# **TEACHER DEVELOPMENT**

#### **Pedagogical Notes for Reference and Teacher's Development**

#### Four-strand theory

- Intensive reading → Reading fluency development
- Input → Output
- Linked skills: Reading → Listening → Writing → Speaking

#### Five-step SQ3R theory

- Survey, Question, Read, Recite, and Review
- Improved vocabulary retention, reading comprehension, and fluency

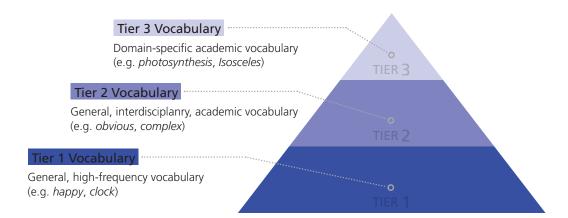

#### 21st Century Skills

- The four Cs (Critical thinking, Communication, Collaboration, Creativity)
- Real-world passage formats
- Digital literacy
- Media literacy
- Visual literacy
- IT skills

#### Contextual learning (as opposed to rote learning)

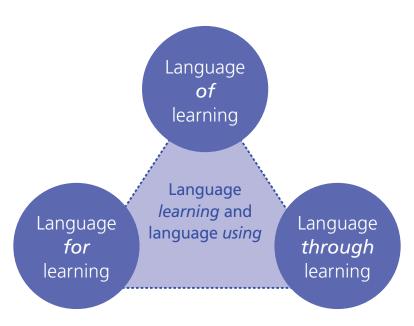

• Scaffolding, Preview, and Review

#### **Vocabulary Tiers**

Integrate Reading & Writing covers a range of different types of vocabulary. The new words in each unit can be classified into one of the three vocabulary tiers from the chart above. Oftentimes, the higher the vocabulary tier a word is in, the more attention must be given to the word based on its frequency and the cognitive ability and language of the learners. Be mindful of the school subject in each unit and which words you may need additional preparation for before instruction.

#### **Language Through Learning Pedagogy**

#### Language for learning

Social language needed for routine tasks in an English-language learning environment

- For understanding instructions
- For asking questions
- For working in groups
- For having discussions

#### Language of learning

New, key vocabulary and language related to the subject, theme, or topic

• Content-specific language, new words e.g. carnivore, herbivore, omnivore

#### Language through learning

New, unanticipated language that comes up in the process of learning

- Needs to be captured and recycled to become part of learner's lexicon
- Encourage students to ask about unknown words or language and things they are curious about

\*Use page 120 to record and recycle language through learning.

# **SCOPE AND SEQUENCE**

TOPIC AREA	UNIT/PAGE		DET	AILS	
d. we.	( <b>⊨</b> 01),	Title / Word Count	Lost Letters Lesson A [2	200W] Lesson B	[197W]
	Nonfiction	Торіс	The English language has a long and interesting history that stretches all the way back to feudal times.		
S		Academic Objective		entions, trade an	societies were often the result of d other events which led to socieer.
		Reading Format	Traditional passage		
	la la	Structure	Simple Past Passive: was	/ were excluded

SUBJECT	REVIEW UNITS	PROJECT TYPE	PROJECT DESCRIPTION PAGE		

SUBJECT	REVIEW UNITS	PROJECT TYPE	PROJECT DESCRIPTION	PAGE
Social Studies	Units 1-2 Review	Presentation	Study and use information about the Futhark alphabet to write and give a presentation.	104
Science	Units 3-4 Review	Presentation	Learn about a food pyramid. Fill in a template with information about your daily eating habits. Give a presentation.	108
Math	Units 5-6 Review	Journal	Use the information from the summary to write a journal. Design a snowflake and label the polygons. Give a presentation.	112
Special Subject	Units 7-8 Review	Volunteer Profile	Use the information from the summary to write a volunteer profile. Imagine that you have experience volunteering and write about it. Give a presentation.	116

# HOW TO USE TO

#### **UNIT STRUCTURE**

Units are divided into two lessons, A and B, so that students have more time to learn, practice, and demonstrate competency.

#### **UNIT INTRO PAGES**

A clear overview summarizes what students will do throughout the unit.

Officially recognized academic standards and objectives give a clear purpose to each unit.

A big, captivating, impactful image helps stimulate the students' minds and gets them thinking about the topic of the unit.

Preview questions help guide the students' focus.

#### **LESSON A INTRO**

Students cognize the academic objective with warm-up questions.

Learn the meaning of new vocabulary.

Teacher's notes describe the purpose of each activity and are neatly tucked away at the bottom of each page.

Key grammatical structures from the reading passage highlight authentic, practical use.

The academic question in each unit helps students to approach the reading passage in a more purposeful way.

#### **LESSON A PASSAGE**

Background knowledge is provided to help activate the students' schemas.

Reading passages are formatted in realistic ways to provide context and meaning.

Infographics with captions provide visual support, additional information, and context.

The academic objective in context is reviewed immediately after the reading.

#### **LESSON A POST-READING**

Comprehension questions ensure understanding.

Students use a graphic organizer to practice a reading skill and summarize information from the passage.

#### **LESSON B INTRO**

Warm-up questions help students recall information from Lesson A to activate prior knowledge.

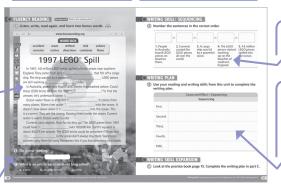

The vocabulary review requires students to demonstrate their knowledge of the meaning and use of each word.

#### **LESSON B PASSAGE**

#### LESSON B SKILL TRANSFERENCE

Activities get students to recall the background of the reading and specify information about the passage format. Students also learn two bonus words from context.

Lesson B passages develop reading speed and fluency through a variety of activities, and progress is tracked in the back of the book.

A graphic organizer gives students practice with a writing skill.

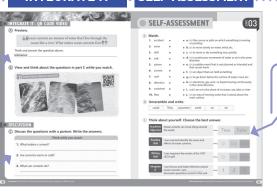

The reading and writing skills practiced in each unit are transferred to develop a writing plan. This bridges the classroom and home by linking the student and practice books.

#### INTEGRATE IT

#### 

Engaging IT content teaches students modern literacy. Questions ask students to make inferences before viewing the IT content.

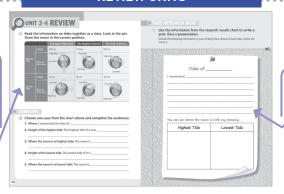

After viewing the IT content, students discuss the questions with a partner and write their answers on the page.

A self-assessment checklist helps students and teachers to track learning.

#### **REVIEW UNITS**

The review units utilize projectbased learning and allow students to produce tangible outcomes and demonstrate linguistic competency and development.

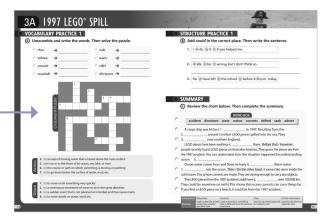

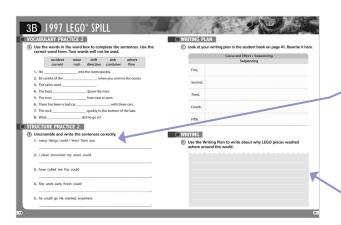

The detachable project templates can be customized and used to create a portfolio.

#### **PRACTICE BOOK**

The practice book provides students ample opportunity to use vocabulary and grammar structures from the unit.

The vocabulary practice activities strengthen students' vocabulary acquisition, comprehension, and fluency.

The grammar activities bolster the students' knowledge and ability to use the structure.

The writing plan links the student book with the practice book and the classroom with the home. Students practice the skills they have learned throughout the unit and use them to summarize the unit contents.

#### **READING ACTIVITIES**

Use one of the following reading activities suggested on the Lesson B passage page to reread the passage, practice reading speed, and develop fluency in a fun way.

- **Sustained silent reading:** The teacher tells the students when to begin reading. Students read silently and individually until they have finished the passage.
- Popcorn reading: The teacher or a student starts by reading between one and three sentences and then says "Popcorn to..." and calls a student's name. That student then reads between one and three sentences and then says "Popcorn to..." and calls another student's name. The process continues until each student has had a chance to read.
- **Choral reading:** The teacher starts the activity at the same time with all the students. Students read aloud and in unison.

In addition to our free Class Booster app, *Integrate Reading & Writing* offers an additional free mobile app that is intended for use with the IT page in the student book.

Use the different functions and features. Allow the students to enjoy viewing while thinking about the inference and the discussion questions from the student book. Talk about those questions while viewing the AR content to enhance the educational experience.

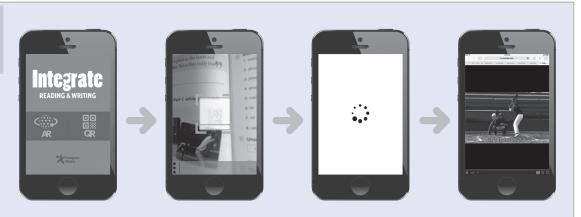

View the multimedia contents on the IT pages of each unit on a mobile device by downloading our free app. Search for "Integrate Viewer" in the Apple App Store or the Google Play Store.

For units with AR images, simply open the app, select the AR viewer, and point your mobile device's camera at the target image.

For units with QR codes, simply open the app, select the QR code scanner, and point your mobile device's camera at the target QR code.

# GRADING RUBRIC

Area	Grading Area	Location in SB
Academic Objective	<ul> <li>The academic objective in each unit is based on actual learning standards and is related to the academic subject area. Students should complete each unit with a significant level of understanding of the academic concept in each unit and in English.</li> <li>In addition, comprehension questions may also frequently ask students questions related to the academic concepts and objectives in each unit.</li> <li>Use the proper locations in the student book in the right column along with the grading rubric criteria on the next page to help you accurately assess each student.</li> </ul>	Sections related to the academic objective are in the following places in every unit: the unit introduction page, the 2nd page of Lesson A, the 4th page of Lesson A, and Part C of the self-assessment page.
Language Learning	<ul> <li>The language learning objectives in each unit are based on content-specific language determined by the topic of each unit.</li> <li>In lesson A, the activities are intended to help students become familiar with the meaning of new words.</li> <li>In lesson B, the activities are intended to help students with using new words in context.</li> <li>Use the proper locations in the student book in the right column along with the grading rubric criteria on the next page to help you accurately assess each student.</li> </ul>	• Sections related to language learning are in the following places in every unit: the 1st and 2nd pages of Lesson A, the reading passages in Lesson A and B, the 1st page of Lesson B, and Parts A and B of the selfassessment page.
Reading & Writing Skills Fluency Development	<ul> <li>The reading and writing skill objectives and reading fluency development objectives in each unit are strategically chosen and placed within each unit.</li> <li>In lesson A, the reading skill activity helps students develop cognitive skills to use while reading about certain topics and with certain reading formats.</li> <li>In lesson B, the writing skill activity helps students develop cognitive skills to use while writing about information from the reading passage.</li> <li>Reading and writing skills are combined and used in the writing plan in each unit so that students can transfer the cognitive skills they have developed and use them to independently complete a summarizing task.</li> <li>Reading fluency skills are developed with the lesson B passage and tracked with the reading speed chart. (See page 119 of this Teacher's Guide for additional information.)</li> </ul>	• Reading and writing skills and fluency development are in the following places in every unit: the 5th page of Lesson A, the reading passages in Lesson B, the third page of Lesson B, and Part C of the self-assessment page.
IT Skills & Literacy	<ul> <li>IT skills and literacy are increasingly important for teaching modern students. The level of emphasis a teacher wants to place on this area of assessment depends on the access to IT in the classroom, the ability of the students to use it, and the teacher's preference.</li> <li>Use the Integrate app, Class Booster, the premium CD, and others either with mobile devices or desktop computers at your own discretion.</li> </ul>	• IT skills and literacy are in the following places in every unit: the 4th page of Lesson B and Part C of the self-assessment page.

# GRADING RUBRIC

Area	Below Standard	Approaching Standard	At Standard
Academic Objective	<ul> <li>Student often struggles to understand both the academic concepts and the target English.</li> <li>Student still needs to ask questions about the concepts and language to understand.</li> </ul>	<ul> <li>Student often struggles to understand either the academic concepts or the target English.</li> <li>Student needs to ask questions about concepts or language to understand.</li> </ul>	<ul> <li>Student often understands both the academic concepts and the target English.</li> <li>Student asks questions about concepts or language to clarify understanding.</li> </ul>
Language Learning	Student often struggles with and needs help to understand: problems-solutions, main idea & supporting details, decoding multisyllabic words, distinguishing genres, identifying literary elements, and using graphic organizers to sort information.	Student sometimes struggles with and needs help to understand: problems-solutions, main idea & supporting details, decoding multisyllabic words, distinguishing genres, identifying literary elements, and using graphic organizers to sort information.	Student doesn't usually struggle with understanding: problems-solutions, main idea & supporting details, decoding multisyllabic words, distinguishing genres, identifying literary elements, and using graphic organizers to sort information.
Reading & Writing Skills Fluency Development	<ul> <li>Student often struggles to answer comprehension questions.</li> <li>Student needs to asks questions to recall general information.</li> <li>Student reading fluency is improving slowly and sporadically.</li> </ul>	<ul> <li>Student sometimes struggles to answer comprehension questions.</li> <li>Student needs to asks questions to recall detailed information.</li> <li>Student reading fluency is improving moderately.</li> </ul>	<ul> <li>Student rarely struggles to answer comprehension questions.</li> <li>Student usually asks questions about questions for clarification.</li> <li>Student reading fluency is improving rapidly and steadily.</li> </ul>
IT Skills & Literacy	<ul> <li>Student often struggles to connect the passage format to the context of the reading passage and needs to ask questions about formats to understand context.</li> <li>Student doesn't understand that IT is used to access additional information.</li> </ul>	<ul> <li>Student sometimes struggles to understand the passage format or the context of the reading passage and needs to ask questions to understand.</li> <li>Student sometimes understands that IT is used to access additional information.</li> </ul>	Student understands the passage format and the context of the reading passage and asks clarification questions.  Student understands that IT is used to access additional information.

# **±01**

# LOST LETTERS

#### **UNIT SUMMARY**

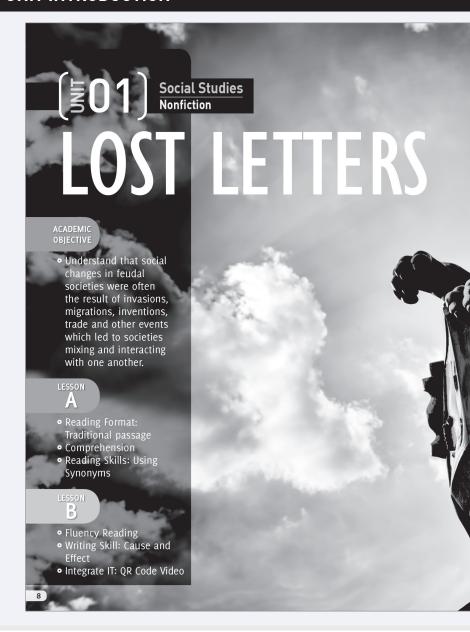

#### **UNIT INTRODUCTION**

Unit 1: Social Studies / Nonfiction

Academic Objective: Understand that social changes in feudal societies were often the result of invasions, migrations, inventions, trade, and other events which led to societies mixing and interacting with one another.

#### Academic Obiective in Context:

Social changes in feudal societies were often the result of invasions, migrations, inventions, trade, and other events which led to societies mixing and interacting with one another.

Introduce the topic with the picture on the unit introduction page. Get students thinking and talking about the topic.

Review the academic objective on the page.

Preview the learning objectives in Lesson A. Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points.

# LESSON A

#### **UNIT SUMMARY**

#### Language Learning Objectives

New Words: invasion, migration, replace, rune, modern, represent, trade, ancient

Bonus Words: drop, unique

Structure Focus: Simple Past Passive

Reading Format: Traditional passage

Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points.

#### 1. How do languages change over time?

Sample answer: I think new words are made.

#### 2. Where does English come from?

**Sample answer:** I think it comes from the United Kingdom.

#### 3. How many letters are in the English alphabet today?

Sample answer: There are 26 letters in the English alphabet today.

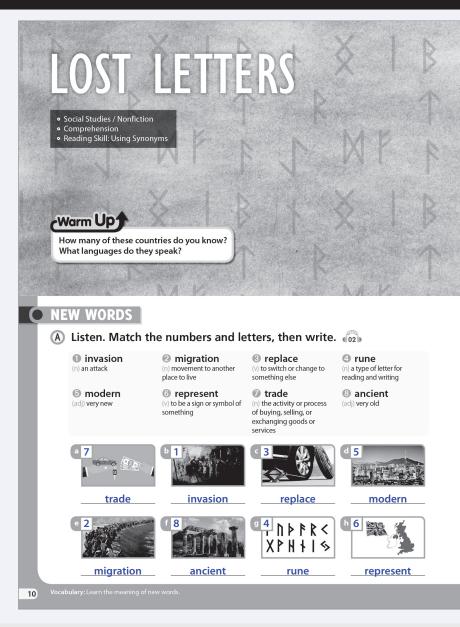

**TEACHING TIPS** 

#### **NEW WORDS**

Low-Level Students: After completing the new words activity on page 10, check the answers by asking students to read the words and spell them.

High-Level Students: After completing the new words activity on page 10, check the answers by giving students 1-2 minutes to memorize the new words on page 10, and then ask them to close the book and recall each word from memory.

Use the picture to activate students' prior knowledge about the topic of the unit. Ask the students which part of the world this map is in. Focus the attention of the students on the map and ask them the warm up questions:

1. How many of these countries do you know?

Sample answer: I know five of these countries.

2. What languages do they speak?

Sample answer: They speak many different languages, such as French, Spanish, German, Italian, and Swedish.

Explain to the students that they will learn about the history of the English language. Tell them that the English language has changed a lot throughout history. Explain that students will learn new words related to history and how language changes over time.

Play audio track 02 and ask students to say and write each word as they hear them.

#### **GRAMMATICAL STRUCTURE**

### TEACHING TIPS

Low-Level Students: Use the free downloadable worksheet for additional practice with the structure before reading.

High-Level Students: Write a few more examples on the board with intentional mistakes. Call on individual students to correct the mistakes.

- **STRUCTURE: SIMPLE PAST PASSIVE** 
  - B Read.
    - 1. England was invaded by Western Europeans.
    - 2. It was excluded from the alphabet.
  - C Unscramble and write.

1.	attacked	England	the Vikings	was	by
2. (	was	created	English alphabet	The	first
3.	were	Goods	between	traded	countries

- 1. England was attacked by the Vikings.
- 2. The first English alphabet was created.
- 3. Goods were traded between countries

BEFORE YOU READ Academic Objective Question: What caused feudal societies to change and why? How was language changed by social change?

The structure in each unit is meant to highlight a key grammatical structure that is covered in the reading passages of the units.

The intended purpose of highlighting the structure is to review and demonstrate how the structure is used in an authentic way.

Read the structure together as a class.

Write a few more examples on the board to help familiarize the structure in the students' minds. Complete the activity as a class and review the correct answers with the students.

Before turning the page, ask the students the academic objective question. This question focuses on the academic content learning goals of the unit. Focus more on that than on the language learning goals when you discuss answers with students. Use your native language if necessary. Teach students unknown words that may arise as they try to answer the academic objective question. Probe the class to see if there are differing opinions or if everyone agrees on a consensus answer. Ask the students to keep this question in mind as they read the passage on the next page.

# **501** LESSON A

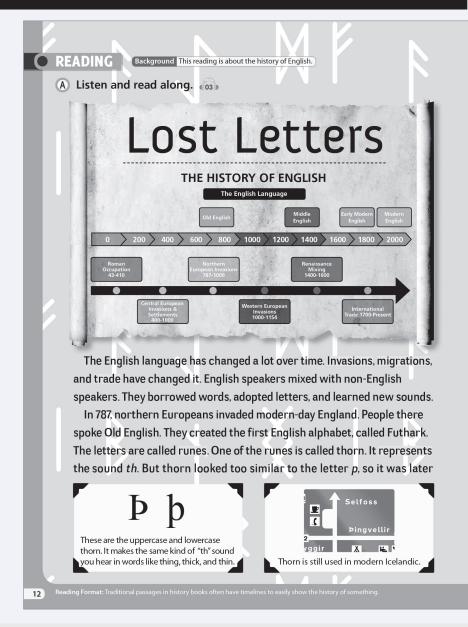

#### **TEACHING TIPS**

#### **READING PASSAGE**

Low-Level Students: After listening to the audio, reading, and clarifying any additional unknown words, read the passage together again as a class. Allow students to look at the diagram and discuss the events on the timeline.

High-Level Students: Ask the students to make connections between the contents of the passage and their own language. Ask them if they know when the alphabet or writing system was created. Ask them to talk about how their own language changed over time.

Introduce the background of the reading using the background information at the top of the page.

Explain to the students that the reading format of this passage is a traditional passage. Tell the students that traditional passages are often found in history books. Tell them that traditional passages in history books often include a timeline to show the history of important events.

Review the title of the reading: Lost Letters. Ask the students why they think this is the title. Explain this is because they will learn about Old English and how it changed into modern English.

#### **READING PASSAGE**

#### **PASSAGE DETAILS**

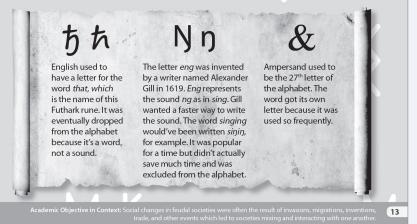

replaced by the letters *th*. This is why today *t* and *h* have a unique sound when put together.

Around 1000, England was invaded by Western Europeans. From 1100 to 1500, Old English changed into Middle English. It used Latin letters. They look like today's alphabet.

Invasions and wars influenced the spread and change of languages long ago. People borrowed and mixed words from the language of the people who invaded their land.

From 1500 to 1800, the language changed into Early Modern English. It used twenty-seven alphabet letters. The 27<sup>th</sup> letter was the ampersand. All of the other letters represent sounds. But the ampersand represents the word *and*. However, being the only letter that represented a word, it was eventually dropped from the alphabet. The symbol is still used today, though. You can see it on any keyboard.

These and other events, occurring since ancient times, have resulted in today's Modern English.

Reading Format: Traditional passage

Academic Objective: Understand that social changes in feudal societies were often the result of invasions, migrations, inventions, trade, and other events which led to societies mixing and interacting with one another.

Academic Objective in Context:

Social changes in feudal societies were often the result of invasions, migrations, inventions, trade, and other events which led to societies mixing and interacting with one another.

Tell students to read along quietly while they listen to the audio track. Tell them to circle any unknown words while they listen. Play audio **track 03**.

After the track is finished, ask the students if there are any unknown words that they circled. Review the meaning of those words and how they are used in the passage. Use your native language to do this if necessary.

Call students to read the captions with each picture. Ask the class to compare the English alphabet systems with the alphabet and letters of their own language.

Ask the students to recall the academic objective question from the second page of lesson A. Now ask them to read the academic objective in context at the bottom of this page. This should help the students with the academic content learning goal of this unit. Discuss and explain further if necessary.

# EO1 LESSON A

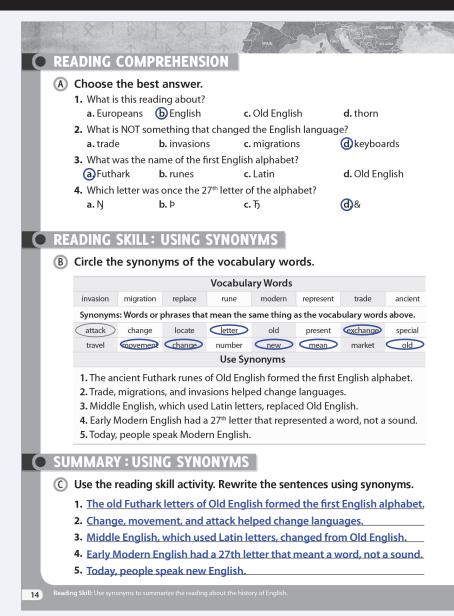

#### **TEACHING TIPS**

#### READING COMPREHENSION & READING SKILL DEVELOPMENT

# Level Tips

Low-Level Students: While completing both the comprehension questions and the reading skill activity, allow the students to turn back to the passage to locate the correct answers in the passage. Offer guidance and assistance as needed, such as pointing out which paragraph students should look in to find each correct answer.

