### Reading 1 Title: *Travel to India*

In December, I traveled to India with my family. First, I went to the National Gandhi Museum. There were exhibitions about Gandhi's life and some photos of Gandhi. Next, I went to the Taj Mahal. The Taj Mahal was made by the Indian emperor to house the tomb of his wife. It took 22 years to finish the construction of the Taj Mahal! The tomb was at the center of the entire complex. Everything was made with white marble and was so beautiful. For lunch, we went to have some Indian food. We ordered some tandoori chicken, egg curry, chicken curry, and garlic naan. Every dish was fresh and delicious! For dessert, I ordered lassi from a food truck. Lassi is a popular Indian traditional yogurt drink. I really enjoyed the trip to India.

### Reading 2 Title: *Nature's Energy Sharing System*

There are a lot of tourist attractions in Death Valley National Park. You can drive a car or take a walk across the park. There is an area called Devil's Golf Course. This is a huge area of rock salt eroded by wind and rain. You'll hear sounds like tiny pop and pings there. This sound is created when countless tiny salt crystals explode as they get bigger and smaller in the heat. Mesquite Flat Sand Dunes is the largest dune field in the park. There are three types of dunes in this dune field: crescent, linear, and star-shaped dunes. The field with many mesquite trees has become a stable habitat for wildlife.
