B Listen again and number the sentences you hear from the video in order.

Number	
2	There are lots of ways the government uses taxes to help cities. What are some of those ways? The government can build new schools.
4	They can build new and better roads for people to drive on. They can build parks for people to relax and spend time in. However, littering stops the government from improving cities.
1	People pay taxes to the government. The government decides how they want to use taxes. They use taxes to help people and fix problems. Sometimes the government uses taxes to help people or help improve cities.
3	This is because the government has to spend money to clean up litter. They have to pay people and pay for machines to clean up the litter. People pay taxes and the government uses some taxes to clean up litter.
5	Litter costs everyone money. The more litter there is, the more taxes the government needs to spend on cleaning up the litter. Citizens can help improve their cities by not littering.

C After listening to and watching the video, choose the best title for the video.

 City Taxes

 Litter Taxes

 School Taxes

B Listen again and write the words you hear from the video in the blanks.

Each community has different problems. Some communities have more litter in them than others. Some communities have more senior citizens in them who need help. There are many ways you can serve your community. What are some ways you can serve your own community? You can give away old clothes for people who need them. You could volunteer to work in a soup kitchen to help give food to people who don't have enough money to buy food. It's good for people to do community service because it helps make the whole community a better place. Anyone can do community service. You won't get anything in return for doing community service. The reward is that you will feel happy and proud that you helped to make your community a better place.

C After listening to and watching the video, choose the best title for the video.

 (a) Food Supplies

 (b) Economic Development

 (c) Community Service

2	Mauna Loa is also very heavy. The earth's crust bends down several kilometers into the mantle. Why do you think this makes Mauna Loa a more active volcano? The reason is because the crust under Mauna Loa bends down into the mantle.
3	This means that the volcano has an endless supply of lava. That explains why it's one of the most active volcanoes in the world. There have been thirty-three eruptions since 1843.
5	When it cools, it turns into basalt rock. This new rock helps to make a new home for plants and animals to live on. It also helps the islands of Hawaii to get bigger as it continues to build more and more rock.
4	Being nearby Mauna Loa when it erupts wouldn't be a good idea. Volcanic eruptions can be really violent and dangerous. But it's not all bad. The lava eventually cools.
1	Mauna Loa is one of the most massive landforms on planet earth. From the ocean floor to the top of the mountain it is a giant, 9,000 m tall.

C After listening to and watching the video, choose the best title for the video.

 A Massive Volcano

 Beautiful Eruption

 Dangerous Lava

B Listen again and fix the mistakes. Write the correct words from the video.

1. An invention is something creative that no one has made before.

→ An invention is something new that no one has made before.

Inventions help people to do new things. Can you think of some inventions? How were they made?

2. Is everything about these inventions new? Sometimes an invention is totally new.

→ Is everything about these inventions new? Sometimes an invention is all new.

But other times we can put two things together. We can put something new together with something that was already made before by someone else.

3. Adding something new to something that already exists can turn the way it's used.

→ Adding something new to something that already exists can change the way it's used.

This can also be a good way of making a new invention.

4. You can even make something new with two things that aren't new.

→ You can even invent something new with two things that aren't new.

You can do this by putting two things together in a new way. People use inventions because they are useful, helpful, or fun. People will use an invention for one of those reasons.

5. If they really like it, the person who made the invention could be popular.

→ If they really like it, the person who made the invention could be famous.

Can you think of a good invention?

C After listening to and watching the video, choose the best title for the video.

a Useful Things

b Famous Inventors

c Inventions

B Listen again and fix the mistakes. Write the correct words from the video.

Have you ever made a paper airplane contest?

1. What if you were in a paper airplane race?

→ What if you were in a paper airplane contest?

How could you make a paper airplane that would fly the farthest? There are many different ways to make a paper airplane.

2. What sizes and designs can fly the farthest?

→ What shapes and designs can fly the farthest?

Measuring a paper airplane can help. You can check how long it is.

3. You can check how large the wings are.

→ You can check how big the wings are.

You can study the shapes of real airplanes. You can think about which shapes are good for flying. But sometimes, thinking differently can help.

4. You should work to be creative.

→ You should try to be creative.

This could make your paper airplane go far. For example, maybe you could make a flying disk. Another good example is a ball. Or how about a flying star?

5. All you need to do is think about the shape and design of other things that fly.

→ All you have to do is think about the shape and design of other things that fly.

C After listening to and watching the video, choose the best title for the video.