High-Level Students: Ask students follow-up questions to the comprehension questions, i.e. 3. What was the name of the first English alphabet? Correct answer: a. Futhark. Ask the students what the letters were called.

#### Reading Comprehension:

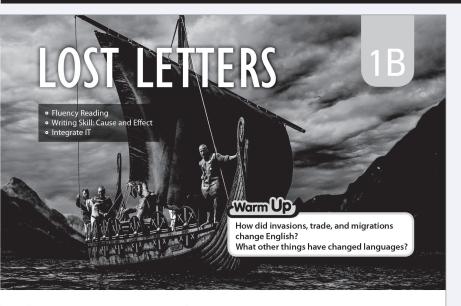

Ask the students to recall the correct information from the passage. Go through each question and correct answer together as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

#### Reading Skill:

Explain to the students that a *using synonyms* means using different words that have the same meaning. Tell the students to select the correct synonym for each word. Ask students to write the sentences by using the synonyms. After allowing students enough time to write all the answers in the summary section, randomly call students to read their answers.

#### LESSON B INTRODUCTION & VOCABULARY REVIEW

#### **TEACHING TIPS**

#### **OVOCABULARY REVIEW**

(A) Fill in the blank with the correct word.

1.	The book was written 2,000 years ago.
	The <u>migration</u> happens every year in the winter, when the birds fly south for warmer weather.
3.	We <u>traded</u> food at lunchtime. I gave my apple for her orange.
4.	There was a(n) of tiny insects. They were everywhere!
	We couldn't read the old runes as they are very different from the modern alphabet.
6.	I <u>replaced</u> the injured soccer player on the field.
	My friend wants to buy a more <u>modern</u> phone because his is too old.
8.	The president of a country <u>represents</u> all the people in their country.

invasion runes replaced migration modern represents traded ancient

# Level Tips

Low-Level Students: Tell the students to turn back to the new words page in Lesson A and review the meaning of each word. Then use the free downloadable worksheet for additional vocabulary practice before completing the vocabulary review on this page.

High-Level Students: Ask students to write one additional sentence for each vocabulary word in a notebook or beneath each sentence on this page in the student book. Randomly call students to share the sentences they wrote.

Quickly review the learning objectives of Lesson B.

Look at the picture. Discuss the picture and the warm-up question on the first page of Lesson B.

**1.** How did invasion, trade, and migrations change English? Sample answer: Different languages were mixed with each other.

2. What other things have changed languages?

Sample answer: Exchange of culture through media has changed languages.

Complete the vocabulary review as a class or individually and then check the answers together as a class.

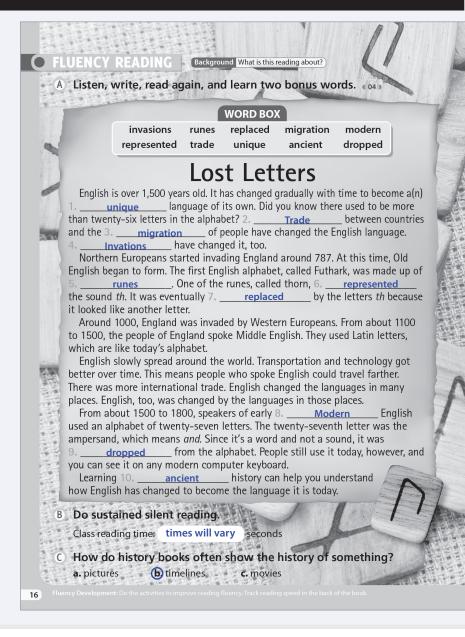

#### **TEACHING TIPS**

#### READING FLUENCY DEVELOPMENT & BONUS WORDS

Low-Level Students: Set up a timer in class that all students can see. Tell the students to read the passage a third time and record their individual reading time in the second reading column on the reading speed chart for this unit.

High-Level Students: Teach the students how to do the reading speed calculation. Tell the students that they can track their individual reading time at home in the second reading column on the reading speed chart for this unit.

Read the background question at the top of the page. Ask students if they remember what the reading is about.

**Sample answer**: It's about the change of the English language over time.

Find the two bonus words in the table of contents. Teach the students what these words mean. Tell the students to listen, read along, and write the words from the word box into the blanks of the passage as they listen to the audio. Tell the students to listen and read along with the audio. Play audio **track 04**.

After listening to the audio, tell the students to do the reading activity in activity B. Record the class reading time and record it in the reading speed chart in the back of the book.

Ask the students if they remember what the reading format of this passage is. Briefly discuss it and circle the correct answer.

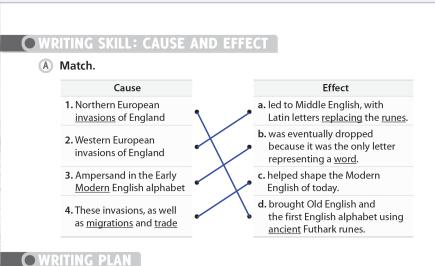

#### READING + WRITING SKILL TRANSFERENCE & WRITING PLAN

#### **TEACHING TIPS**

Low-Level Students: Complete the writing plan together as a class. Then have students transfer the information in the chart from the student book to the practice book. Have students close the student book and double-check the accuracy of the writing plan in their practice books.

High-Level Students: Have students complete the writing plan individually. Check the answers together as a class. Then have students transfer the information in the writing plan from their student book to the practice book. Encourage students to write an additional sentence in their homework.

(B) Complete the writing plan. Use the reading and writing skills of this unit.

# Using Synonyms + Cause and Effect WORD BOX attacks movement change letters new mean exchange old 1. Northern European attacks of England brought Old English and the first English alphabet using old Futhark letters. 2. Western European invasions of England led to Middle English, with Latin letters changing to the letters. 3. Ampersand in the Early New English alphabet was eventually dropped because it was the only letter meaning a mean. 4. These invasions, as well as movement and exchange helped shape the Modern English of today.

#### WRITING SKILL EXPANSION

C Look at page 7 in the practice book. Complete the writing plan in part C.

Writing Skill: Organize the causes and effects of how English has changed over time.

#### Writing Skill:

Introduce the writing skill to the students. Explain to the students that *cause* is the reason why something happens and *effect* is the result of what happens because of the cause. Tell them that they need to match each cause with its effect.

#### Writing Plan:

Ask the students to recall the reading skill from this unit: *using synonyms*. Tell the students that they will use that reading skill again to put the information from the writing skill activity in the correct category. Complete the chart and review as a class. After completing the writing plan chart, have the students record that information in their practice books. Tell them to write a paragraph to summarize the information in the writing plan. Explain that the writing plan is there to help guide them, but also that their writing doesn't need to follow the writing plan verbatim. Use your native language as necessary. Tell the students to write with small, neat letters so that all of the information can fit into the chart.

# EO1 LESSON B

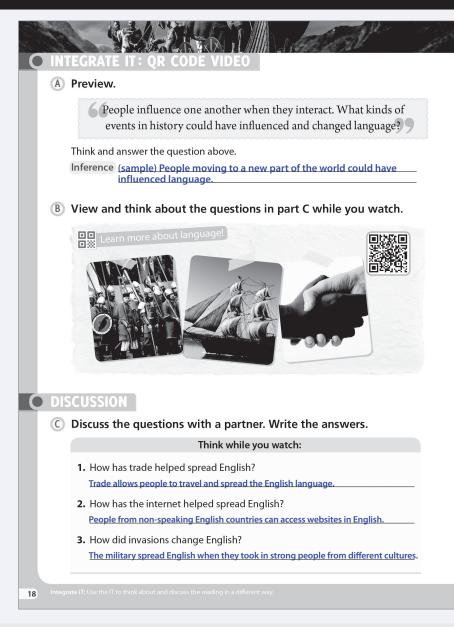

#### **TEACHING TIPS**

#### **INTEGRATE IT SKILLS & DIGITAL LITERACY**

### Level Tips

Low-Level Students: Ask the students if there were any parts of the video that they didn't understand. Replay those sections and explain in your native language to promote and support deeper understanding.

High-Level Students: Ask the students to record any unfamiliar words from the video and review the meaning of those words together as a class to support vocabulary expansion.

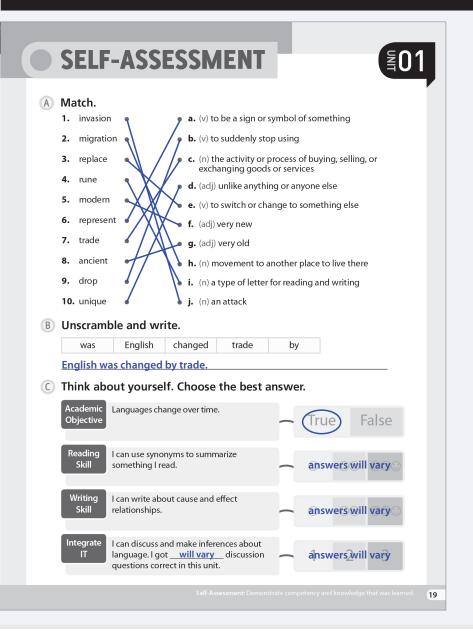

Explain to the students that they will now watch a video about the Roman Empire. Read the quote from the preview and brainstorm answers as a class. Come to an agreement about the inference answer that you will write down as a class.

Sample answer: People moving to a new part of the world could have influenced language.

Ask the students if they know what a QR code is. Point it out on the page. Explain how it works and demonstrate it if possible using the *Integrate Viewer* app. Before watching the video, read each question in part C together as a class. Tell the students these questions will be answered as they watch the contents of the video. Show the video. Give the students some time to discuss the questions. This can be done in pairs, in small groups, or together as a class. Go over the answers as a class.

#### **SELF-ASSESSMENT & UNIT WRAP-UP**

#### TEACHING TIPS

Use the grading rubric to perform your own assessment of each student's progress for this unit.

Adjust the rubrics to match the level of your students as necessary.

# Level Tips

Low-Level Students: Allow students to turn back to the pages of the unit to find the answers. Check the answers together as a class.

High-Level Students: Treat the page as a sort of quiz.

Complete the vocabulary check. Review the correct answers as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

Ask students to unscramble the sentence individually. Check the answers together as a class. Review the academic objective statement. Ask the students who think the answer is true to raise their hands. Do the same for students who think the statement is false. Tell students the correct answer and talk about why that answer is correct.

Ask students to evaluate their own work on the reading skill section in Lesson A, the writing skill section in Lesson B, and the questions on the Integrate IT page. Tell them to use the number of mistakes they made to guide their self-assessment. If they couldn't get anything correct they should fill in the single smiley face; if they made a few mistakes, two smiley faces; and if they only made a couple of small mistakes, or none at all, they can fill in three smiley faces. This allows the students to assess where they need to improve and you to align assessment as the teacher with the students' understanding of their own performance.

# 102 THE ROMAN EMPIRE

#### **UNIT SUMMARY**

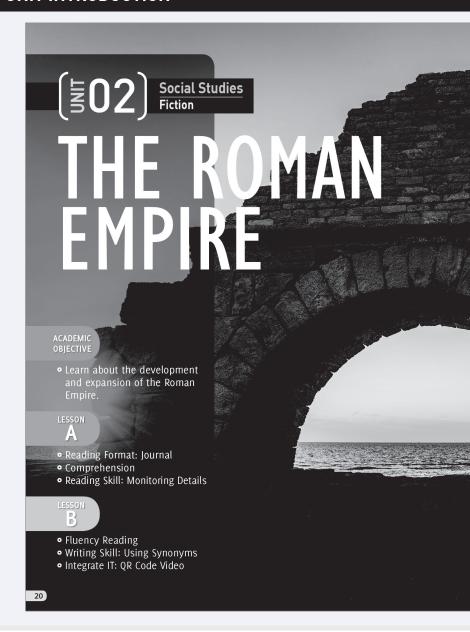

#### **UNIT INTRODUCTION**

Unit 2: Social Studies / Fiction

Academic Objective: Learn about the development and expansion of the Roman Empire.

#### Academic Objective in Context:

The Roman Empire developed and expanded through a strong central government, a strong military, open architecture, and roads that connected people. This helped set the foundation for modern Western culture.

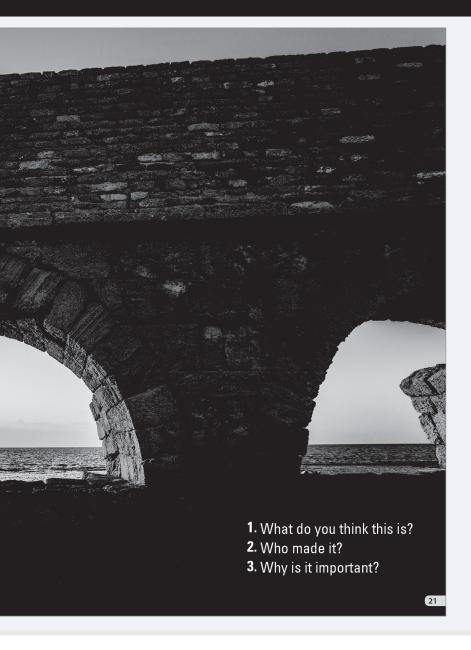

Introduce the topic with the picture on the unit introduction page. Get students thinking and talking about the topic.

Review the academic objective on the page.

Preview the learning objectives in Lesson A. Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points.

# LESSON A

#### **UNIT SUMMARY**

#### Language Learning Objectives

New Words: foundation, structure, architecture, expand, advanced, establish, territory, official

Bonus Words: ally, conquer

Structure Focus: Adverbs of Place, Time, and Manner

Reading Format: Journal

Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points. Ask students which countries are known to have high populations to activate prior knowledge.

#### 1. What do you think this is?

Sample answer: I think it is a watchtower or a bridge.

#### 2. Who made it?

Sample answer: I think regular people made it.

#### 3. Why is it important?

Sample answer: It is important because it is a piece of ancient history.

# **502** LESSON A

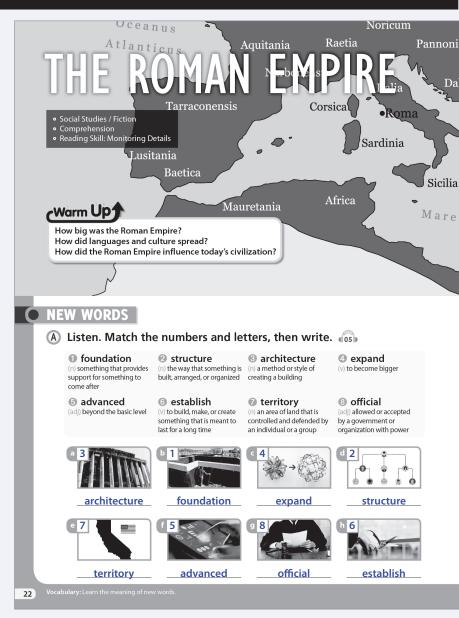

#### **TEACHING TIPS**

# Level Tips

Low-Level Students: After completing the new words activity on page 22, check the answers by asking students to read the words and spell them.

High-Level Students: After completing the new words activity on page 22, check the answers by giving students 1-2 minutes to memorize the new words on page 22, and then ask them to close the book and recall each word from memory.

#### **NEW WORDS**

Use the picture to activate students' prior knowledge about the topic of the unit. Ask the students what they know about the Romans. Focus the attention of the students on the picture and ask them the warm-up questions:

#### 1. How big was the Roman Empire?

Sample answer: The Roman Empire was quite big.

#### 2. How did the languages and culture spread?

Sample answer: I think languages and culture spread because of invasions and trade.

#### 3. How did the Roman Empire influence today's civilization?

Sample answer: I think it influenced today's government and architecture.

Explain to the students that they will learn about the Roman Empire and how it has influenced today's modern civilization. Tell them that the Roman Empire had new ideas of government, transportation, architecture, and culture. Ask students to recall how languages changed in Unit 1. Explain that students will learn new words related to history.

Play audio **track 05** and ask students to say and write each word as they hear them.

#### **GRAMMATICAL STRUCTURE**

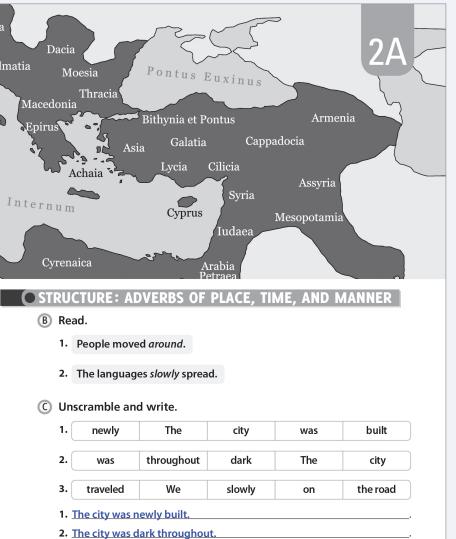

# l aval TinÖ

Level Tips

Low-Level Students: Use the free downloadable worksheet for additional practice with the structure before reading.

**TEACHING TIPS** 

High-Level Students: Write a few more examples on the board with intentional mistakes. Call on individual students to correct the mistakes.

The structure in each unit is meant to highlight a key grammatical structure that is covered in the reading passages of the units.

The intended purpose of highlighting the structure is to review and demonstrate how the structure is used in an authentic way.

Read the structure together as a class.

3. We slowly traveled on the road

BEFORE YOU READ Academic Objective Question: How did the Roman Em

Write a few more examples on the board to help familiarize the structure in the students' minds. Complete the activity as a class and review the correct answers with the students.

Before turning the page, ask the students the academic objective question. This question focuses on the academic content learning goals of the unit. Focus more on that than on the language learning goals when you discuss answers with students. Use your native language if necessary. Teach students unknown words that may arise as they try to answer the academic objective question. Probe the class to see if there are differing opinions or if everyone agrees on a consensus answer. Ask the students to keep this question in mind as they read the passage on the next page.

# E02 LESSON A

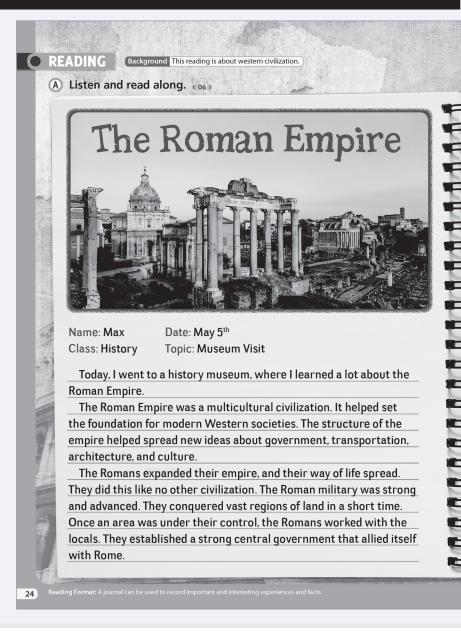

#### **TEACHING TIPS**

#### **READING PASSAGE**

Low-Level Students: After listening to the audio, reading, and clarifying any additional unknown words, read the passage together again as a class. Allow the students to practice pronouncing the vocabulary words, assisting them when needed.

High-Level Students: Ask the students to make connections between the contents of the passage and their own experiences going to a history museum. Ask them what they saw and what they learned. Ask them to make comparisons with the Roman Empire with ancient civilization in their own countries.

Introduce the background of the reading using the background information at the top of the page.

Explain to the students that the reading format of this passage is a journal. Tell them that journals can be used to record important and interesting information and experiences. Ask the students which class this journal is written for and what the topic of journal is.

Review the title of the reading: The Roman Empire. Ask the students why they think this is the title. Explain this is because the reading is about the Roman Empire and how it has influenced modern civilization.

#### **READING PASSAGE**

#### **PASSAGE DETAILS**

Reading Format: Journal

Academic Objective: Learn about the development and expansion of the Roman Empire.

#### Academic Objective in Context:

The Roman Empire developed and expanded through a strong central government, a strong military, open architecture, and roads that connected people. This helped set the foundation for modern Western culture.

Tell students to read along quietly while they listen to the audio track. Tell them to circle any unknown words while they listen. Play audio **track 06**.

After the track is finished, ask the students if there are any unknown words that they circled. Review the meaning of those words and how they are used in the passage. Use your native language to do this if necessary.

Call students to read the captions and look at the pictures. Discuss how the Roman Empire influenced Western civilization.

Ask the students to recall the academic objective question from the second page of lesson A. Now ask them to read the academic objective in context at the bottom of this page. This should help the students with the academic content learning goal of this unit. Discuss and explain further if necessary.

# **EO2** LESSON A

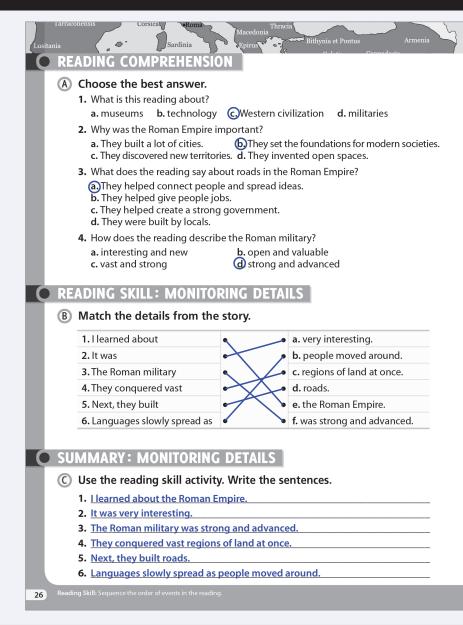

#### **TEACHING TIPS**

#### READING COMPREHENSION & READING SKILL DEVELOPMENT

Low-Level Students: While completing both the comprehension questions and the reading skill activity, allow the students to turn back to the passage to locate the correct answers in the passage. Offer guidance and assistance as needed, such as pointing out which parts of the reading students should look in to find each correct answer.

High-Level Students: Ask students follow-up questions to the comprehension questions, i.e. 4. How does the reading describe the Roman military? Correct answer: d. strong and advanced. Ask the students what the military did.

#### Reading Comprehension:

Ask the students to recall the correct information from the passage. Go through each question and correct answer together as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

#### Reading Skill:

Explain to the students that *monitoring details* means paying attention and keeping track of details while reading. Tell the students to match the details from the passage. Ask students to write the complete sentences. After allowing students enough time to write all the answers in the summary section, randomly call students to read their answers.

#### **LESSON B INTRODUCTION & VOCABULARY REVIEW**

#### **TEACHING TIPS**

#### O VOCABULARY REVIEW

A Fill in the blank with the correct word.

	structure established		foundation architecture
1. The <u>archite</u>	cture of this bui	lding is really bear	utiful.
2. The balloon	<b>expanded</b> as	s she blew more ai	r inside of it.
3. The new compu	ter is very <u>adva</u>	nced	
<b>4.</b> The dog barks at	anyone who comes	near his <u>ter</u>	ritory
5. Please show you	r <u>official</u>	ID card.	
<b>6.</b> Books have beer	the <u>foundatio</u>	n of the mod	lern education system.
7. One teacher with in most countrie	,	e <u>structure</u>	of the classroom
8. The country	<b>established</b> a	new rule about pa	aying taxes.

# Level Tips

Low-Level Students: Tell the students to turn back to the new words page in Lesson A and review the meaning of each word. Then use the free downloadable worksheet for additional vocabulary practice before completing the vocabulary review on this page.

High-Level Students: Ask students to write one additional sentence for each vocabulary word in a notebook or beneath each sentence on this page in the student book. Randomly call students to share the sentences they wrote.

Quickly review the learning objectives of Lesson B.

Look at the picture. Discuss the picture and the warm-up questions on the first page of Lesson B. Make a connection to the real world using the picture.

