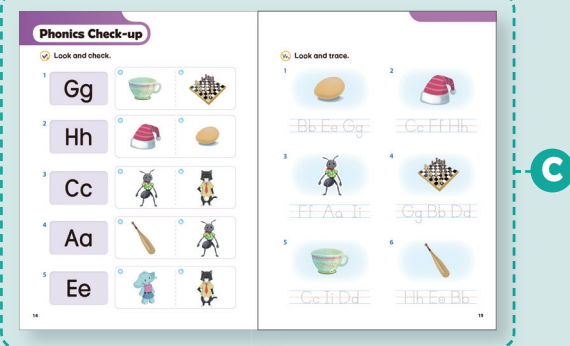

A A Readers story written and illustrated using the targets of the preceding block of units is presented with dual tracks to listen and read along to. The story's animation is also provided on the Hybrid CD and Mobile App. Students will review the targets in more elaborate contexts to consolidate key skills on their path to literacy.

Story Check-up

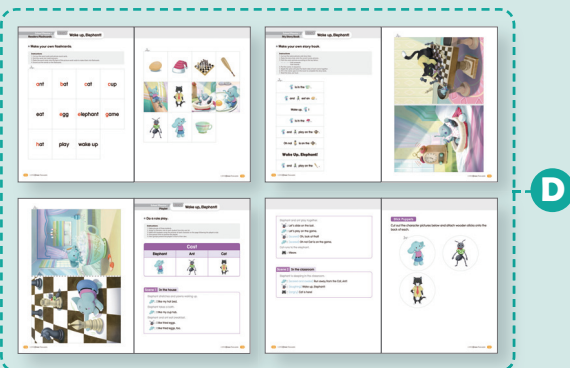

B Students will assess their comprehension of the story's events through an engaging check-up activity.

Phonics Check-up

C Students will assess their comprehension of the phonics targets present within the story through a pair of check-up activities.

Lesson Extension

D A set of activities is provided for students to creatively play around with the phonics-filled contents of each story in a hands-on way. The student-made activities let students approach the various phonics targets that they have learned from an alternative perspective, and also help them to bring each story to life in their own, unique way.

*All activity sheets are photocopiable and printable from the Teacher's Manual.
