## Reading Comprehension Section

5 points each

※ (24-27) Read readings 1 and 2, then answer the questions.

### Reading 1 Title: *Urban Gardens*

My family lives in the city. But we grow our own vegetables. We have an urban garden. There's an empty plot of land we use. The government owns that land. We asked the government for permission to use it. We grow all kinds of vegetables there. We grow carrots, onions, tomatoes, potatoes, and kale. We eat the crops we grow. This means we can eat fresh food often. Some people who have urban gardens sell some of their vegetables at the farmers' market. But my family just eats what we grow. This weekend we will pick and eat lots of vegetables.

24. Read and choose.

**The family will sell a lot of vegetables at the farmers' market this weekend.**

- ① True    ② False

25. Read and choose the sentence that is NOT true.

- ① The family has an urban garden.  
② The family asked the government's permission to use an empty plot of land.  
③ The family grows corn in their garden.  
④ The family eats what they grow.  
⑤ The family often eats fresh food.

### Reading 2 Title: *How Hot Springs are Hot*

I'm going on a trip with my family to British Columbia, Canada. We are going to visit a natural hot spring there. The water in the hot spring is hot even before it comes out of the ground. This happens through convection. Convection is the transfer of heat energy. It's transferred through gas or liquid. An example of convection is water boiling in a pot. Another example is the hot spring we are going to visit. Canada is cold but the temperature of the water reaches up to 25 degrees Celsius. That's hot enough to make you sweat. I'm excited to go!

26. Read and choose.

**Convection is the transfer of heat energy through a liquid or gas.**

- ① True    ② False

27. Read the question and choose the best answer.

**Q: What is an example of convection?**

- ① Canada is cold