#### 1. How do you think this helped spread their culture?

Sample answer: The military was strong and advanced, so they conquered many lands.

#### 2. What else spread with them?

Sample answer: I think language and food also spread with them.

Complete the vocabulary review as a class or individually and then check the answers together as a class.

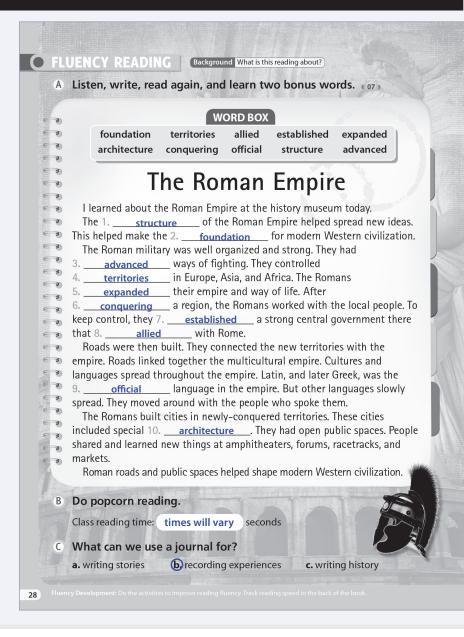

#### **TEACHING TIPS**

#### READING FLUENCY DEVELOPMENT & BONUS WORDS

Low-Level Students: Set up a timer in class that all students can see. Tell the students to read the passage a third time and record their individual reading time in the second reading column on the reading speed chart for this unit.

High-Level Students: Teach the students how to do the reading speed calculation. Tell the students that they can track their individual reading time at home in the second reading column on the reading speed chart for this unit.

Read the background question at the top of the page. Ask students if they remember what the reading is about.

Sample answer: It's about the how the Roman Empire influenced modern civilization.

Find the two bonus words in the table of contents. Teach the students what these words mean. Tell the students to listen, read along, and write the words from the word box into the blanks of the passage as they listen to the audio. Play audio **track 07**.

After listening to the audio, tell the students to do the reading activity in activity B. Record the class reading time and record it in the reading speed chart in the back of the book.

Ask the students if they remember what the reading format of this passage is. Briefly discuss it and circle the correct answer.

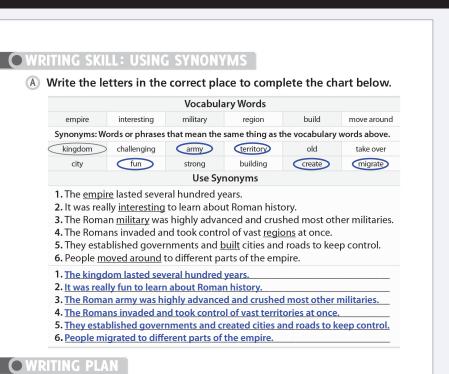

#### **READING + WRITING SKILL TRANSFERENCE & WRITING PLAN**

#### **TEACHING TIPS**

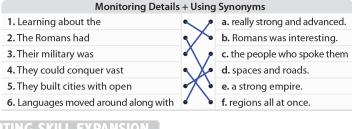

Low-Level Students: Complete the writing plan together as a class. Then have students transfer the information in the chart from the student book to the practice book. Have students close the student book and double-check the accuracy of the writing plan in their practice books.

High-Level Students: Have students complete the writing plan individually. Check the answers together as a class. Then have students transfer the information in the writing plan from their student book to the practice book. Encourage students to write an additional sentence in their homework.

Complete the writing plan. Use the reading and writing skills of this unit.

#### RITING SKILL EXPANSION

C Look at page 11 in the practice book. Complete the writing plan in part C.

#### Writing Skill:

Introduce the writing skill to the students. Tell them that using synonyms means using different words that have the same meaning to add variety to your writing. Tell them to look back at the story and match the synonyms. Explain that using synonyms in this way will make them better writers.

29

#### Writing Plan:

Ask the students to recall the reading skill from this unit: monitoring details. Tell the students that they will use that reading skill again to put the information from the writing skill activity into the writing plan chart. After completing the writing plan chart, have the students record that information in their practice books. Tell them to write a paragraph to summarize the information in the writing plan. Explain that the writing plan is there to help guide them, but also that their writing doesn't need to follow the writing plan verbatim. Use your native language as necessary.

# EO2 LESSON B

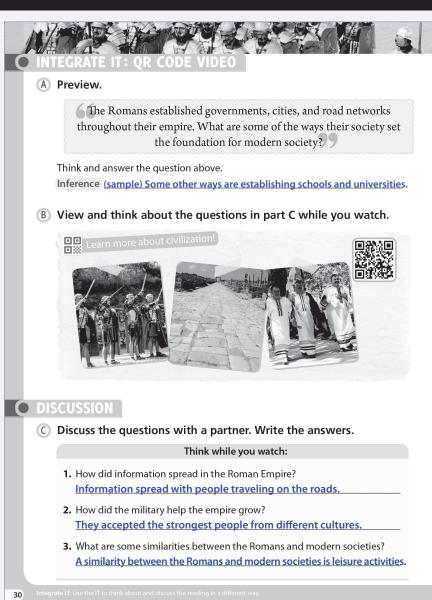

#### **TEACHING TIPS**

#### **INTEGRATE IT SKILLS & DIGITAL LITERACY**

# Level Tips

Low-Level Students: Ask the students if there were any parts of the video that they didn't understand. Replay those sections and explain in your native language to promote and support deeper understanding.

High-Level Students: Ask the students to record any unfamiliar words from the video and review the meaning of those words together as a class to support vocabulary expansion.

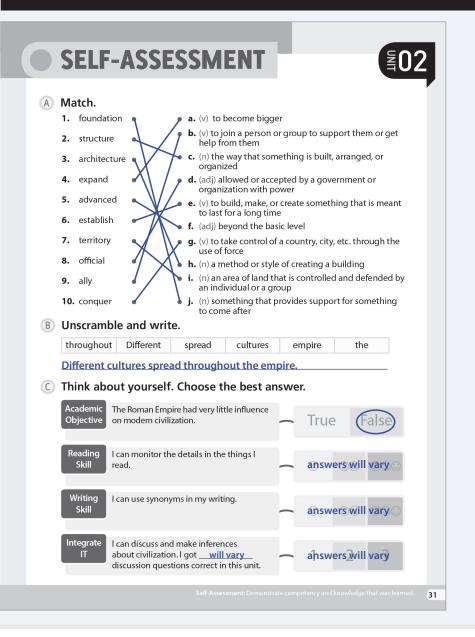

Explain to the students that they will now watch a video about the Roman Empire. Read the quote from the preview and brainstorm answers as a class. Come to an agreement about the inference answer that you will write down as a class.

Sample answer: Some other ways are establishing schools and universities.

Ask the students if they remember what a QR code is. Point it out on the page. Ask them how it works. Demonstrate it if possible using the Integrate Viewer app. Before watching the video, read each question in part C together as a class. Tell the students these questions will be answered as they watch the contents of the video. Show the video. Give the students some time to discuss the questions. This can be done in pairs, in small groups, or together as a class. Go over the answers as a class.

### **SELF-ASSESSMENT & UNIT WRAP-UP**

### **TEACHING TIPS**

Use the grading rubric to perform your own assessment of each student's progress for this unit.

Adjust the rubrics to match the level of your students as necessary.

## Level Tips

Low-Level Students: Allow students to turn back to the pages of the unit to find the answers. Check the answers together as a class.

High-Level Students: Treat the page as a sort of quiz.

Complete the vocabulary check. Review the correct answers as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

Ask students to unscramble the sentence individually. Check the answers together as a class.

Review the academic objective statement. Ask the students who think the answer is true to raise their hands. Do the same for students who think the statement is false. Tell students the correct answer and talk about why that answer is correct.

Ask students to evaluate their own work on the reading skill section in Lesson A, the writing skill section in Lesson B, and the questions on the Integrate IT page. Tell them to use the number of mistakes they made to guide their self-assessment. If they couldn't get anything correct they should fill in the single smiley face; if they made a few mistakes, two smiley faces; and if they only made a couple of small mistakes, or none, they can fill in three smiley faces. This allows the students to assess where they need to improve and you to align your assessment as the teacher with the students' understanding of their own performance.

# ±03

# 3 BODILY SYSTEMS

### **UNIT SUMMARY**

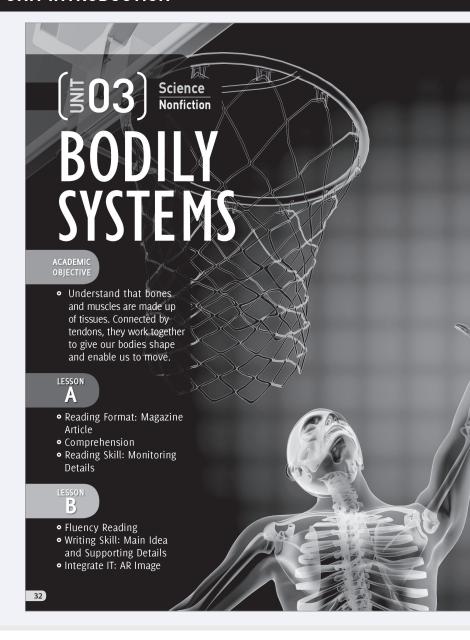

### **UNIT INTRODUCTION**

Unit 3: Science / Nonfiction

Academic Objective: Understand that bones and muscles are made up of tissues. Connected by tendons, they work together to give our bodies shape and enable us to move.

### Academic Objective in Context:

Bones and muscles are made up of tissues. Connected by tendons, they work together to give our body shape and enable us to move.

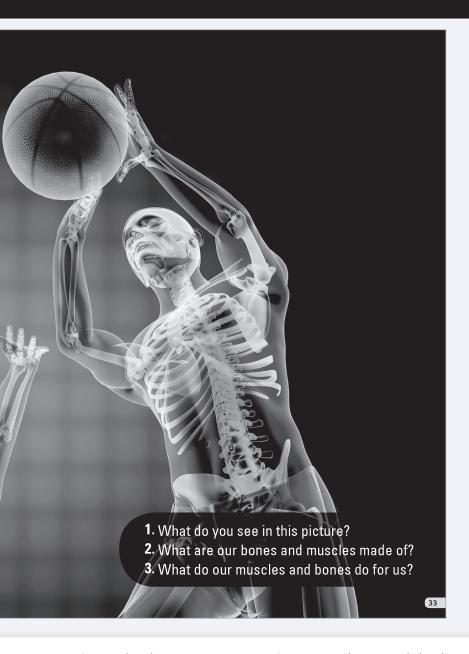

Introduce the topic with the picture on the unit introduction page. Get students thinking and talking about the topic.

Review the academic objective on the page.

Preview the learning objectives in Lesson A. Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points.

# LESSON A

### **UNIT SUMMARY**

### Language Learning Objectives

New Words: bodily, muscle, bone, skeleton, tissue, tendon, function, protect

Bonus Words: diet, extremely

Structure Focus: Equative Adjectives and Adverbs

Reading Format: Magazine article

Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points. Ask students to name body parts to activate prior knowledge.

1. What do you see in this picture?

Sample answer: I see two people playing basketball. I can see their bones.

2. What are our bones and muscles made of?

Sample answer: They are made up of tissue.

3. What do our muscles and bones do for us?

Sample answer: They give us our shape and help us move around.

# EO3 LESSON A

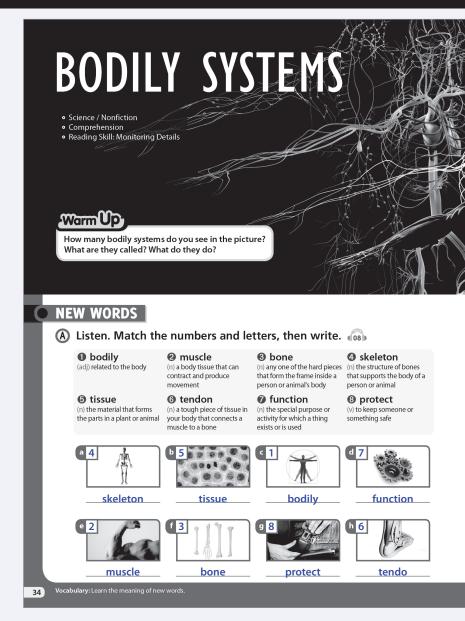

**TEACHING TIPS** 

### **NEW WORDS**

Low-Level Students: After completing the new words activity on page 34, check the answers by asking students to read the words and spell them.

High-Level Students: After completing the new words activity on page 34, check the answers by giving students 1-2 minutes to memorize the new words on page 34, and then ask them to close the book and recall each word from memory.

Use the picture to activate students' prior knowledge about the topic of the unit. Ask the students what they see in the picture. Focus the attention of the different bodily systems and ask them the warm-up questions:

### 1. How many bodily systems do you see in the picture?

Sample answer: I see six bodily systems in the picture.

### 2. What are they called?

Sample answer: I don't know what they are all called, but I know the skeletal and muscular systems.

### 3. What do they do?

Sample answer: They both give us our shape and help us move.

Tell students that the human body is very complex. Explain to the students that we have eleven bodily systems and that they will learn about two: the skeletal system and the muscular system. Tell them both systems give our bodies shape and help us move around. Explain that students will learn new words related to bodily systems.

Play audio **track 08** and ask students to say and write each word as they hear them.

### **GRAMMATICAL STRUCTURE**

# Level Tips

Low-Level Students: Use the free downloadable worksheet for additional practice with the structure before reading.

**TEACHING TIPS** 

High-Level Students: Write a few more examples on the board with intentional mistakes. Call on individual students to correct the mistakes.

### STRUCTURE: EQUATIVE ADJECTIVES AND ADVERBS

- (B) Read.
  - 1. Our bones are as strong as granite.
  - 2. Twenty tons is as heavy as two and a half adult elephants.
- C Correct the underlined word and write.
  - 1. My bones are <u>as stronger as</u> rocks.
  - 2. I am <u>as tallest than</u> my brother.
  - 3. A truck is as heavier as a truck.
  - 1. My bones are as strong as rocks.
  - 2. Lam as tall as my brother.
  - 3. A truck is as heavy as a truck.

GEFORE YOU READ Academic Objective Question: What do our bones and muscles do? How do they work together?

35

The structure in each unit is meant to highlight a key grammatical structure that is covered in the reading passages of the units.

The intended purpose of highlighting the structure is to review and demonstrate how the structure is used in an authentic way.

Read the structure together as a class.

Write a few more examples on the board to help familiarize the structure in the students' minds. Complete the writing activity as a class and review the correct answers with the students.

Before turning the page, ask the students the academic objective question. This question focuses on the academic content learning goals of the unit. Focus more on that than on the language learning goals when you discuss answers with students. Use your native language if necessary. Teach students unknown words that may arise as they try to answer the academic objective question. Probe the class to see if there are differing opinions or if everyone agrees on a consensus answer. Ask the students to keep this question in mind as they read the passage on the next page.

# EO3 LESSON A

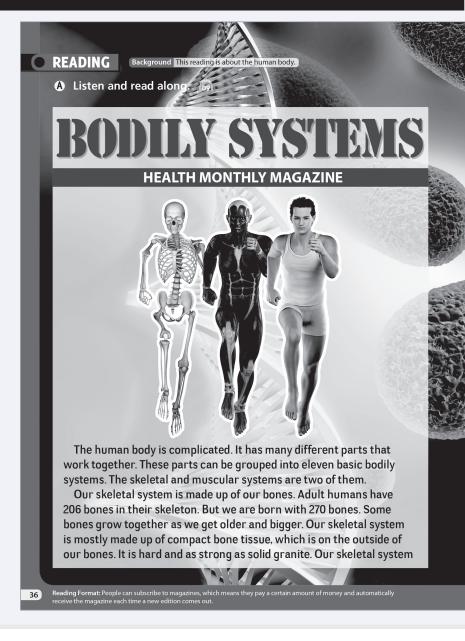

### **TEACHING TIPS**

### **READING PASSAGE**

Low-Level Students: After listening to the audio, reading, and clarifying any additional unknown words, read the passage together again as a class. Allow students to read the captions and then describe the images.

High-Level Students: Ask the students to make connections between the contents of the passage and the real world. Ask them what they know about professional athletes. Ask them to discuss ways an athlete trains to better perform in their sport. Ask them to think of ways how athletes can make their skeletal and muscular systems stronger.

Introduce the background of the reading using the background information at the top of the page.

Explain to the students that the reading format of this passage is a magazine article. Tell the students that people can subscribe to magazines. Explain that subscribing to a magazine mean they pay money to receive a new magazine each time a new edition comes out. Tell them that people can also subscribe to newspapers.

Review the title of the reading: Bodily Systems. Ask the students why they think this is the title. Explain this is because the passage is about the muscular and skeletal systems.

### **READING PASSAGE**

### The brain sends messages and controls the body. Messages are sent through the spinal cord, which is protected by our backbone. gives our bodies shape. Bones also help with lots of important bodily functions. For example, our backbone protects our spinal cord, which carries messages between the brain to the rest of the body. Another important bodily system is the muscular system. Humans have over 650 muscles, which make up 50 percent of our weight. Muscles and bones are connected by tissue called tendons. Muscles use tendons to pull on bones. This is how we Did you know? If all 650-plus muscles pulled in the same direction at once, you can move. If a tendon is broken or could lift over twenty tons? Twenty tons is torn, we can't move. Muscles hold as heavy as two and a half adult elephants. the skeleton together. Muscles give our body shape, too. Our muscular and skeletal systems are very important. They give our bodies shape and allow us to move. Eat a healthy diet and exercise so your muscles and bones will work well.

### **PASSAGE DETAILS**

Reading Format: Magazine article

Academic Objective: Understand that bones and muscles are made up of tissues. Connected by tendons, they work together to give our bodies shape and enable us to move.

### Academic Objective in Context:

Bones and muscles are made up of tissues. Connected by tendons, they work together to give our body shape and enable us to move.

Tell students to read along quietly while they listen to the audio track. Tell them to circle any unknown words while they listen. Play audio **track 09**.

After the track is finished, ask the students if there are any unknown words that they circled. Review the meaning of those words and how they are used in the passage. Use your native language to do this if necessary.

Call students to discuss the function and importance of our skeletal and muscular systems. Ask students why they think both systems depend on each other. Ask them to think about the skeletal and muscular systems of other animals and how those systems help them survive.

Ask the students to recall the academic objective question from the second page of lesson A. Now ask them to read the academic objective in context at the bottom of this page. This should help the students with the academic content learning goal of this unit. Discuss and explain further if necessary.

# EO3 LESSON A

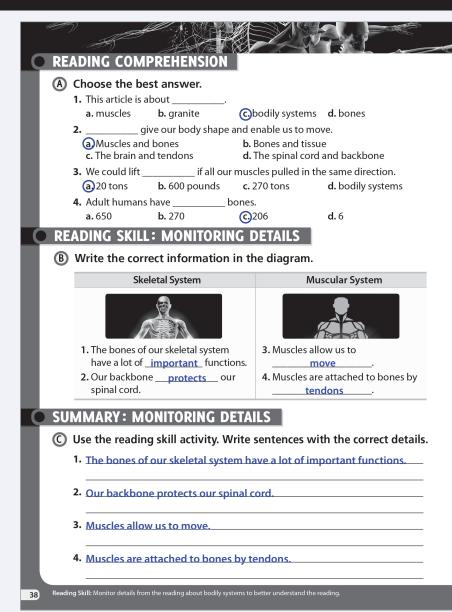

### **TEACHING TIPS**

### READING COMPREHENSION & READING SKILL DEVELOPMENT

## Level Tips

Low-Level Students: While completing both the comprehension questions and the reading skill activity, allow the students to turn back to the passage to locate the correct answers in the passage. Offer guidance and assistance as needed, such as pointing out which parts of the reading students should look in to find each correct answer.

High-Level Students: Ask students follow-up questions to the comprehension questions, i.e. 4. Adults have \_\_\_\_\_ bones. Correct answer: c. 206. Ask students how many bones we are born with.

### Reading Comprehension:

Ask the students to recall the correct information from the passage. Go through each question and correct answer together as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

### Reading Skill:

Explain to the students that *monitoring details* means paying attention and keeping track of details while reading. Tell the students to match the details from the passage. Complete the activity together as a class. Ask students to write sentences with the correct details in the summary section, and then randomly call students to read their answers.

### **LESSON B INTRODUCTION & VOCABULARY REVIEW**

### **TEACHING TIPS**

### OCABULARY REVIEW A Choose the correct word to complete the sentence. 1. My brother fell off his bike and broke a \_ in his arm. **b**bone c. skeleton 2. The worker wears a hard hat to his head. c. tissue (a.) protect **b.** function 3. Stretching before exercise helps your which connect your muscles and bones. a. skeletons b. tissues (c) tendons 4. Humans have eleven basic \_ \_systems. a bodily c. function b. bone is mostly made up of bones. **5.** Our a. muscles **(b.)** skeleton c. tissue 6. The outside of our bones is made up of compact \_ which is hard, strong, and solid. b. skeleton (c) tissue a. bones **7.** The in our bodies help hold the skeleton together. (b) muscles a. tissues c. bones 8. Different bones have different in the body. a. muscles b. tissues **C** functions

## Level Tips

Low-Level Students: Tell the students to turn back to the new words page in Lesson A and review the meaning of each word. Then use the free downloadable worksheet for additional vocabulary practice before completing the vocabulary review on this page.

High-Level Students: Ask students to write one additional sentence for each vocabulary word in a notebook or beneath each sentence on this page in the student book. Randomly call students to share the sentences they wrote.

Quickly review the learning objectives of Lesson B.

Look at the picture. Discuss the picture and the warm-up questions on the first page of Lesson B. Make a connection to the real world using the picture.

1. What do our muscles, bones, and tendons do?

Sample answer: Our muscles, bones, and tendons enable us to move.

2. What are two things we can do to make sure we keep them working well?

Sample answer: We can exercise and have a healthy diet.

Complete the vocabulary review as a class or individually and then check the answers together as a class.

# EO3 LESSON B

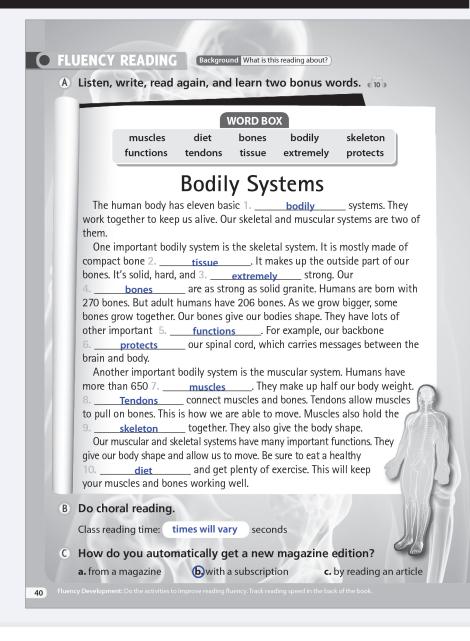

### **TEACHING TIPS**

### **READING FLUENCY DEVELOPMENT & BONUS WORDS**

Low-Level Students: Set up a timer in class that all students can see. Tell the students to read the passage a third time and record their individual reading time in the second reading column on the reading speed chart for this unit.

High-Level Students: Teach the students how to do the reading speed calculation. Tell the students that they can track their individual reading time at home in the second reading column on the reading speed chart for this unit.

Read the background question at the top of the page. Ask students if they remember what the reading is about.

Sample answer: It's about the skeletal system and the muscular system.

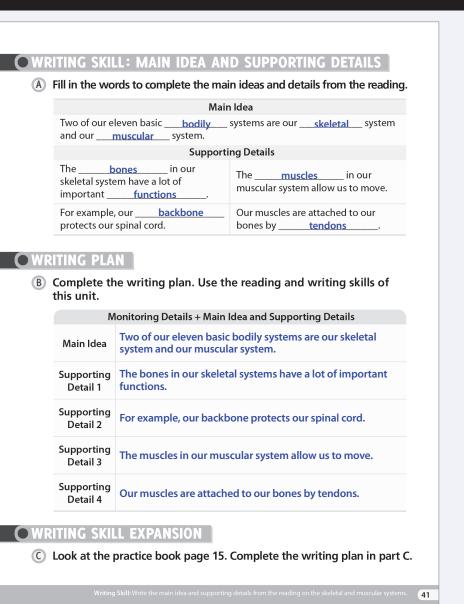

Find the two bonus words in the table of contents. Teach the students what these words mean. Tell the students to listen, read along, and write the words from the word box into the blanks of the passage as they listen to the audio. Play audio **track 10**.

After listening to the audio, tell the students to do the reading activity in activity B. Record the class reading time and record it in the reading speed chart in the back of the book.

Ask the students if they remember what the reading format of this passage is. Briefly discuss it and circle the correct answer.

### **READING + WRITING SKILL TRANSFERENCE & WRITING PLAN**

### **TEACHING TIPS**

## Level Tips

Low-Level Students: Complete the writing plan together as a class. Then have students transfer the information in the chart from the student book to the practice book. Have students close the student book and double-check the accuracy of the writing plan in their practice books.

High-Level Students: Have students complete the writing plan individually. Check the answers together as a class. Then have students transfer the information in the writing plan from their student book to the practice book. Encourage students to write an additional sentence in their homework.

### Writing Skill:

Introduce the writing skill to the students. Explain to the students that the *main idea* is what the text is about, and a *supporting detail* is information that tells more about the main idea. Tell the students to write the correct words in the diagram. Explain that organizing information this way will help them to explain things better and make them good writers.

### Writing Plan:

Ask the students to recall the reading skill from this unit: *monitoring details*. Tell the students that they will use that reading skill again to put the information from the writing skill activity into organized information about the story. Complete the chart and review as a class. After completing the writing plan chart, have the students record that information in their practice books. Tell them to write a paragraph to summarize the information in the writing plan. Explain that the writing plan is there to help guide them, but also that their writing doesn't need to follow the writing plan verbatim. Use your native language as necessary. Tell the students to write with small, neat letters so that all of the information can fit into the chart.

# EO3 LESSON B

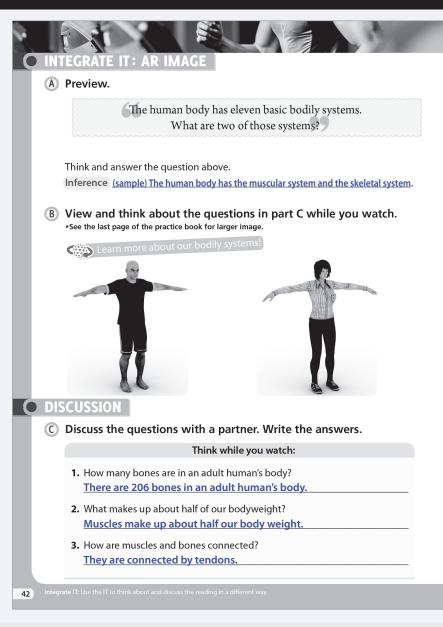

### **TEACHING TIPS**

### **INTEGRATE IT SKILLS & DIGITAL LITERACY**

## Level Tips

Low-Level Students: Ask the students if there were any parts of the video that they didn't understand. Replay those sections and explain in your native language to promote and support deeper understanding.

High-Level Students: Ask the students to record any unfamiliar words from the video and review the meaning of those words together as a class to support vocabulary expansion.

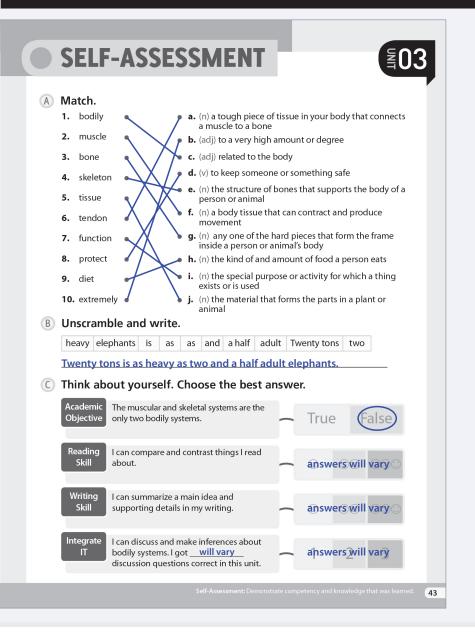

Explain to the students that they will now watch a video about the muscular system and skeletal system. Read the quote from the preview and brainstorm answers as a class. Come to an agreement about the inference answer that you will write down as a class.

Sample answer: The human body has the muscular system and the skeletal system.

Explain to the students that they will look at a special kind of picture called "AR," which stands for augmented reality. Demonstrate it if possible using the *Integrate Viewer* app. Before looking at the images in detail, read each question in part C together as a class. Tell the students these questions will be answered as they view the AR images. Show the video. Give the students some time to discuss the questions. This can be done in pairs, in small groups, or together as a class. Go over the answers as a class.

### **SELF-ASSESSMENT & UNIT WRAP-UP**

### **TEACHING TIPS**

Use the grading rubric to perform your own assessment of each student's progress for this unit.

Adjust the rubrics to match the level of your students as necessary.

## Level Tips

Low-Level Students: Allow students to turn back to the pages of the unit to find the answers. Check the answers together as a class.

High-Level Students: Treat the page as a sort of quiz.

Complete the vocabulary check. Review the correct answers as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

Ask students to unscramble the sentence individually. Check the answers together as a class.

Review the academic objective statement. Ask the students who think the answer is true to raise their hands. Do the same for students who think the statement is false. Tell students the correct answer and talk about why that answer is correct.

Ask students to evaluate their own work on the reading skill section in Lesson A, the writing skill section in Lesson B, and the questions on the Integrate IT page. Tell them to use the number of mistakes they made to guide their self-assessment. If they couldn't get anything correct they should fill in the single smiley face; if they made a few mistakes, two smiley faces; and if they only made a couple of small mistakes, or none, they can fill in three smiley faces. This allows the students to assess where they need to improve and you to align your assessment as the teacher with the students' understanding of their own performance.

# **SO4** NUTRIENTS

### **UNIT SUMMARY**

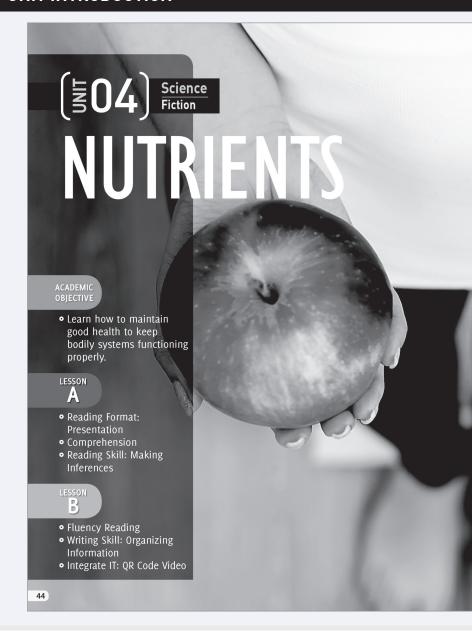

### **UNIT INTRODUCTION**

Unit 4: Science / Fiction

Academic Objective: Learn how to maintain good health to keep bodily systems functioning properly.

### Academic Objective in Context:

Having good nutrition, regular exercise, and enough sleep will keep your bodily systems healthy.

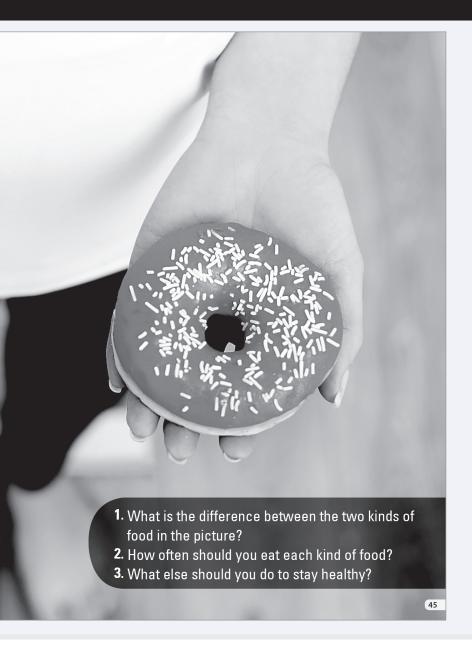

Introduce the topic with the picture on the unit introduction page. Get students thinking and talking about the topic.

Review the academic objective on the page.

Preview the learning objectives in Lesson A. Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points.

# LESSON A

### **UNIT SUMMARY**

### Language Learning Objectives

New Words: information, requirement, decision, consistent, balance, option, vitamin, mineral

Bonus Words: sustainable, equally

Structure Focus: Adverbs of Frequency

Reading Format: Presentation

Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points. Ask students what they know about healthy and unhealthy food to activate prior knowledge.

### 1. What is the difference between the two kinds of food in the picture?

Sample answer: The apple is healthy, but the donut is unhealthy.

### 2. How often should you eat each kind of food?

Sample answer: You should eat healthy food often. You should sometimes eat unhealthy food.

### 3. What else should you do to stay healthy?

**Sample answer:** You should exercise regularly and sleep enough.

# **E04** LESSON A

### **TEACHING TIPS**

### **NEW WORDS**

Low-Level Students: After completing the new words activity on page 46, check the answers by asking students to read the words and spell them.

High-Level Students: After completing the new words activity on page 46, check the answers by giving students 1-2 minutes to memorize the new words on page 46, and then ask them to close the book and recall each word from memory.

Use the picture to activate students' prior knowledge about the topic of the unit. Ask the students about the types of food they like to eat. Focus the attention of the students on the picture and ask them the warm-up questions:

- 1. What kinds of foods are there on the left pan?
  - Sample answer: Fruit and vegetables are on the left pan. These kinds of foods are good for us.
- 2. What kinds of foods are there on the right pan?
  - **Sample answer:** Chocolate, donuts, and candy are on the right. These kinds of foods are not good for us.
- 3. What will happen if you normally eat one or the other?
  - Sample answer: Your body gets healthier when you eat the foods on the left. You gain weight when you eat the foods on the right.

Explain to the students that different kinds of foods contain different nutrients. Tell them that we need nutrients in order to be healthy. Tell them that fruit and vegetables have lots of nutrients. Explain that students will learn new words related to nutrients and health.

Play audio track 11 and ask students to say and write each word as they hear them.

### **GRAMMATICAL STRUCTURE**

## Level Tips

Low-Level Students: Use the free downloadable worksheet for additional practice with the structure before reading.

**TEACHING TIPS** 

High-Level Students: Write a few more examples on the board with intentional mistakes. Call on individual students to correct the mistakes.

### STRUCTURE: ADVERBS OF FREQUENCY

- (B) Read.
  - 1. I usually eat healthy food.
  - 2. Sometimes they make the wrong choices.
- C Correct the underlined word and write. More than one answer is possible.
  - 1. I have to go to school at 8 o'clock, so I sometimes wake up at 7.
  - 2. Never doing exercise three times per week is good for you.
  - 3. I always eat junk food, so I am very healthy.
  - 1. I have to go to school at 8 o'clock, so I usually wake up at 7.
  - 2. Always doing exercise three times per week is good for you.
  - 3. I never eat junk food, so I am very healthy.

passages of the units.

OREYOUREAD Academic Objective Question: How can you maintain good health and keep your bodily systems functioning pro

The structure in each unit is meant to highlight a key grammatical structure that is covered in the reading

The intended purpose of highlighting the structure is to review and demonstrate how the structure is used in an authentic way.

Read the structure together as a class.

Write a few more examples on the board to help familiarize the structure in the students' minds. Complete the activity as a class and review the correct answers with the students.

Before turning the page, ask the students the academic objective question. This question focuses on the academic content learning goals of the unit. Focus more on that than on the language learning goals when you discuss answers with students. Use your native language if necessary. Teach students unknown words that may arise as they try to answer the academic objective question. Probe the class to see if there are differing opinions or if everyone agrees on a consensus answer. Ask the students to keep this question in mind as they read the passage on the next page.

# **E04** LESSON A

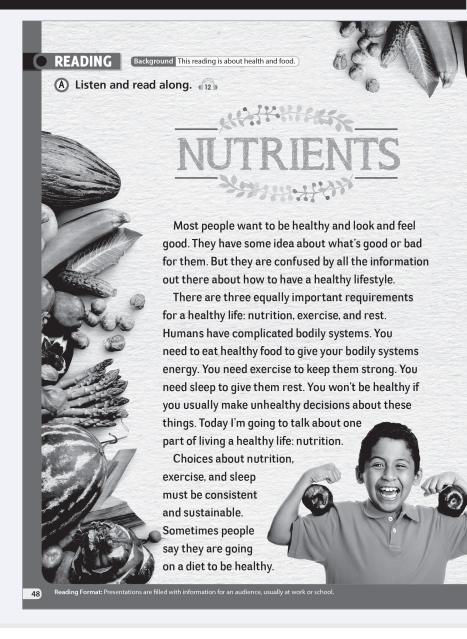

### **TEACHING TIPS**

### **READING PASSAGE**

Low-Level Students: After listening to the audio, reading, and clarifying any additional unknown words, read the passage together again as a class. Ask students to take turns reading paragraph by paragraph.

High-Level Students: Ask the students to make connections between the contents of the passage and what they know about nutrients. Ask them if they know what different types of nutrients are in different types of food.

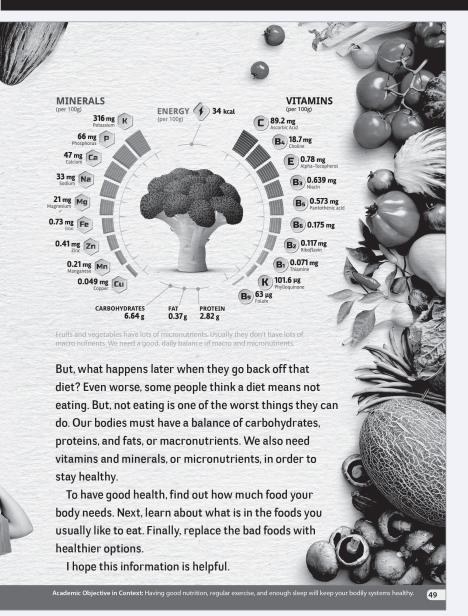

Introduce the background of the reading using the background information at the top of the page.

Explain to the students that they will read a presentation. Tell them that presentations are filled with information for an audience. Tell them that we can usually see a presentation at work or at school.

Review the title of the reading: Nutrients. Ask the students why they think this is the title. Explain this is because they will read about the importance of nutrients.

### **READING PASSAGE**

### **PASSAGE DETAILS**

Reading Format: Presentation

Academic Objective: Learn how to maintain good health to keep bodily systems functioning properly.

Academic Objective in Context: Having good nutrition, regular exercise, and enough sleep will keep your bodily systems healthy.

Tell students to read along quietly while they listen to the audio track. Tell them to circle any unknown words while they listen. Play audio **track 12**.

After the track is finished, ask the students if there are any unknown words that they circled. Review the meaning of those words and how they are used in the passage. Use your native language to do this if necessary. Call students to discuss the requirements for a healthy life. Ask them to discuss what nutrients are and where we can get them from.

Ask the students to recall the academic objective question from the second page of lesson A. Now ask them to read the academic objective in context at the bottom of this page. This should help the students with the academic content learning goal of this unit. Discuss and explain further if necessary.

### **READING COMPREHENSION & READING SKILL DEVELOPMENT**

## Level Tips

Low-Level Students: While completing both the comprehension questions and the reading skill activity, allow the students to turn back to the passage to locate the correct answers in the passage. Offer guidance and assistance as needed, such as pointing out which parts of the reading students should look in to find each correct answer.

High-Level Students: Ask students follow-up questions to the comprehension questions, i.e. 2. Protein, fats, and \_\_\_\_\_ are macronutrients. Correct answer: b. carbohydrates. Ask the students what micronutrients are.

		REHENSION		4 80 2

### Reading Comprehension:

Ask the students to recall the correct information from the passage. Go through each question and correct answer together as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

### Reading Skill:

Explain to the students that *making inferences* means making educated guesses based on what we already know. Tell the students to make inferences using the information from the passage. Complete the activity together as a class. Ask students to write the sentences they have checked. After allowing students enough time to write all the answers in the summary section, randomly call students to read their answers.

# LESSON B

### **LESSON B INTRODUCTION & VOCABULARY REVIEW**

about exercise.

### **TEACHING TIPS**

Low-Level Students: Tell the students to turn back to the new words page in Lesson A and review the meaning of each word. Then use the free downloadable worksheet for additional vocabulary practice before completing the vocabulary review on this page.

High-Level Students: Ask students to write one additional sentence for each vocabulary word in a notebook or beneath each sentence on this page in the student book. Randomly call students to share the sentences they wrote.

Quickly review the learning objectives of Lesson B.

Look at the picture. Discuss the picture and the warm-up question on the first page of Lesson B. Make a connection to the real world using the picture.

### 1. Are these foods healthy or not?

Sample answer: These foods are extremely healthy.

### 2. What do they have a lot of?

Sample answer: They have a lot of nutrients.

Complete the vocabulary review as a class or individually and then check the answers together as a class.

# EO4 LESSON B

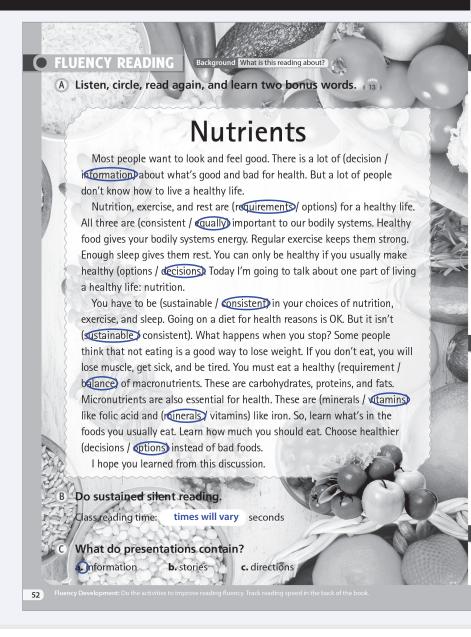

### **TEACHING TIPS**

### READING FLUENCY DEVELOPMENT & BONUS WORDS

## Level Tips

Low-Level Students: Set up a timer in class that all students can see. Tell the students to read the passage a third time and record their individual reading time in the second reading column on the reading speed chart for this unit.

High-Level Students: Teach the students how to do the reading speed calculation. Tell the students that they can track their individual reading time at home in the second reading column on the reading speed chart for this unit.

Read the background question at the top of the page. Ask students if they remember what the reading is about.

**Sample answer:** *It's a presentation on nutrients and staying healthy.* 

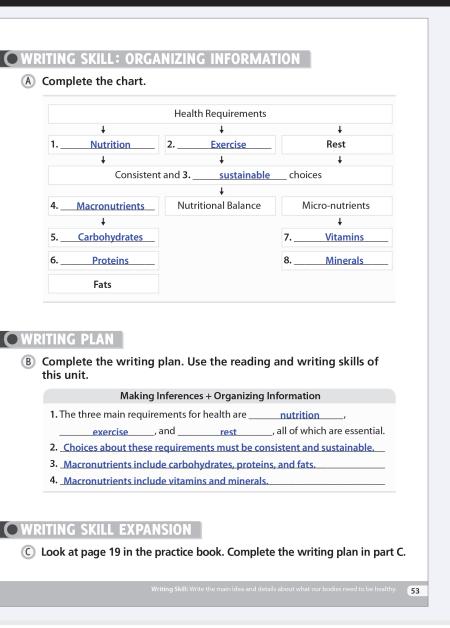

Find the two bonus words in the table of contents. Teach the students what these words mean. Tell the students to listen, read along, and circle the correct words in the passage as they listen to the audio. Play audio **track 13**.

After listening to the audio, tell the students to do the reading activity in activity B. Record the class reading time and record it in the reading speed chart in the back of the book.

Ask the students if they remember what the reading format of this passage is. Briefly discuss it and circle the correct answer.

### **READING + WRITING SKILL TRANSFERENCE & WRITING PLAN**

### **TEACHING TIPS**

## Level Tips

Low-Level Students: Complete the writing plan together as a class. Then have students transfer the information in the chart from the student book to the practice book. Have students close the student book and double-check the accuracy of the writing plan in their practice books.

High-Level Students: Have students complete the writing plan individually. Check the answers together as a class. Then have students transfer the information in the writing plan from their student book to the practice book. Encourage students to write an additional sentence in their homework.

### Writing Skill:

Introduce the writing skill to the students. Tell them that *organizing information* means putting the correct information in an outline. Explain that organizing information in this way will make them good writers.

### Writing Plan:

Ask the students to recall the reading skill from this unit: *making inferences*. Tell the students that they will use that reading skill again to put the information from the writing skill activity into organized information about the story. Complete the chart and review as a class. After completing the writing plan chart, have the students record that information into their practice books. Tell them to write a paragraph to summarize the information in the writing plan. Explain that the writing plan is there to help guide them, but also that their writing doesn't need to follow the writing plan verbatim. Use your native language as necessary. Tell the students to write with small, neat letters so that all of the information can fit into the chart.

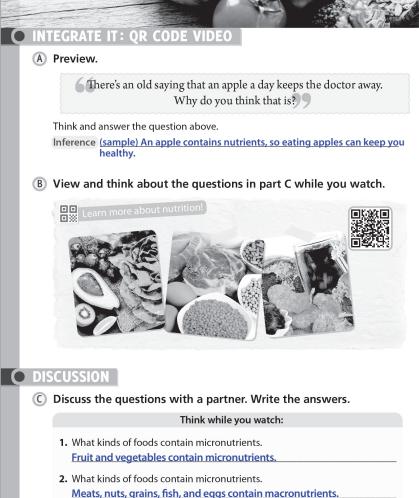

# EO4 LESSON B

### **TEACHING TIPS**

## Level Tips

Low-Level Students: Ask the students if there were any parts of the video that they didn't understand. Replay those sections and explain in your native language to promote and support deeper understanding.

High-Level Students: Ask the students to record any unfamiliar words from the video and review the meaning of those words together as a class to support vocabulary expansion.

Junk food contains too much of one thing and not enough of anything else.

**INTEGRATE IT SKILLS & DIGITAL LITERACY** 

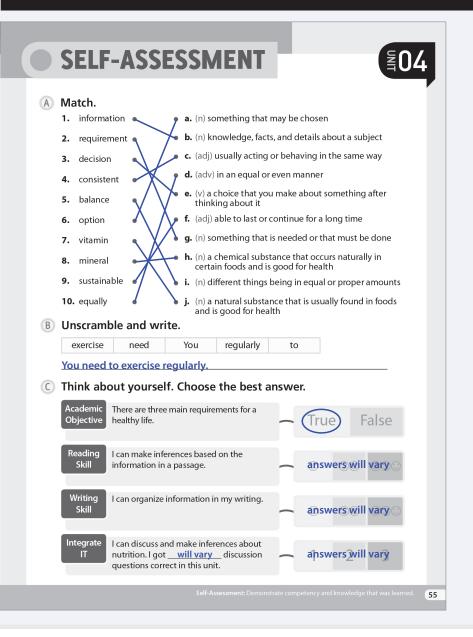

Explain to the students that they will now watch a video about micronutrients and macronutrients. Read the quote from the preview and brainstorm answers as a class. Come to an agreement about the inference answer that you will write down as a class.

3. How is junk food bad for you?

Sample answer: An apple contains nutrients, so eating apples can keep you healthy.

Ask the students if they remember what a QR code is. Point it out on the page. Ask them how it works. Demonstrate it if possible using the *Integrate Viewer* app. Before watching the video, read each question in part C together as a class. Tell the students these questions will be answered as they watch the contents of the video. Show the video. Give the students some time to discuss the questions. This can be done in pairs, in small groups, or together as a class. Go over the answers as a class.

### **SELF-ASSESSMENT & UNIT WRAP-UP**

### **TEACHING TIPS**

Use the grading rubric to perform your own assessment of each student's progress for this unit.

Adjust the rubrics to match the level of your students as necessary.

## Level Tips

Low-Level Students: Allow students to turn back to the pages of the unit to find the answers. Check the answers together as a class.

High-Level Students: Treat the page as a sort of quiz.

Complete the vocabulary check. Review the correct answers as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

Ask students to unscramble the sentence individually. Check the answers together as a class.

Review the academic objective statement. Ask the students who think the answer is true to raise their hands. Do the same for students who think the statement is false. Tell students the correct answer and talk about why that answer is correct.

Ask students to evaluate their own work on the reading skill section in Lesson A, the writing skill section in Lesson B, and the questions on the Integrate IT page. Tell them to use the number of mistakes they made to guide their self-assessment. If they couldn't get anything correct they should fill in the single smiley face; if they made a few mistakes, two smiley faces; and if they only made a couple of small mistakes, or none, they can fill in three smiley faces. This allows the students to assess where they need to improve and you to align your assessment as the teacher with the students' understanding of their own performance.

# SHAPES IN NATURE

### **UNIT SUMMARY**

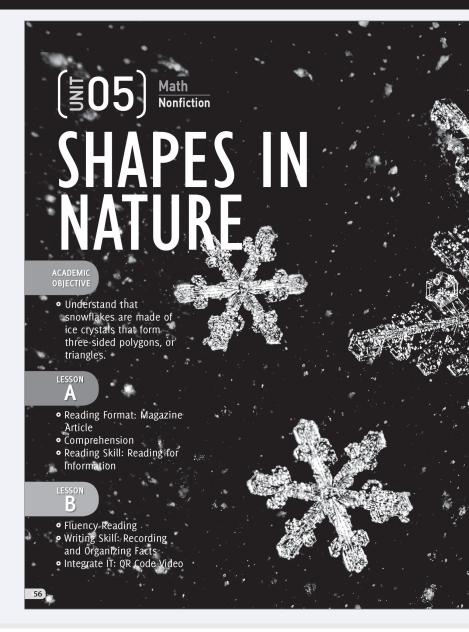

### **UNIT INTRODUCTION**

Unit 5: Math / Nonfiction

Academic Objective: Understand that snowflakes are made of ice crystals that form three-sided polygons or triangles.

Academic Objective in Context:

Snowflakes are made of ice crystals that form three-sided polygons or triangles.

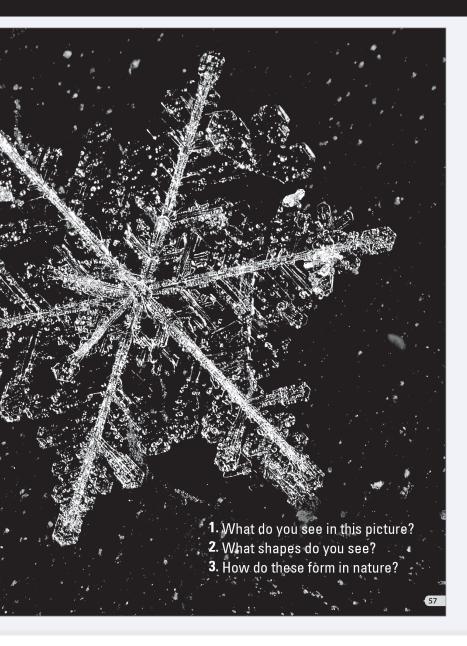

Introduce the topic with the picture on the unit introduction page. Get students thinking and talking about the topic.

Review the academic objective on the page.

Preview the learning objectives in Lesson A. Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points.

# LESSON A

### **UNIT SUMMARY**

### Language Learning Objectives

New Words: crystal, hexagon, transform, stuck, complex, symmetrical, equilateral, isosceles

Bonus Words: microscope, design

Structure Focus: Plural Count Nouns without Determiners

Reading Format: Magazine article

Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points. Ask students about the last time they saw snow to activate prior knowledge.

### 1. What do you see in the picture?

Sample answer: I see snowflakes.

### 2. What shapes do you see?

Sample answer: I see rectangles, squares, and triangles.

### 3. How do these form in nature?

Sample answer: These form in the clouds when the temperature is cold.

## **505** LESSON A

### **TEACHING TIPS**

### **NEW WORDS**

Low-Level Students: After completing the new words activity on page 58, check the answers by asking students to read the words and spell them.

High-Level Students: After completing the new words activity on page 58, check the answers by giving students 1-2 minutes to memorize the new words on page 58, and then ask them to close the book and recall each word from memory.

Use the picture to activate students' prior knowledge about the topic of the unit. Ask the students what they see in the picture. Focus the attention of the students on the picture and ask them the warm-up questions:

### 1. What is snow?

**Sample answer:** Snow is a soft, white, cold substance that falls from the sky in winter.

### 2. What places on earth get snow?

Sample answer: Places that have cold winters get snow.

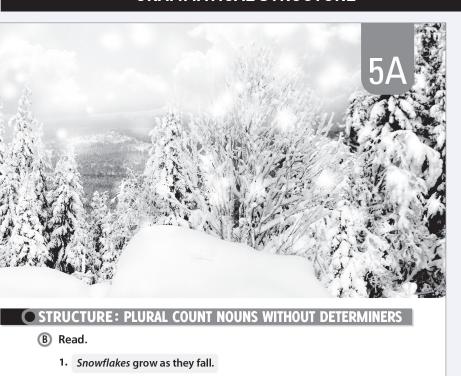

### 3. Have you ever looked closely at a snowflake? What did you see?

Sample answer: Yes. I saw shapes and crystals.

Explain to the students that they will learn about snowflakes and about the shapes and geometry of them. Tell the students that snowflakes are ice crystals. Tell them they will learn about how snowflakes form. Play audio **track 14** and ask students to say and write each word as they hear them.

### **GRAMMATICAL STRUCTURE**

### **TEACHING TIPS**

Write a few more examples on the board to help familiarize the structure in the students' minds. Complete the activity as a class and review the correct answers with the students.

Before turning the page, ask the students the academic objective question. This question focuses on the academic content learning goals of the unit. Focus more on that than on the language learning goals when you discuss answers with students. Use your native language if necessary. Teach students unknown words that may arise as they try to answer the academic objective question. Probe the class to see if there are differing opinions or if everyone agrees on a consensus answer. Ask the students to keep this question in mind as they read the passage on the next page.

## **≥05** LESSON A

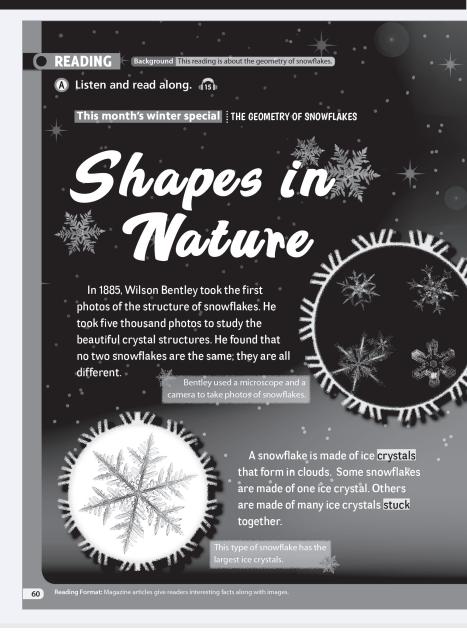

### **TEACHING TIPS**

### **READING PASSAGE**

## Level Tips

Low-Level Students: After listening to the audio, reading, and clarifying any additional unknown words, read the passage together again as a class. Allow the students to take turns reading the passage paragraph by paragraph.

High-Level Students: Ask the students to make connections between the contents of the passage and snowflakes they have seen in real life. Ask them where they saw the snowflake, when they saw it, and what it looked like. Ask them if they were able to see the shapes mentioned in the passage.

Introduce the background of the reading using the background information at the top of the page.

Explain to the students that the reading format of this passage is a magazine article. Tell them that magazine articles provide interesting facts. Tell the students that most magazine articles are accompanied by images.

Review the title of the reading: Shapes in Nature. Ask the students why they think this is the title. Explain this is because snowflakes are formed in nature and have different shapes.

### **READING PASSAGE**

### Each snowflake starts as a hexagon, a six-sided polygon. The snowflake grows bigger and bigger as it falls through cold air from clouds. The six corners of the snowflake grow arms. The arms transform into different shapes. The world's largest snowflake was recorded in 1887 at almost 40 cm. Clouds can have warmer parts and cooler parts. Different temperatures make snowflakes of different shapes. Drier weather creates snowflakes with simple shapes. Warm and wet weather produces snowflakes with more complex shapes. Snowflakes have an amazing variety of shapes. Snowflakes are symmetrical. This means they have the same pattern on both halves. The patterns are made of different kinds of polygons. You can see many triangles in a snowflake.

Triangles are three-sided polygons. Snowflakes have right triangles, equilateral triangles, and isosceles triangles. It's amazing that a tiny snowflake can have such complex designs.

### PASSAGE DETAILS

Reading Format: Magazine article

Academic Objective: Understand that graphs give snowflakes are made of ice crystals that form three-sided polygons or triangles.

Academic Objective in Context: Snowflakes are made of ice crystals that form three-sided polygons or triangles.

Tell students to read along quietly while they listen to the audio track. Tell them to circle any unknown words while they listen. Play audio **track 15**.

After the track is finished, ask the students if there are any unknown words that they circled. Review the meaning of those words and how they are used in the passage. Use your native language to do this if necessary. Call students to discuss how snowflakes are formed. Ask students to describe the different shapes from the passage.

Ask the students to recall the academic objective question from the second page of lesson A. Now ask them to read the academic objective in context at the bottom of this page. This should help the students with the academic content learning goal of this unit. Discuss and explain further if necessary.

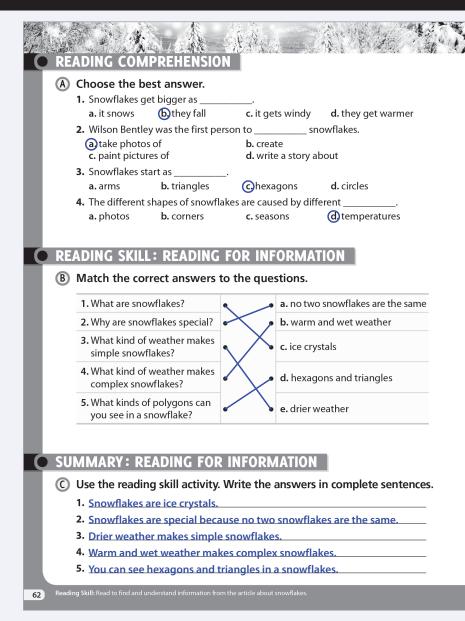

### READING COMPREHENSION & READING SKILL DEVELOPMENT

## Level Tips

Low-Level Students: While completing both the comprehension questions and the reading skill activity, allow the students to turn back to the passage to locate the correct answers in the passage. Offer guidance and assistance as needed, such as pointing out which parts of the reading students should look in to find each correct answer.

High-Level Students: Ask students follow-up questions to the comprehension questions, i.e. 2. Wilson Bentley was the first person to \_\_\_\_\_ snowflakes. Correct answer: a. take photos of. Ask the students how many photos he took.

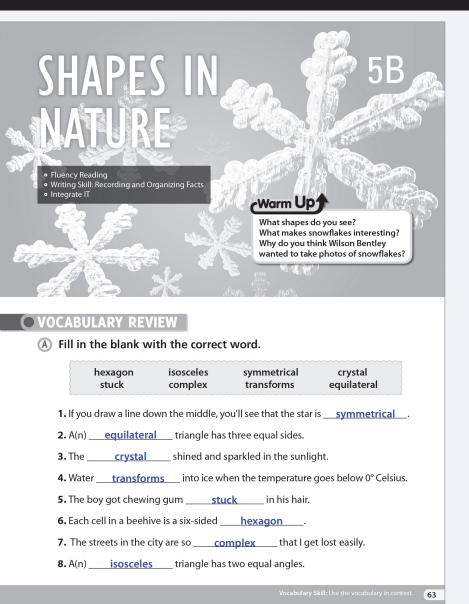

### Reading Comprehension:

Ask the students to recall the correct information from the passage. Go through each question and correct answer together as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

### Reading Skill:

Explain to the students that *reading for information* means looking for important information as you read. Tell the students to match the answers to the questions. Complete the activity together as a class. Ask students to write the answers in complete sentences. After allowing students enough time to write all the answers in the summary section, randomly call students to read their answers.

## Level Tips

Low-Level Students: Tell the students to turn back to the new words page in Lesson A and review the meaning of each word. Then use the free downloadable worksheet for additional vocabulary practice before completing the vocabulary review on this page.

High-Level Students: Ask students to write one additional sentence for each vocabulary word in a notebook or beneath each sentence on this page in the student book. Randomly call students to share the sentences they wrote.

Quickly review the learning objectives of Lesson B.

Look at the picture. Discuss the picture and the warm-up questions on the first page of Lesson B. Make a connection to the real world using the picture.

1. What shapes do you see?

Sample answer: I see triangles and hexagons.

2. What makes snowflakes interesting?

Sample answer: Each snowflake is unique.

3. Why do you think Wilson Bentley wanted to take photos of snowflakes? Sample answer: I think he wanted to capture their beauty before they melted.

Complete the vocabulary review as a class or individually and then check the answers together as a class.

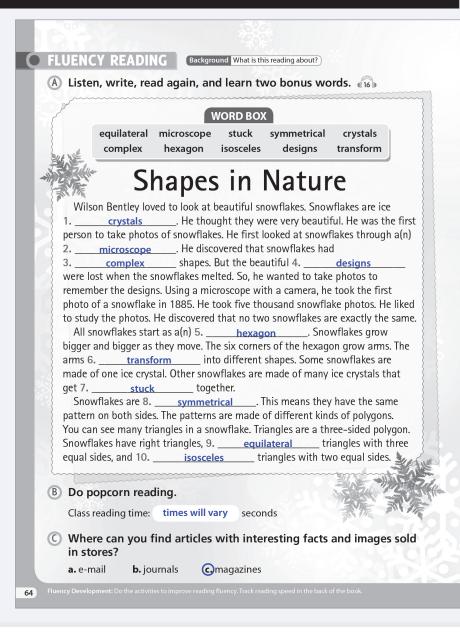

### READING FLUENCY DEVELOPMENT & BONUS WORDS

Low-Level Students: Set up a timer in class that all students can see. Tell the students to read the passage a third time and record their individual reading time in the second reading column on the reading speed chart for this unit.

High-Level Students: Teach the students how to do the reading speed calculation. Tell the students that they can track their individual reading time at home in the second reading column on the reading speed chart for this unit.

Read the background question at the top of the page. Ask students if they remember what the reading is about.

Sample answer: It's about how snowflakes are formed and their unique shapes.

Find the two bonus words in the table of contents. Teach the students what these words mean. Tell the students to listen, read along, and write the words from the word box into the blanks of the passage as they listen to the audio. Play audio **track 16**.

After listening to the audio, tell the students to do the reading activity in activity B. Record the class reading time and record it in the reading speed chart in the back of the book.

Ask the students if they remember what the reading format of this passage is. Briefly discuss it and circle the correct answer.

### **READING + WRITING SKILL TRANSFERENCE & WRITING PLAN**

### **TEACHING TIPS**

## Level Tips

Low-Level Students: Complete the writing plan together as a class. Then have students transfer the information in the chart from the student book to the practice book. Have students close the student book and double-check the accuracy of the writing plan in their practice books.

High-Level Students: Have students complete the writing plan individually. Check the answers together as a class. Then have students transfer the information in the writing plan from their student book to the practice book. Encourage students to write an additional sentence in their homework.

### • WRITING SKILL: RECORDING AND ORGANIZING FACTS

A Look back at the story. Fill in the blanks to complete the facts about William Bentley.

<b>a.</b> microscope <b>b.</b> five thousand <b>c.</b> snowflakes <b>d.</b> designs <b>e.</b> discovered
Bentley was interested in c     Bentley used a and camera to take photos of snowflakes.
3. Bentley wanted to take photos of snowflakes to remember their
<ul><li>4. Bentley took b photos of snowflakes.</li><li>5. Bentley e that no snowflakes were the same.</li></ul>

### **WRITING PLAN**

B Complete the writing plan. Use the reading and writing skills of this unit.

Reading for Information + Recording and Organizing Facts					
Write five facts for each category.					
About snowflakes	About Wilson Bentley				
Snowflakes are ice crystals.	Bentley was interested in snowflakes.				
No two snowflakes are the same.	Bentley used a microscope and camera to take photos of snowflakes.				
Drier weather makes simple snowflakes.	Bentley wanted to take photos of snowflakes to remember their designs.				
Warm and wet weather makes complex snowflakes.	Bentley took five thousand photos of snowflakes.				
You can see triangles and hexagons in a snowflake.	Bentley saw that no snowflakes were the same.				

### **WRITING SKILL EXPANSION**

C Look at page 23 in the practice book. Complete the writing plan in part C.

Writing Skill: Recording and organizing facts about William Bentley and snowflakes.

### ... 61.111

Introduce the writing skill to the students. Tell them that *recording and organizing details* means writing down the details and information in an outline. Explain that recording and organizing information in this way will help them become stronger writers.

### Writing Plan:

Ask the students to recall the reading skill from this unit: reading for information. Tell the students that they will use that reading skill again to put the information from the writing skill activity into organized information about the story. Complete the chart and review as a class. After completing the writing plan chart, have the students record that information in their practice books. Tell them to write a paragraph to summarize the information in the writing plan. Explain that the writing plan is there to help guide them, but also that their writing doesn't need to follow the writing plan verbatim. Use your native language as necessary. Tell the students to write with small, neat letters so that all of the information can fit into the chart.

### Writing Skill:

# EO5 LESSON B

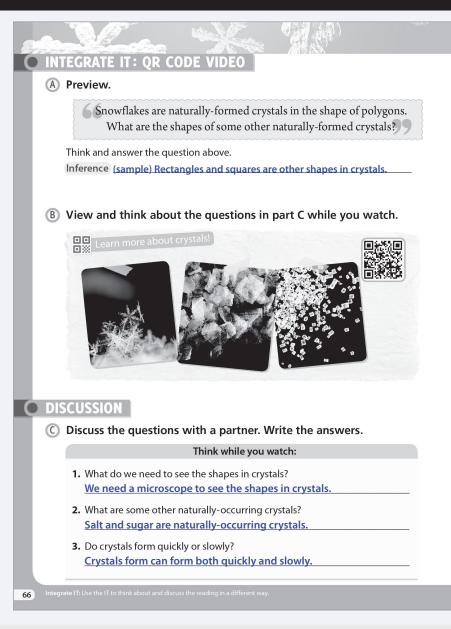

### **TEACHING TIPS**

### **INTEGRATE IT SKILLS & DIGITAL LITERACY**

## Level Tips

Low-Level Students: Ask the students if there were any parts of the video that they didn't understand. Replay those sections and explain in your native language to promote and support deeper understanding.

High-Level Students: Ask the students to record any unfamiliar words from the video and review the meaning of those words together as a class to support vocabulary expansion.

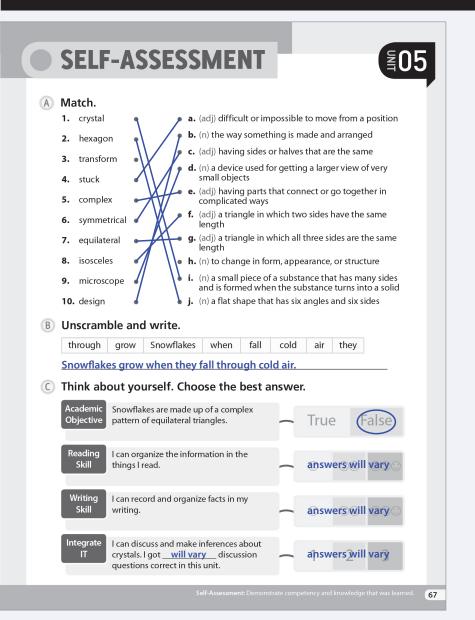

Explain to the students that they will now watch a video about crystals all around us. Read the quote from the preview and brainstorm answers as a class. Come to an agreement about the inference answer that you will write down as a class.

**Sample answer:** Rectangles and squares are other shapes in crystals.

Ask the students if they remember what a QR code is. Point it out on the page. Ask them how it works. Demonstrate it if possible using the *Integrate Viewer* app. Before watching the video, read each question in part C together as a class. Tell the students these questions will be answered as they watch the contents of the video. Show the video. Give the students some time to discuss the questions. This can be done in pairs, in small groups, or together as a class. Go over the answers as a class.

#### **SELF-ASSESSMENT & UNIT WRAP-UP**

#### **TEACHING TIPS**

Use the grading rubric to perform your own assessment of each student's progress for this unit.

Adjust the rubrics to match the level of your students as necessary.

### Level Tips

Low-Level Students: Allow students to turn back to the pages of the unit to find the answers. Check the answers together as a class.

High-Level Students: Treat the page as a sort of quiz.

Complete the vocabulary check. Review the correct answers as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

Ask students to unscramble the sentence individually. Check the answers together as a class.

Review the academic objective statement. Ask the students who think the answer is true to raise their hands. Do the same for students who think the statement is false. Tell students the correct answer and talk about why that answer is correct.

Ask students to evaluate their own work on the reading skill section in Lesson A, the writing skill section in Lesson B, and the questions on the Integrate IT page. Tell them to use the number of mistakes they made to guide their self-assessment. If they couldn't get anything correct they should fill in the single smiley face; if they made a few mistakes, two smiley faces; and if they only made a couple of small mistakes, or none, they can fill in three smiley faces. This allows the students to assess where they need to improve and you to align your assessment as the teacher with the students' understanding of their own performance.

# **506** PAPER SNOWFLAKES

#### **UNIT SUMMARY**

#### **UNIT INTRODUCTION**

Unit 6: Math / Fiction

Academic Objective: Learn about how to make various shapes with given figures.

#### Academic Objective in Context:

You can make right, isosceles, and equilateral triangles, as well as hexagons, rectangles, and squares with triangles.

Introduce the topic with the picture on the unit introduction page. Get students thinking and talking about the topic.

Review the academic objective on the page.

Preview the learning objectives in Lesson A. Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points.

## LESSON A

#### **UNIT SUMMARY**

#### Language Learning Objectives

New Words: geometry, season, identical, discuss, tough, third, carefully, pattern

Bonus Words: instruction, unfold

Structure Focus: Verb-Preposition Collocation

Reading Format: Journal

Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points. Ask students what they learned in Unit 5 to activate prior knowledge.

#### 1. What do you see in this picture?

Sample answer: I see scissors and paper snowflakes on a blue table.

#### 2. How can you make one of these?

Sample answer: You can make a paper snowflake with a piece of paper and a pair of scissors.

#### 3. What shapes do you see in this picture?

**Sample answer:** *I see triangles, circles, and stars.* 

## **BO6** LESSON A

**TEACHING TIPS** 

#### **NEW WORDS**

### Level Tips

Low-Level Students: After completing the new words activity on page 70, check the answers by asking students to read the words and spell them.

High-Level Students: After completing the new words activity on page 70, check the answers by giving students 1-2 minutes to memorize the new words on page 70, and then ask them to close the book and recall each word from memory.

Use the picture to activate students' prior knowledge about the topic of the unit. Ask the students what they see in the picture. Focus the attention of the students on the picture and ask them the warm-up questions:

#### 1. What are the people making?

Sample answer: They are making paper snowflakes.

#### 2. What shapes do you see?

Sample answer: I see triangles and squares.

#### 3. How can you make one of these?

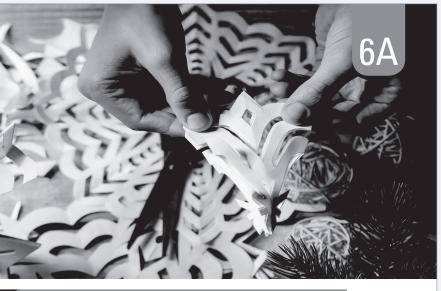

Sample answer: You can make one of these with a piece of paper and a pair of scissors.

Explain to the students that they will learn how to make paper snowflakes by following instructions. Tell them that there is geometry involved. Tell the students that they will learn vocabulary related to instructions and geometry.

Play audio **track 17** and ask students to say and write each word as they hear them.

#### **GRAMMATICAL STRUCTURE**

#### **TEACHING TIPS**

#### STRUCTURE: VERB-PREPOSITION COLLOCATIONS

- B Read.
  - 1. We learned about polygons.
  - 2. Fold down the top half of the paper.
- C Unscramble and write.

1.	off	corners	the	Cut	all
2.	teacher	seasons	talked	The	about
3.	They	box	opened	the	up

- 1. Cut off all the corners.
- 2. The teacher talked about seasons.
- 3. They opened up the box.

**BEFOREYOURFAD** Academic Objective Question: What kinds of geometric shapes can you make with triangles?

Level Tip

Low-Level Students: Use the free downloadable worksheet for additional practice with the structure before reading.

High-Level Students: Write a few more examples on the board with intentional mistakes. Call on individual students to correct the mistakes.

The structure in each unit is meant to highlight a key grammatical structure that is covered in the reading passages of the units.

The intended purpose of highlighting the structure is to review and demonstrate how the structure is used in an authentic way.

Read the structure together as a class.

Write a few more examples on the board to help familiarize the structure in the students' minds. Complete the activity as a class and review the correct answers with the students.

Before turning the page, ask the students the academic objective question. This question focuses on the academic content learning goals of the unit. Focus more on that than on the language learning goals when you discuss answers with students. Use your native language if necessary. Teach students unknown words that may arise as they try to answer the academic objective question. Probe the class to see if there are differing opinions or if everyone agrees on a consensus answer. Ask the students to keep this question in mind as they read the passage on the next page.

## EO6 LESSON A

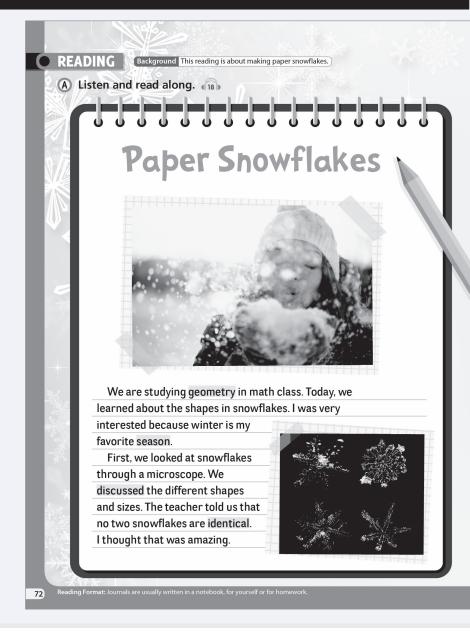

#### **TEACHING TIPS**

#### **READING PASSAGE**

Low-Level Students: After listening to the audio, reading, and clarifying any additional unknown words, read the passage together again as a class. Allow the students to explain the instructions for making a paper snowflake.

High-Level Students: Ask the students to make connections between the contents of the passage and a craft project they have recently done. Ask them to give basic instructions.

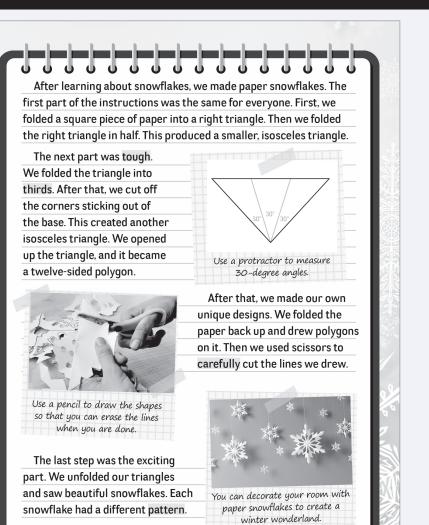

Introduce the background of the reading using the background information at the top of the page.

Explain to the students that the reading format of this passage is a journal. Tell them that a journal is usually written in a notebook. Tell them that journals can be written for themselves or for homework.

Review the title of the reading: Paper Snowflakes. Ask the students why they think this is the title. Explain this is because the journal is about a person learning about snowflakes in math class.

#### **READING PASSAGE**

#### **PASSAGE DETAILS**

I really enjoyed the lesson. But most of all, I loved using what

I learned to make something special.

Reading Format: Journal

Academic Objective: Learn about how to make various shapes with given figures.

Academic Objective in Context:

You can make right, isosceles, and equilateral triangles, as well as hexagons, rectangles, and squares with triangles.

Tell students to read along quietly while they listen to the audio track. Tell them to circle any unknown words while they listen. Play audio **track 18**.

73

After the track is finished, ask the students if there are any unknown words that they circled. Review the meaning of those words and how they are used in the passage. Use your native language to do this if necessary.

Call students to describe the photos in the passage. Ask students to describe the steps for making paper snowflakes. Ask the students to think about the connection between making paper snowflakes and math class.

Ask the students to recall the academic objective question from the second page of lesson A. Now ask them to read the academic objective in context at the bottom of this page. This should help the students with the academic content learning goal of this unit. Discuss and explain further if necessary.

## EO6 LESSON A

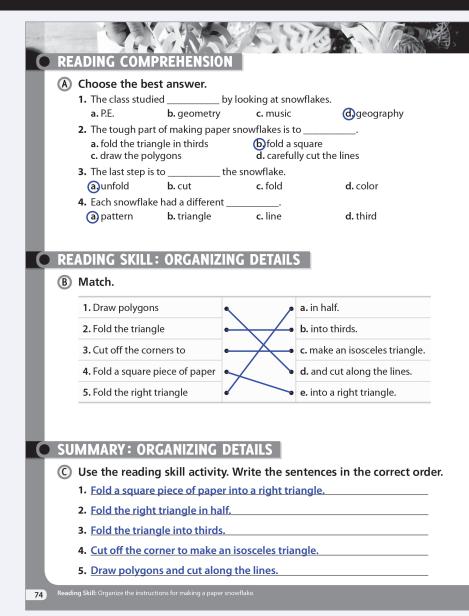

#### **TEACHING TIPS**

#### READING COMPREHENSION & READING SKILL DEVELOPMENT

### Level Tips

Low-Level Students: While completing both the comprehension questions and the reading skill activity, allow the students to turn back to the passage to locate the correct answers in the passage. Offer guidance and assistance as needed, such as pointing out which parts of the reading students should look in to find each correct answer.

High-Level Students: Ask students follow-up questions to the comprehension questions, i.e. 3. The last step is to \_\_\_\_\_ the snowflake. Correct answer: a. unfold. Ask the students why this part is exciting.

#### Reading Comprehension:

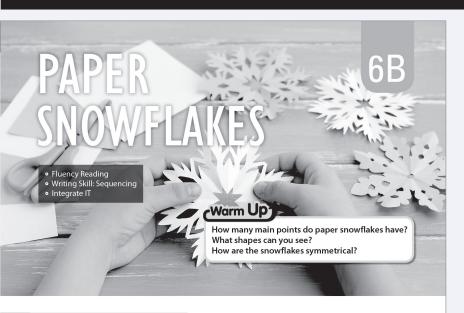

Ask the students to recall the correct information from the passage. Go through each question and correct answer together as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

#### Reading Skill:

Explain to the students that *organizing details* means putting details together to better understand everything. Tell the students to write the sentences by matching the details in order. Complete the activity together as a class. Ask students to combine the details and complete the sentences. After allowing students enough time to write all the answers in the summary section, randomly call students to read their answers.

#### **LESSON B INTRODUCTION & VOCABULARY REVIEW**

#### **TEACHING TIPS**

#### **VOCABULARY REVIEW**

pattern

A Fill in the blank with the correct word.

thirds

	carefully sea	ason iden	tical	tough	
	. Cut each piece of wood into pieces.	o <u>thirds</u>	so that the	re are three equal	
2.	• This science project is	tough .In	eed help with	it.	
3.	. We learned about polygons	s in <u>geometry</u>	<u>/</u> .		
4.	• Spring is my favorite	season beca	use I like flow	ers and birds.	
5.	. Len drew a beautiful	pattern of tr	iangles and he	exagons.	
6.	• The students <u>discusse</u>	ed what to nan	ne the new cla	ss pet.	
7.	. The two white houses are _	identical	to each other	:	
8.	. Mary <u>carefully</u> o <sub>l</sub>	pened the door so	that nobody v	would hear.	

geometry

### Level Tips

Low-Level Students: Tell the students to turn back to the new words page in Lesson A and review the meaning of each word. Then use the free downloadable worksheet for additional vocabulary practice before completing the vocabulary review on this page.

High-Level Students: Ask students to write one additional sentence for each vocabulary word in a notebook or beneath each sentence on this page in the student book. Randomly call students to share the sentences they wrote.

Quickly review the learning objectives of Lesson B.

Look at the picture. Discuss the picture and the warm-up questions on the first page of Lesson B. Make a connection to the real world using the picture.

1. How many main points do paper snowflakes have?

Sample answer: Paper snowflakes can have different numbers of main points.

discussed

2. What shapes can you see?

Sample answer: I can see triangles and stars.

3. How are the snowflakes symmetrical?

Sample answer: They have the same pattern on both sides.

Complete the vocabulary review as a class or individually and then check the answers together as a class.

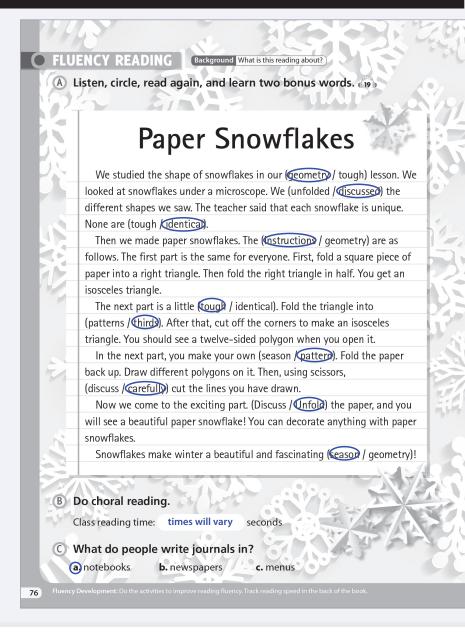

#### **TEACHING TIPS**

#### **READING FLUENCY DEVELOPMENT & BONUS WORDS**

### Level Tips

Low-Level Students: Set up a timer in class that all students can see. Tell the students to read the passage a third time and record their individual reading time in the second reading column on the reading speed chart for this unit.

High-Level Students: Teach the students how to do the reading speed calculation. Tell the students that they can track their individual reading time at home in the second reading column on the reading speed chart for this unit.

Read the background question at the top of the page. Ask students if they remember what the reading is about.

Sample answer: It's about making a paper snowflake in geometry class.

Find the two bonus words in the table of contents. Teach the students what these words mean. Tell the students to listen, read along, and circle the correct words in the passage as they listen to the audio. Play audio **track 19**.

After listening to the audio, tell the students to do the reading activity in activity B. Record the class reading time and record it in the reading speed chart in the back of the book.

Ask the students if they remember what the reading format of this passage is. Briefly discuss it and circle the correct answer.

#### **READING + WRITING SKILL TRANSFERENCE & WRITING PLAN**

#### **TEACHING TIPS**

### Level Tips

Low-Level Students: Complete the writing plan together as a class. Then have students transfer the information in the chart from the student book to the practice book. Have students close the student book and double-check the accuracy of the writing plan in their practice books.

High-Level Students: Have students complete the writing plan individually. Check the answers together as a class. Then have students transfer the information in the writing plan from their student book to the practice book. Encourage students to write an additional sentence in their homework.

#### WRITING SKILL: SEQUENCING

(A) Look back at the story. Put the instructions in order.

- 4 Cut off the corners to make an isosceles triangle.
- 1 Fold a square piece of paper into a right triangle.
- 7 Draw polygons on the paper.
- 2 Fold the right triangle in half.
- 6 Fold the paper back up.
- 9 Unfold the paper to see the snowflake.
- 5 Open the triangle to see a twelve-sided polygon.
- 8 Cut the lines.
- 3 Fold the triangle into thirds.

#### • WRITING PLAN

B Complete the writing plan. Use the reading and writing skills of this unit.

Organizing Details + Sequencing			
	Write the instructions in order.		
First,	fold a square piece of paper into a right triangle.		
	Fold the right triangle in half.		
Next,	fold the triangle into thirds.		
	Cut off the corners to make an isosceles triangle.		
	Open the triangle to see a twelve-sided polygon.		
Then,	Then, fold the paper back up.		
	Draw polygons on the paper.		
	Cut the lines.		
Finally,	unfold the paper to see the snowflake.		

#### **WRITING SKILL EXPANSION**

C Look at page 27 in the practice book. Complete the writing plan in part C.

Writing Skill: Sequence the instructions for making a paper snowflake.

#### Writing Skill:

Introduce the writing skill to the students. Explain to the students that *sequencing* means putting things in the correct order from start to finish. Tell the students to put the instructions in order from start to finish. Complete the activity together as a class.

#### Writing Plan:

Ask the students to recall the reading skill from this unit: *organizing details*. Tell the students that they will use that reading skill again to put the information from the writing skill activity into organized information about the story. Complete the chart and review as a class. After completing the writing plan chart, have the students record that information in their practice books. Tell them to write a paragraph to summarize the information in the writing plan. Explain that the writing plan is there to help guide them, but also that their writing doesn't need to follow the writing plan verbatim. Use your native language as necessary. Tell the students to write with small, neat letters so that all of the information can fit into the chart.

## EO6 LESSON B

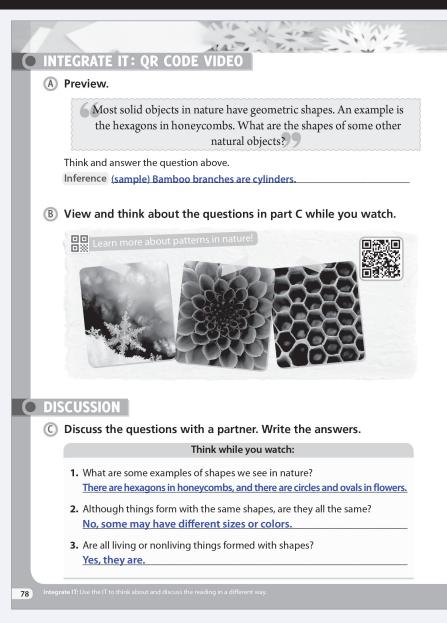

#### **TEACHING TIPS**

#### INTEGRATE IT SKILLS & DIGITAL LITERACY

### Level Tips

Low-Level Students: Ask the students if there were any parts of the video that they didn't understand. Replay those sections and explain in your native language to promote and support deeper understanding.

High-Level Students: Ask the students to record any unfamiliar words from the video and review the meaning of those words together as a class to support vocabulary expansion.

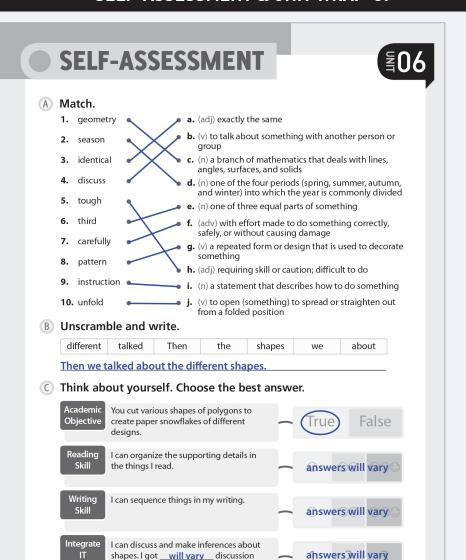

Explain to the students that they will now watch a video about the patterns of shapes in nature. Come to an agreement about the inference answer that you will write down as a class.

Sample answer: Bamboo branches are cylinders.

Ask the students if they remember what a QR code is. Point it out on the page. Ask them how it works. Demonstrate it if possible using the *Integrate Viewer* app. Before watching the video, read each question in part C together as a class. Tell the students these questions will be answered as they watch the contents of the video. Show the video. Give the students some time to discuss the questions. This can be done in pairs, in small groups, or together as a class. Go over the answers as a class.

#### **SELF-ASSESSMENT & UNIT WRAP-UP**

shapes. I got will vary discussion questions correct in this unit.

about why that answer is correct.

#### **TEACHING TIPS**

Use the grading rubric to perform your own assessment of each student's progress for this unit. Adjust the rubrics to match the level of your students as necessary.

### Level Tips

Low-Level Students: Allow students to turn back to the pages of the unit to find the answers. Check the answers together as a class.

High-Level Students: Treat the page as a sort of quiz.

Complete the vocabulary check. Review the correct answers as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number. Ask students to unscramble the sentence individually. Check the answers together as a class. Review the academic objective statement. Ask the students who think the answer is true to raise their hands. Do the same for students who think the statement is false. Tell students the correct answer and talk

Ask students to evaluate their own work on the reading skill section in Lesson A, the writing skill section in Lesson B, and the guestions on the Integrate IT page. Tell them to use the number of mistakes they made to guide their self-assessment. If they couldn't get anything correct they should fill in the single smiley face; if they made a few mistakes, two smiley faces; and if they only made a couple of small mistakes, or none, they can fill in three smiley faces. This allows the students to assess where they need to improve and you to align your assessment as the teacher with the students' understanding of their own performance.

# 07 SOLAR BOTTLE LIGHT BULB

#### **UNIT SUMMARY**

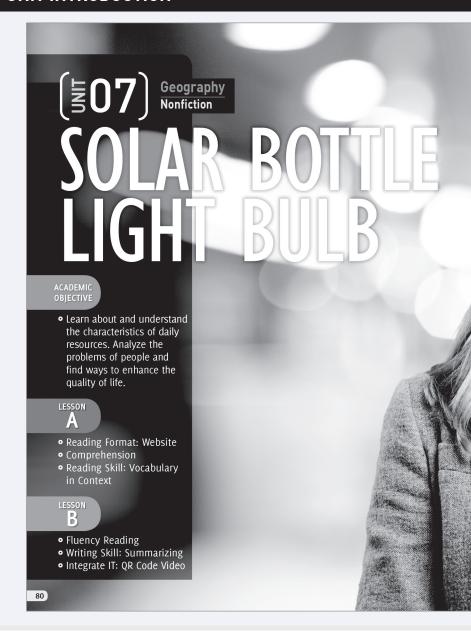

#### UNIT INTRODUCTION

Unit 7: Geography / Nonfiction

Academic Objective: Learn about and understand the characteristics of daily resources. Analyze the problems of people and find ways to enhance the quality of life.

#### Academic Objective in Context:

Problems like lack of electricity are common in poor areas. Simple, cheap inventions like solar bottle light bulbs can help solve those problems.

Introduce the topic with the picture on the unit introduction page. Get students thinking and talking about the topic.

Review the academic objective on the page.

Preview the learning objectives in Lesson A. Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points.

## LESSON A

#### **UNIT SUMMARY**

#### Language Learning Objectives

New Words: dark, available, rural, afford, install, ceiling, roof, shine

Bonus Words: bulb, destroy

Structure Focus: Adjectives & Adverbs

Reading Format: Website

Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points. Ask students what they know about recycling and reusing to activate prior knowledge.

#### 1. What is this person holding?

Sample answer: She's holding a plastic water bottle.

#### 2. What different things can you do with this?

Sample answer: You can reuse it by filling it up with water and juice.

#### 3. What other things can you reuse?

Sample answer: You can reuse plastic containers and paper.

## **507** LESSON A

**TEACHING TIPS** 

#### **NEW WORDS**

### Level Tips

Low-Level Students: After completing the new words activity on page 82, check the answers by asking students to read the words and spell them.

High-Level Students: After completing the new words activity on page 82, check the answers by giving students 1-2 minutes to memorize the new words on page 82, and then ask them to close the book and recall each word from memory.

Use the picture to activate students' prior knowledge about the topic of the unit. Focus the attention of the students on the picture and ask them the warm-up questions:

1. Where do you see in the picture?

Sample answer: I see two water bottles.

2. What happens when sunlight hits it?

Sample answer: The water seems to get brighter.

3. What do you think it can be used for?

Sample answer: I think it can be used as a light bulb or a flashlight.

Explain to the students that they will read about how people can reuse water bottles to make light bulbs. Tell them that this is one way of solving one of the world's common problems in poorer areas. Play audio **track 20** and ask students to say and write each word as they hear them.

#### **GRAMMATICAL STRUCTURE**

## Level Tips

Low-Level Students: Use the free downloadable worksheet for additional practice with the structure before reading.

**TEACHING TIPS** 

High-Level Students: Write a few more examples on the board with intentional mistakes. Call on individual students to correct the mistakes.

- (B) Read.
  - 1. The room is dark.
  - 2. Everyone loved my great idea.
- C Correct the underlined word and write.
  - 1. The sky is brightly.
  - 2. It was easily to put in the new lamp.
  - 3. There was a loudly sound last night.
  - 1. The sky is bright.
  - 2. It was easy to put in the new lamp.
  - 3. There was a loud sound last night.

passages of the units.

The structure in each unit is meant to highlight a key grammatical structure that is covered in the reading

The intended purpose of highlighting the structure is to review and demonstrate how the structure is used in an authentic way.

Read the structure together as a class.

Write a few more examples on the board to help familiarize the structure in the students' minds. Complete the activity as a class and review the correct answers with the students.

Before turning the page, ask the students the academic objective question. This question focuses on the academic content learning goals of the unit. Focus more on that than on the language learning goals when you discuss answers with students. Use your native language if necessary. Teach students unknown words that may arise as they try to answer the academic objective question. Probe the class to see if there are differing opinions or if everyone agrees on a consensus answer. Ask the students to keep this question in mind as they read the passage on the next page.

## E07 LESSON A

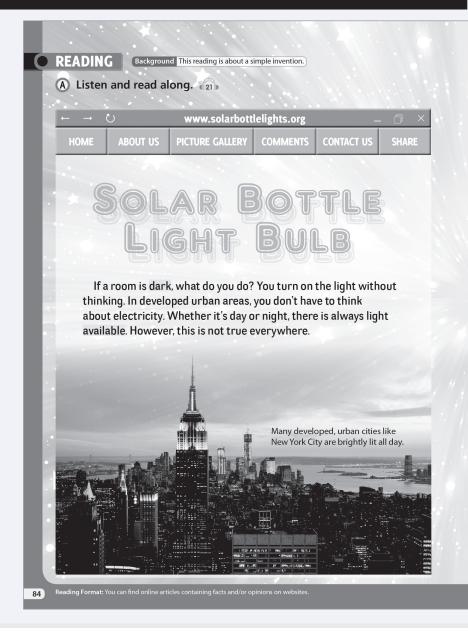

#### **TEACHING TIPS**

#### **READING PASSAGE**

Low-Level Students: After listening to the audio, reading, and clarifying any additional unknown words, read the passage together again as a class. Allow the students to read the captions and describe the photos in their own words.

High-Level Students: Ask the students to make connections between the contents of the passage and what other comforts they have compared to those who live in poorer regions of the world. Ask them if they think about these comforts and conveniences often.

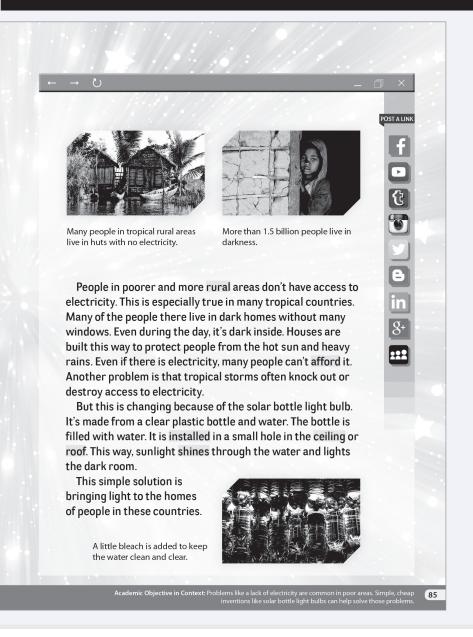

Introduce the background of the reading using the background information at the top of the page.

Explain to the students that the reading format of this passage is a website. Tell the students they can find online articles on websites. Tell them that online articles contain either or both facts and opinions. Explain that a good place to start when searching for an online article is a search engine.

Review the title of the reading: Solar Bottle Light Bulb. Ask the students why they think this is the title. Explain this is because the passage talks about solar bottle light bulbs as a simple solution for bringing light to dark homes.

#### **READING PASSAGE**

#### **PASSAGE DETAILS**

#### Reading Format: Website

Academic Objective: Learn about and understand the characteristics of daily resources. Analyze the problems of people and find ways to enhance the quality of life.

Academic Objective in Context: Problems like lack of electricity are common in poor areas. Simple cheap inventions like solar bottle light bulbs can help solve those problems.

Tell students to read along quietly while they listen to the audio track. Tell them to circle any unknown words while they listen. Play audio **track 21**.

After the track is finished, ask the students if there are any unknown words that they circled. Review the meaning of those words and how they are used in the passage. Use your native language to do this if necessary. Call students to discuss the benefits of exercise. Ask the students how often they exercise and how they feel after they do a physical activity.

Ask the students to recall the academic objective question from the second page of lesson A. Now ask them to read the academic objective in context at the bottom of this page. This should help the students with the academic content learning goal of this unit. Discuss and explain further if necessary.

## **507 LESSON A**

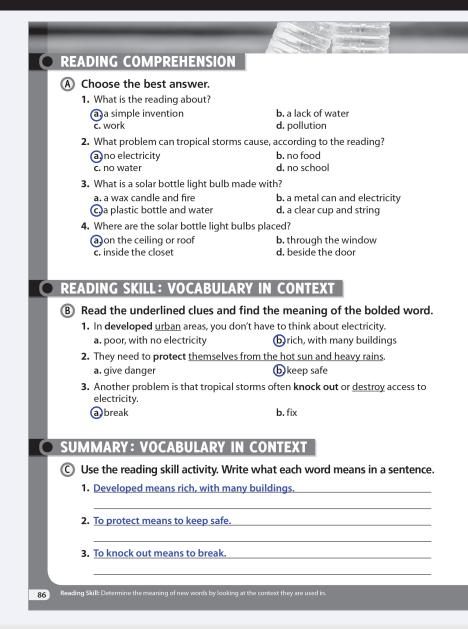

#### **TEACHING TIPS**

#### READING COMPREHENSION & READING SKILL DEVELOPMENT

### Level Tips

Low-Level Students: While completing both the comprehension questions and the reading skill activity, allow the students to turn back to the passage to locate the correct answers in the passage. Offer guidance and assistance as needed, such as pointing out which parts of the reading students should look in to find each correct answer.

High-Level Students: Ask students follow-up questions to the comprehension questions, i.e. 4. Where are the solar bottle light bulbs placed? Correct answer: a. on the ceiling or roof. Ask the students what shines through them.

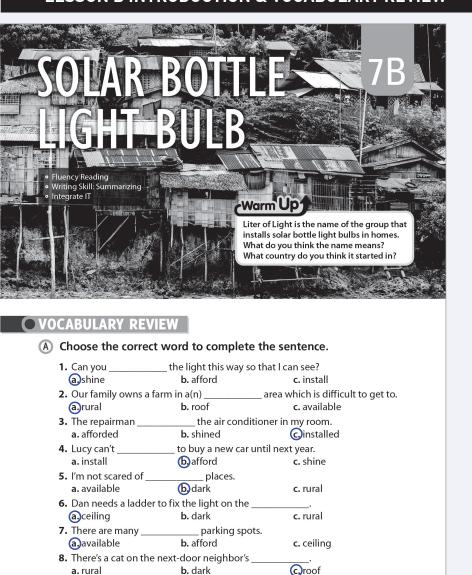

#### Reading Comprehension:

Ask the students to recall the correct information from the passage. Go through each question and correct answer together as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

#### Reading Skill:

Explain to the students that *vocabulary in context* means guessing what an unknown word means by looking for clues in and around the sentence. Tell the students to look at the underlined clues to guess what the bolded words mean. After allowing students enough time to write all the answers in the summary section, randomly call students to read their answers.

#### **TEACHING TIPS**

### Level Tips

Low-Level Students: Tell the students to turn back to the new words page in Lesson A and review the meaning of each word. Then use the free downloadable worksheet for additional vocabulary practice before completing the vocab review on this page.

High-Level Students: Ask students to write one additional sentence for each vocabulary word in a notebook or beneath each sentence on this page in the student book. Randomly call students to share the sentences they wrote.

Quickly review the learning objectives of Lesson B.

Look at the picture. Discuss the picture and the warm-up question on the first page of Lesson B. Make a connection to the real world using the picture.

- 1. What do you think this group uses to make solar bottle light bulbs?

  Sample answer: I think this group uses one-liter bottles to make solar bottle light bulbs.
- 2. What country do you think it started in?

Sample answer: Maybe it started in a rural area in Indonesia.

Complete the vocabulary review as a class or individually and then check the answers together as a class.

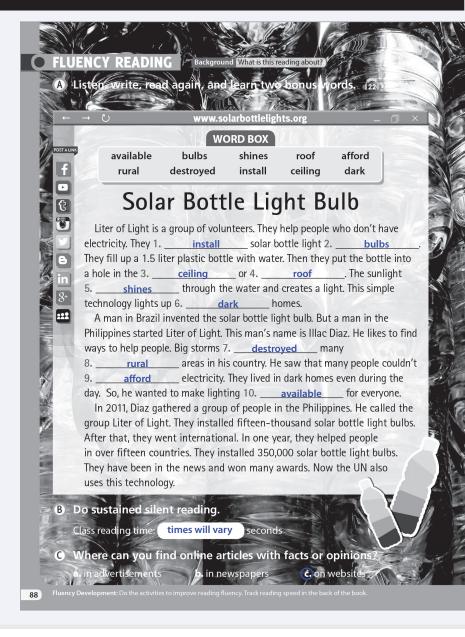

#### **TEACHING TIPS**

#### READING FLUENCY DEVELOPMENT & BONUS WORDS

### Level Tips

Low-Level Students: Set up a timer in class that all students can see. Tell the students to read the passage a third time and record their individual reading time in the second reading column on the reading speed chart for this unit.

High-Level Students: Teach the students how to do the reading speed calculation. Tell the students that they can track their individual reading time at home in the second reading column on the reading speed chart for this unit.

Read the background question at the top of the page. Ask students if they remember what the reading is about.

Sample answer: It's about a group called Liter of Light.

Find the two bonus words in the table of contents. Teach the students what these words mean. Tell the students to listen, read along, and write the words from the word box into the blanks of the passage as they listen to the audio. Play audio **track 22**.

After listening to the audio, tell the students to do the reading activity in activity B. Record the class reading time and record it in the reading speed chart in the back of the book.

Ask the students if they remember what the reading format of this passage is. Briefly discuss it and circle the correct answer.

#### **READING + WRITING SKILL TRANSFERENCE & WRITING PLAN**

#### **TEACHING TIPS**

Low-Level Students: Complete the writing plan together as a class. Then have students transfer the information in the chart from the student book to the practice book. Have students close the student book and double-check the accuracy of the writing plan in their practice books.

High-Level Students: Have students complete the writing plan individually. Check the answers together as a class. Then have students transfer the information in the writing plan from their student book to the practice book. Encourage students to write an additional sentence in their homework.

#### WRITING SKILL: SUMMARIZING

A Look back at the story and underline the key words. Then complete the chart.

Paragraph 1		
Main Idea: Liter of Light is a group of volunteers.		
Details: They help people by installing solar bottle light bulbs.		
Paragraph 2		
Main Idea: Illac Diaz started Liter of Light.		
Details: He wanted to make lighting available for everyone.		
Paragraph 3		
Main Idea: In 2011, Diaz formed the Liter of Light with a group of people in the Philippines.		
Details: In one year, they helped in over 15 countries and installed 350,000 solar bottle light bulbs.		

#### **WRITING PLAN**

B Complete the writing plan. Use the reading and writing skills of this unit.

Vocabulary in Context + Summarizing				
Word	Meaning			
volunteer	To volunteer means to help people without getting paid.			
simple	Simple means easy.			
gather	To gather means to bring together.			
refugee	Refugee means a person who had to leave their home or country because of danger.			

#### • WRITING SKILL EXPANSION

C Look at page 31 in the practice book. Complete the writing plan in part C.

Writing Skill: Summarize the main ideas of the reading about the solar bottle light bulb.

#### Writing Skill:

Introduce the writing skill to the students. Tell them that *summarizing* means restating the main ideas in as few words as possible. Tell them to underline key words in the passage to help them summarize. Explain that summarizing in this way will make them strong writers.

#### Writing Plan:

Ask the students to recall the reading skill from this unit: *vocabulary in context*. Tell them that they will use that reading skill again to put the information from the writing skill activity into organized information about the reading. Complete the chart and review as a class. After completing the writing plan chart, have the students record that information in their practice books. Tell them to write a paragraph to summarize the information in the writing plan. Explain that the writing plan is there to help guide them, but also that their writing doesn't need to follow the writing plan verbatim. Use your native language as necessary.

## EO7 LESSON B

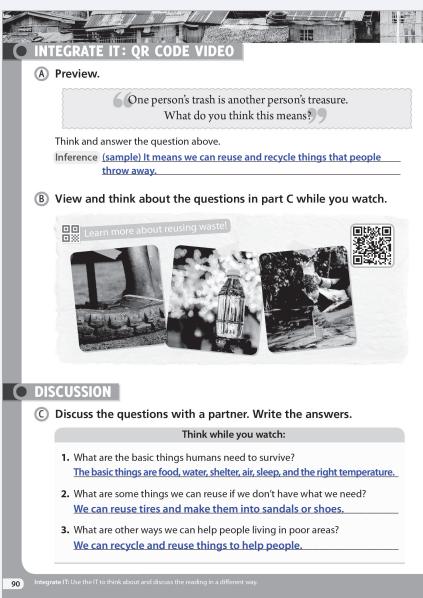

#### **TEACHING TIPS**

### INTEGRATE IT SKILLS & DIGITAL LITERACY

### Level Tips

Low-Level Students: Ask the students if there were any parts of the video that they didn't understand. Replay those sections and explain in your native language to promote and support deeper understanding.

High-Level Students: Ask the students to record any unfamiliar words from the video and review the meaning of those words together as a class to support vocabulary expansion.

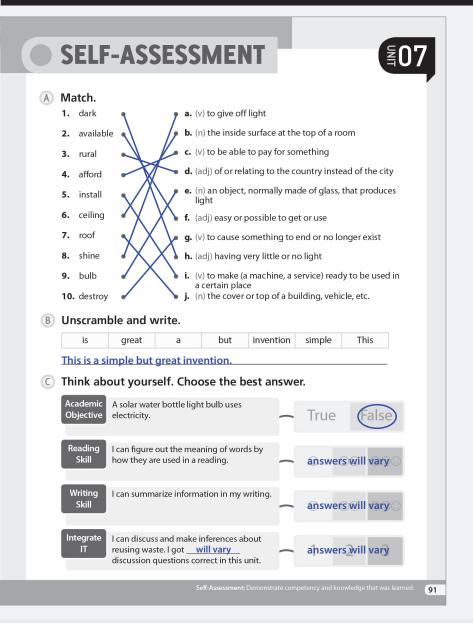

Explain to the students that they will now watch a video about reusing something that people throw away to help people in need. Read the quote from the preview and brainstorm answers as a class. Come to an agreement about the inference answer that you will write down as a class.

Sample answer: It means we can recuse or recycle things that people throw away.

Ask the students if they remember what a QR code is. Point it out on the page. Ask them how it works. Demonstrate it if possible using the *Integrate Viewer* app. Before watching the video, read each question in part C together as a class. Tell the students these questions will be answered as they watch the contents of the video. Show the video. Give the students some time to discuss the questions. This can be done in pairs, in small groups, or together as a class. Go over the answers as a class.

#### **SELF-ASSESSMENT & UNIT WRAP-UP**

#### **TEACHING TIPS**

Use the grading rubric to perform your own assessment of each student's progress for this unit.

Adjust the rubric to match the level of your students as necessary.

### Level Tips

Low-Level Students: Allow students to turn back to the pages of the unit to find the answers. Check the answers together as a class.

High-Level Students: Treat the page as a sort of quiz.

Complete the vocabulary check. Review the correct answers as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

Ask students to unscramble the sentence individually. Check the answers together as a class.

Review the academic objective statement. Ask the students who think the answer is true to raise their hands. Do the same for students who think the statement is false. Tell students the correct answer and talk about why that answer is correct.

Ask students to evaluate their own work on the reading skill section in Lesson A, the writing skill section in Lesson B, and the questions on the Integrate IT page. Tell them to use the number of mistakes they made to guide their self-assessment. If they couldn't get anything correct they should fill in the single smiley face; if they made a few mistakes, two smiley faces; and if they only made a couple of small mistakes, or none, they can fill in three smiley faces. This allows the students to assess where they need to improve and you to align your assessment as the teacher with the students' understanding of their own performance.

# **80**

# 18 CAREER PROFILE

#### **UNIT SUMMARY**

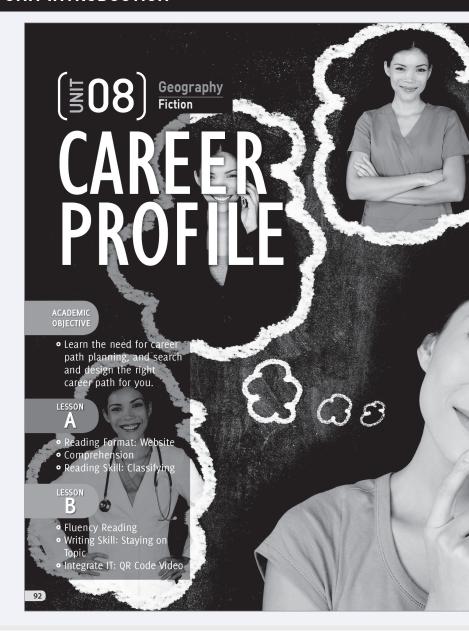

#### **UNIT INTRODUCTION**

Unit 8: Geography / Fiction

Academic Objective: Learn the need for career path planning, and search and design the right career path for you.

#### Academic Objective in Context:

One way to find the right career is to read other people's career profiles. They often tell what they do in their job and why they chose that career.

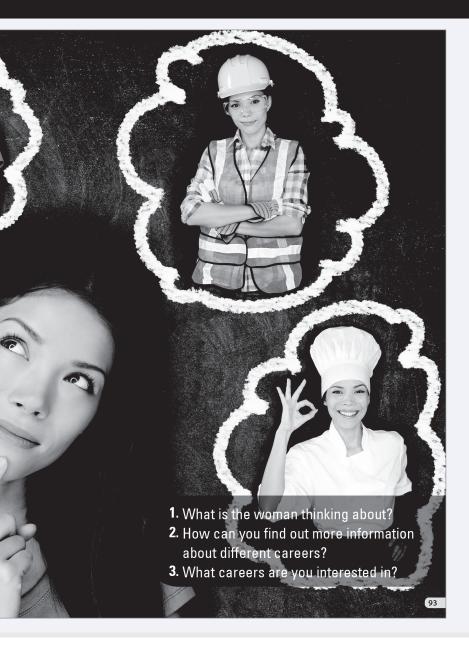

Introduce the topic with the picture on the unit introduction page. Get students thinking and talking about the topic.

Review the academic objective on the page.

Preview the learning objectives in Lesson A. Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics, and language learning points.

## LESSON A

#### **UNIT SUMMARY**

#### Language Learning Objectives

New Words: aid, distribute, build, take care of, abroad, village, valuable, career

Bonus Words: war, volunteer

Structure Focus: Present Perfect

Reading Format: Website

Discuss the three warm-up questions to see how much background information students possess about the subject, objectives, topics and language learning points. Ask students to think of as many careers as they can to activate prior knowledge.

#### 1. What is this woman thinking about?

**Sample answer:** *She is thinking about different career paths.* 

#### 2. How can you find out more information about different careers?

Sample answer: You can talk to your teacher or search the Internet.

#### 3. What careers are you interested in?

**Sample answer:** *I'm interested in becoming a doctor.* 

## EO8 LESSON A

#### **TEACHING TIPS**

#### **NEW WORDS**

Low-Level Students: After completing the new words activity on page 94, check the answers by asking students to read the words and spell them.

High-Level Students: After completing the new words activity on page 94, check the answers by giving students 1-2 minutes to memorize the new words on page 94, and then ask them to close the book and recall each word from memory.

Use the picture to activate students' prior knowledge about the topic of the unit. Ask the students what the people in the picture are doing. Focus the attention of the students on the picture and ask them the warm-up questions:

#### 1. What is the man giving the child?

**Sample answer:** The man is giving the child some food.

#### 2. Why do you think the people are there?

Sample answer: I think the people lost their homes.

#### 3. What do you think happened?

Sample answer: I think there was a big storm or an earthquake.

Explain to the students that they will read a career profile of an international aid worker. Tell them that an aid worker is someone who helps people. They usually help people in countries that are at war or have experienced a natural disaster.

Play audio **track 23** and ask students to say and write each word as they hear them.

#### **GRAMMATICAL STRUCTURE**

#### STRUCTURE: PRESENT PERFECT

- B Read.
  - 1. I've wanted to volunteer for a long time.
  - 2. Megan has lived in France since she was six.
- C Correct the underlined word and write.
  - 1. I've working all around the world.
  - 2. He is been an aid worker for eight years.
  - 3. You had studied all night, so get some rest.
  - 1. I've worked all around the world.
  - 2. He has been an aid worker for eight years.
  - 3. You have studied all night, so get some rest

BEFOREYOUREAD Academic Objective in Context: What is a career? How can you find the right career for yo

Level Tips

Low-Level Students: Use the free downloadable worksheet for additional practice with the structure before reading.

**TEACHING TIPS** 

High-Level Students: Write a few more examples on the board with intentional mistakes. Call on individual students to correct the mistakes.

The structure in each unit is meant to highlight a key grammatical structure that is covered in the reading passages of the units.

The intended purpose of highlighting the structure is to review and demonstrate how the structure is used in an authentic way.

Read the structure together as a class.

Write a few more examples on the board to help familiarize the structure in the students' minds. Complete the activity as a class and review the correct answers with the students.

Before turning the page, ask the students the academic objective question. This question focuses on the academic content learning goals of the unit. Focus more on that than on the language learning goals when you discuss answers with students. Use your native language if necessary. Teach students unknown words that may arise as they try to answer the academic objective question. Probe the class to see if there are differing opinions or if everyone agrees on a consensus answer. Ask the students to keep this question in mind as they read the passage on the next page.

## EO8 LESSON A

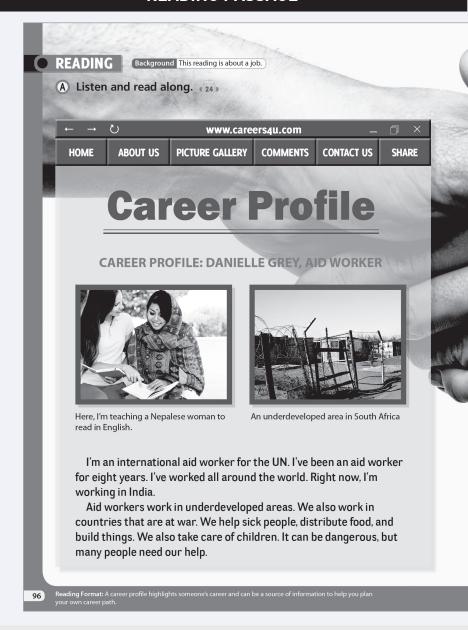

#### **TEACHING TIPS**

### Level Tips

Low-Level Students: After listening to the audio, reading, and clarifying any additional unknown words, read the passage together again as a class. Allow students to take turns reading the profile paragraph by paragraph, assisting when needed.

High-Level Students: Ask the students to make connections between the contents of the passage and a time they have helped someone in need. Ask them if they have ever volunteered or helped at school. Ask them why they did it and how they felt.

#### **READING PASSAGE**

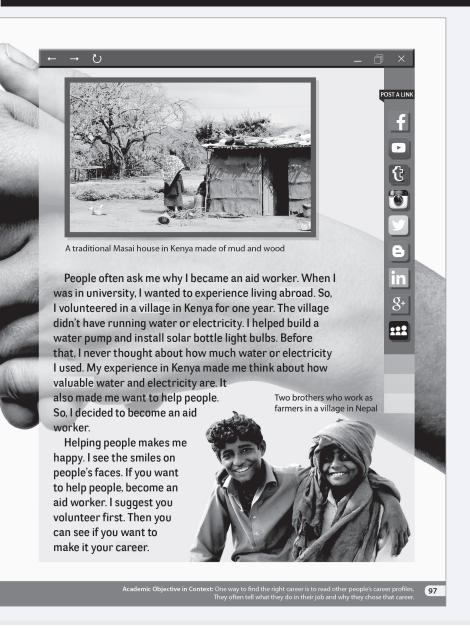

Introduce the background of the reading using the background information at the top of the page.

Explain to the students that the reading format of this passage is a career profile on a website. Tell them that a career profile highlights a person's career and that it can be a good source of information when researching different career paths. Bring in other examples of career profiles to share with the students. Tell them that career profiles can be found in pamphlets and magazines as well.

Review the title of the reading: Career Profile. Ask the students why they think this is the title. Explain this is because it is a source of information for a career.

#### **READING PASSAGE**

#### **PASSAGE DETAILS**

Reading Format: Website

Academic Objective: Learn the need for career path planning, and search and design the right career path for you.

Academic Objective in Context:

One way to find the right career is to read other people's career profiles. They often tell what they do in their job and why they chose that career.

Tell students to read along quietly while they listen to the audio track. Tell them to circle any unknown words while they listen. Play audio **track 24**.

After the track is finished, ask the students if there are any unknown words that they circled. Review the meaning of those words and how they are used in the passage. Use your native language to do this if necessary. Call students to discuss Danielle's career profile. Ask the students what she did, where she went, and how she felt.

Ask the students to recall the academic objective question from the second page of lesson A. Now ask them to read the academic objective in context at the bottom of this page. This should help the students with the academic content learning goal of this unit. Discuss and explain further if necessary.

## EO8 LESSON A

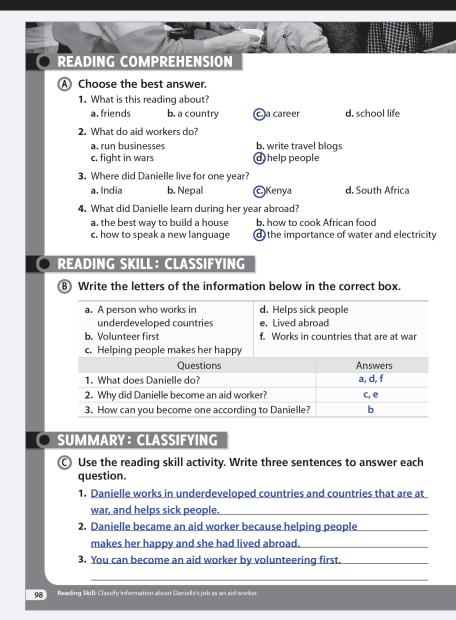

#### **TEACHING TIPS**

#### READING COMPREHENSION & READING SKILL DEVELOPMENT

### Level Tips

Low-Level Students: While completing both the comprehension questions and the reading skill activity, allow the students to turn back to the passage to locate the correct answers in the passage. Offer guidance and assistance as needed, such as pointing out which parts of the reading students should look in to find each correct answer.

High-Level Students: Ask students follow-up questions to the comprehension questions, i.e. 3. Where did Danielle live for one year? Correct answer: c. Kenya. Ask the students what she did in Kenya to help people.

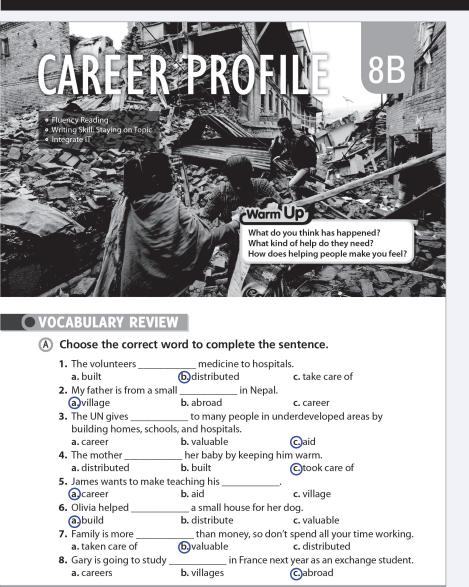

#### Reading Comprehension:

Ask the students to recall the correct information from the passage. Go through each question and correct answer together as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

#### Reading Skill:

Explain to the students that *classifying* means putting details and information in the correct categories or topics. Tell the students to write the details in the correct boxes. Complete the activity together as a class. Ask students to complete the summary. After allowing students enough time to write all the answers in the summary section, randomly call students to read their answers.

#### LESSON B INTRODUCTION & VOCABULARY REVIEW

### Level Tip

Low-Level Students: Tell the students to turn back to the new words page in Lesson A and review the meaning of each word. Then use the free downloadable worksheet for additional vocabulary practice before completing the vocabulary review on this page.

High-Level Students: Ask students to write one additional sentence for each vocabulary word in a notebook or beneath each sentence on this page in the student book. Randomly call students to share the sentences they wrote.

Quickly review the learning objectives of Lesson B.

Look at the picture. Discuss the picture and the warm-up question on the first page of Lesson B. Make a connection to the real world using the picture.

1. What do you think has happened?

Sample answer: I think there was a very big earthquake.

2. What kind of help do they need?

Sample answer: They need food and water. They also need people to help them build their homes.

3. How does helping people make you feel?

Sample answer: I feel good when I help people.

Complete the vocabulary review as a class or individually and then check the answers together as a class.

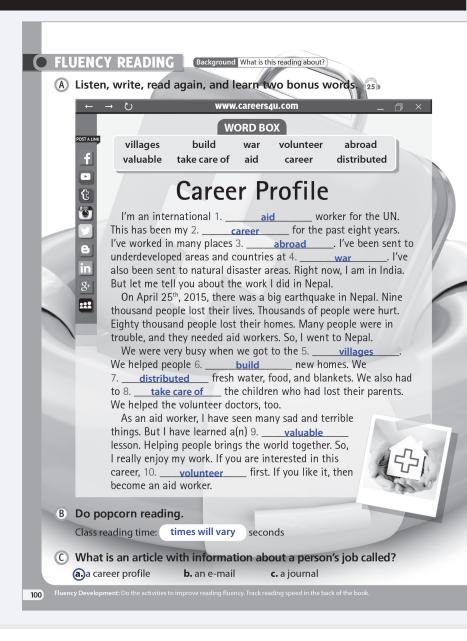

#### **TEACHING TIPS**

#### READING FLUENCY DEVELOPMENT & BONUS WORDS

### Level Tips

Low-Level Students: Set up a timer in class that all students can see. Tell the students to read the passage a third time and record their individual reading time in the second reading column on the reading speed chart for this unit.

High-Level Students: Teach the students how to do the reading speed calculation. Tell the students that they can track their individual reading time at home in the second reading column on the reading speed chart for this unit.

Read the background question at the top of the page. Ask students if they remember what the reading is about.

**Sample answer:** It's a career profile of an international aid worker.

Find the two bonus words in the table of contents. Teach the students what these words mean. Tell the students to listen, read along, and write the words from the word box into the blanks of the passage as they listen to the audio. Play audio **track 25**.

After listening to the audio, tell the students to do the reading activity in activity B. Record the class reading time and record it in the reading speed chart in the back of the book.

Ask the students if they remember what the reading format of this passage is. Briefly discuss it and circle the correct answer.

#### READING + WRITING SKILL TRANSFERENCE & WRITING PLAN

#### **TEACHING TIPS**

### Level Tips

Low-Level Students: Complete the writing plan together as a class. Then have students transfer the information in the chart from the student book to the practice book. Have students close the student book and double-check the accuracy of the writing plan in their practice books.

High-Level Students: Have students complete the writing plan individually. Check the answers together as a class. Then have students transfer the information in the writing plan from their student book to the practice book. Encourage students to write an additional sentence in their homework.

#### VRITING SKILL: STAYING ON TOPIC

A Cross out the sentences that are not on topic.

We were very busy when we got to the villages. I flew from India to Nepal. We helped people build new homes. We distributed fresh water, food, and blankets. I saw a dog looking for its owner. We also had to take care of the children who lost their parents. We helped the volunteer doctors, too. My name is Danielle Grey.

#### WRITING PLAN

B Complete the writing plan. Use the reading and writing skills of this unit.

#### Classifying + Staying on Topic

Put the letters in the correct box.

- a. We helped the volunteer doctors, too.
- **b.** On April 25<sup>th</sup>, 2015, there was a big earthquake.
- c. Eighty thousand people lost their homes.
- d. We were very busy when we got to the villages.
- e. We distributed fresh water, food, and blankets.
- f. Nine thousand people lost their lives.

g. Thousands of people were hurt. Earthquake in Nepal Work in Nepal b, c, f, g a, d, e Write the sentences related to the earthquake in Nepal. On April 25th, 2015, there was a big earthquake. Eighty thousand people lost their homes. Nine thousand people lost their lives. Thousands of people were hurt.

#### WRITING SKILL EXPANSION

C Look at page 35 in the practice book. Complete the writing plan in part C.

101

#### Writing Skill:

Introduce the writing skill to the students. Tell them that staying on topic means only writing sentences that are related to the topic. Students should cross out the sentences that are off topic. Explain that after they have written something, they should read it and make sure all the sentences are on topic. This will help them become better writers.

#### Writing Plan:

Ask the students to recall the reading skill from this unit: classifying. Tell them that they will use that reading skill again to put the information from the writing skill activity into organized information about the reading. Complete the chart and review as a class. After completing the writing plan chart, have the students record that information in their practice books. Tell them to write a paragraph to summarize the information in the writing plan. Explain that the writing plan is there to help guide them, but also that their writing doesn't need to follow the writing plan verbatim. Use your native language as necessary.

## EO8 LESSON B

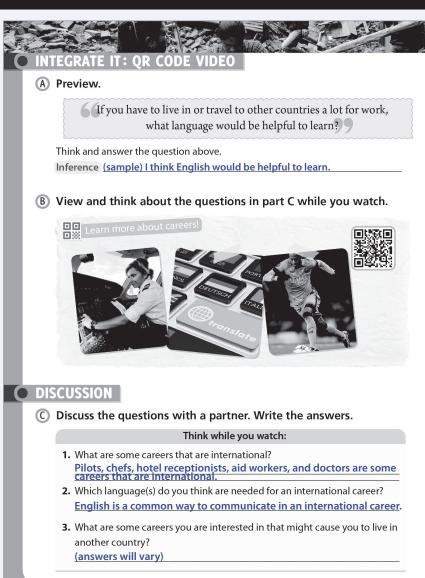

#### **TEACHING TIPS**

#### **INTEGRATE IT SKILLS & DIGITAL LITERACY**

### Level Tips

Low-Level Students: Ask the students if there were any parts of the video that they didn't understand. Replay those sections and explain in your native language to promote and support deeper understanding.

High-Level Students: Ask the students to record any unfamiliar words from the video and review the meaning of those words together as a class to support vocabulary expansion.

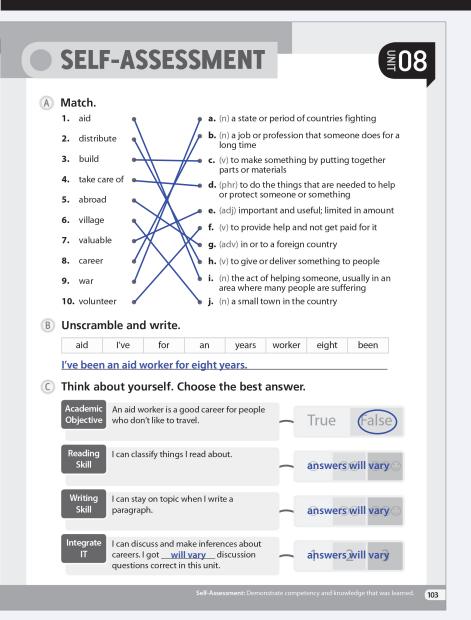

Explain to the students that they will now watch a video about international careers. Read the quote from the preview and brainstorm answers as a class. Come to an agreement about the inference answer that you will write down as a class.

Sample answer: I think English would be helpful to learn.

Ask the students if they remember what a QR code is. Point it out on the page. Ask them how it works. Ask a student to demonstrate how it works, if possible, using the *Integrate Viewer* app. Before watching the video, read each question in part C together as a class. Tell the students these questions will be answered as they watch the contents of the video. Show the video. Give the students some time to discuss the questions. This can be done in pairs, in small groups, or together as a class. Go over the answers as a class.

#### **SELF-ASSESSMENT & UNIT WRAP-UP**

#### **TEACHING TIPS**

Use the grading rubric to perform your own assessment of each student's progress for this unit.

Adjust the rubrics to match the level of your students as necessary.

#### Level Tips

Low-Level Students: Allow students to turn back to the pages of the unit to find the answers. Check the answers together as a class.

High-Level Students: Treat the page as a sort of quiz.

Complete the vocabulary check. Review the correct answers as a class. Ask students to record how many answers they get correct or incorrect with circles and slashes over each question number.

Ask students to unscramble the sentence individually. Check the answers together as a class.

Review the academic objective statement. Ask the students who think the answer is true to raise their hands. Do the same for students who think the statement is false. Tell students the correct answer and talk about why that answer is correct.

Ask students to evaluate their own work on the reading skill section in Lesson A, the writing skill section in Lesson B, and the questions on the Integrate IT page. Tell them to use the number of mistakes they made to guide their self-assessment. If they couldn't get anything correct they should fill in the single smiley face; if they made a few mistakes, two smiley faces; and if they only made a couple of small mistakes, or none, they can fill in three smiley faces. This allows the students to assess where they need to improve and you to align your assessment as the teacher with the students' understanding of their own performance.

# \brace{1-2} REVIEW

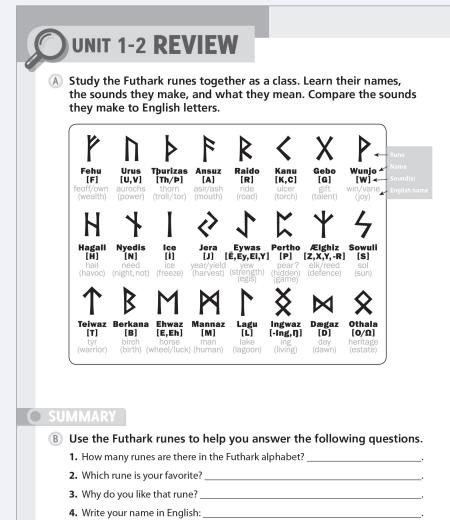

**TEACHING TIPS** 

#### **UNIT 1-2 REVIEW LESSON**

Low-Level Students: Replay the contents from the IT pages to help activate prior knowledge.

High-Level Students: Ask students to write a paragraph using the Futhark runes. Ask them to think about how this system was created and if there are any similarities to the current English alphabet.

5. Write your English name in Futhark: \_

**6.** Write the following sentence in Futhark: "Hello, my name is \_

Review units are optional. Think about how best to utilize them if you decide to do them. Review units cover the general topic, ideas, and vocabulary covered in one nonfiction and fiction pair of units about the same school subject. Students should review the vocabulary and concepts before completing the review unit. Review units can be completed after completing the two units or as review prior to a test. The objective is to get students to use the information and language they have learned in a creative way to complete a project. Therefore, the outcome of each page will have variation. Teachers should provide students with the tools and information that are necessary to complete the page. Complete an example of the project page so that students have an example to follow.

104

#### **PROJECT-BASED LEARNING**

#### **TEACHING TIPS**

Before presenting, check for mistakes in the students' writing.

Low-Level Students: Move around the room as students are completing the writing portion of the project and help correct their mistakes.

High-Level Students: Tell the students what kinds of mistakes they should look for, i.e. spelling, punctuation, etc. Tell them to check a partner's writing and help fix mistakes.

Review the information in units 1 and 2. Discuss what the components and functions of a presentation. Discuss the differences between the Futhark runes and the current English alphabet.

Show the students an example of a completed project page and explain the tasks they need to do to complete the project and the goal of the project.

# \$3-4 REVIEW

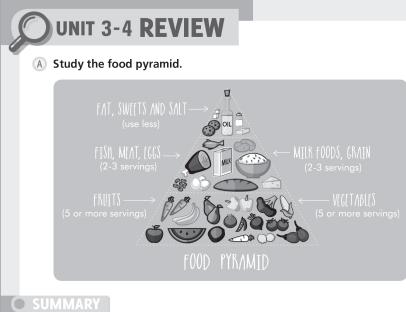

#### **TEACHING TIPS**

#### **UNIT 3-4 REVIEW LESSON**

#### Level Tips

Low-Level Students: Replay the contents from the IT pages to help activate prior knowledge.

High-Level Students: Tell students that every country has their own food and nutrition guide. Ask students to compare their country's food pyramid to this food pyramid.

- B) Use the food pyramid to help you answer the following questions.
  - 1. How many servings of vegetables should you have per day?
  - 2. How many servings of fruits should you have per day?
  - 3. How many servings of fish, meat, and eggs (protein) should you have per day?
  - 4. How many servings of vegetables should you have per day?
  - 5. How many servings of milk foods and grains should you have per day?
  - 6. How many servings of fats, sweet, and salt should you have per day?

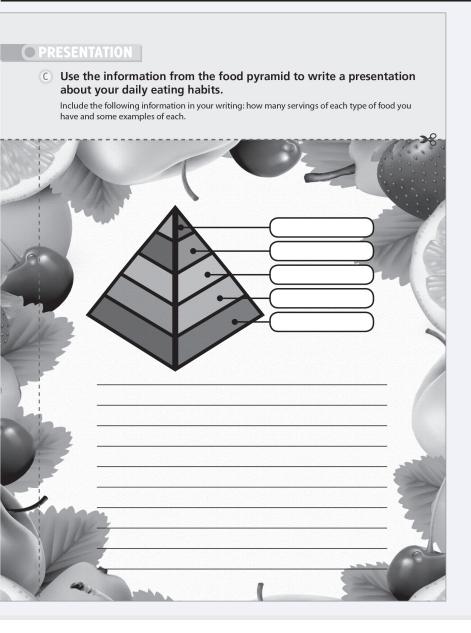

108

Review units are optional. Think about how best to utilize them if you decide to do them. Review units cover the general topic, ideas, and vocabulary covered in one nonfiction and fiction pair of units about the same school subject. Students should review the vocabulary and concepts before completing the review unit. Review units can be completed after completing the two units or as review prior to a test. The objective is to get students to use the information and language they have learned, as well as additional

information, in a creative way to complete a project. Therefore, the outcome of each page will have variation. Teachers should provide students with the tools and information that are necessary to complete the page. Complete an example of the project page so that students have an example to follow.

#### **PROJECT-BASED LEARNING**

#### **TEACHING TIPS**

Before presenting, check for mistakes in the students' writing.

Low-Level Students: Move around the room as students are completing the writing portion of the project and help correct their mistakes.

High-Level Students: Tell the students what kinds of mistakes they should look for, i.e. spelling, punctuation, etc. Tell them to check a partner's writing and help fix mistakes.

Review the information in units 3 and 4. Discuss how nutrients support the bodily systems, especially the skeletal system and the muscular system.

Show the students an example of a completed project page and explain the tasks they need to do to complete the project and the goal of the project.

# \$5-6 REVIEW

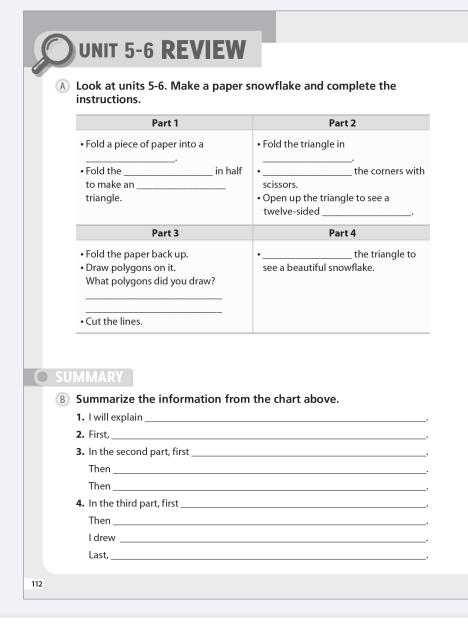

**TEACHING TIPS** 

#### **UNIT 5-6 REVIEW LESSON**

#### Level Tips

Low-Level Students: Replay the contents from the IT pages to help activate prior knowledge.

High-Level Students: Ask students to think about another craft project they have done and give basic instructions for what they had to do.

Review units are optional. Think about how best to utilize them if you decide to do them. Review units cover the general topic, ideas, and vocabulary covered in one nonfiction and fiction pair of units about the same school subject. Students should review the vocabulary and concepts before completing the review unit. Students can learn how to do simple research independently, but you should provide some guidance and structure for them. Review units can be completed after completing the two units or as review prior to a test. The objective is to get students to use the information and language they have learned, and new information they research on their own, in a creative way to complete a project. Therefore, the outcome of each page will have variation. Teachers should provide students with the tools and information that are necessary to complete the page. Complete an example of the project page so that students have an example to follow.

#### **PROJECT-BASED LEARNING**

#### **TEACHING TIPS**

Before presenting, check for mistakes in the students' writing.

Low-Level Students: Move around the room as students are completing the writing portion of the project and help correct their mistakes.

High-Level Students: Tell the students what kinds of mistakes they should look for, i.e. spelling, punctuation, etc. Tell them to check a partner's writing and help fix mistakes.

Review the information in units 5 and 6. Discuss the shapes that are covered in those units. Discuss the purpose of a journal. Help students label the shapes.

Show the students an example of a completed project page and explain the tasks they need to do to complete the project and the goal of the project. You can prepare some pictures that can be attachments or ask the students to find a picture on their own to complete the project as home work.

# ₹7-8 REVIEW

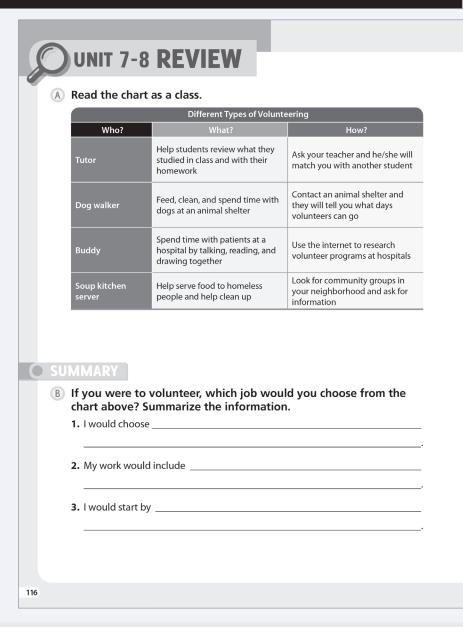

#### **TEACHING TIPS**

#### **UNIT 5-6 REVIEW LESSON**

Low-Level Students: Replay the contents from the IT pages to help activate prior knowledge.

High-Level Students: Ask students to write about any volunteer activities they would like to do.

Review units are optional. Think about how best to utilize them if you decide to do them. Review units cover the general topic, ideas, and vocabulary covered in one nonfiction and fiction pair of units about the same school subject. Students should review the vocabulary and concepts before completing the review unit. Review units can be completed after completing the two units or as review prior to a test.

The objective is to get students to use the information and language they have learned, as well as new information, in a creative way to complete a project. Therefore, the outcome of each page will have variation. Teachers should provide students with the tools and information that are necessary to complete the page. Complete an example of the project page so that students have an example to follow.

# **VOLUNTEER PROFILE** © Use the information from the summary to write a volunteer profile. Imagine that you have experience volunteering and write about it. Give a presentation. **VOLUNTEER PROFILE:**

PROJECT-BASED LEARNING

#### **TEACHING TIPS**

Before presenting, check for mistakes in the students' writing.

Low-Level Students: Move around the room as students are completing the writing portion of the project and help correct their mistakes.

High-Level Students: Tell the students what kinds of mistakes they should look for, i.e. spelling, punctuation, etc. Tell them to check a partner's writing and help fix mistakes.

Review the information in units 7 and 8. Discuss what was included in the career profile and ask what should included in a volunteer profile.

Show the students an example of a completed project page and explain the tasks they need to do to complete the project and the goal of the project.

### READING SPEED CHART

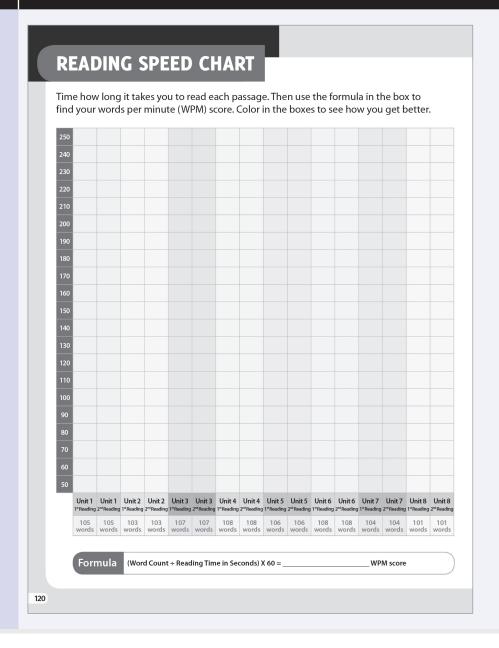

#### **TEACHING TIPS**

#### **READING SPEED CHART**

Low-Level Students: Track reading speed in class.

High-Level Students: Allow the students to track individual reading speed as homework.

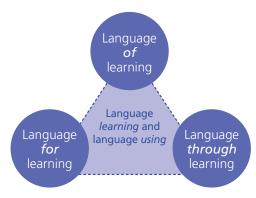

The reading speed chart is designed to track reading speed and fluency development. There are two columns per unit. Students can track their reading speed as a class and then again for the same reading independently. The reading speed chart is intended to be completed with the passage in lesson B after all of the reading activities have been completed. Do not use the reading speed chart with lesson A passages, as students will encounter lots of new and unknown words and information. Reading speed and fluency should only be recorded with passages that the students know roughly 98 percent of the language and content of. Therefore, only use this chart with the passages in lesson B. The reading passage in lesson B is written to be slightly shorter and slightly easier than the passage in lesson A. Sometimes new or alternative information is introduced to prevent too much redundancy.

## LANGUAGE THROUGH LEARNING

LANGUAGE THROUGH LEARNING	NOTES
	0

Use this page to record unknown, unanticipated words and language that students encounter throughout this book. Record the words in the Language Through Learning column and add any relevant notes to the Notes column, such as the date, page number, whether the student asked the teacher, or vice versa. This will help you to plan for future lessons by better anticipating which language points you may need to prepare for. Use the language noted on this page wherever possible in future lessons to help expand the students' command of and ability to use language acquired through learning.

\*See page 5 to understand language through learning
