Read and circle True or False.

A Famous African Legend

Many African legends talk about how the world was made. Some are about Anansi the spider. Anansi made the Earth and the sky. He also made night and day. More importantly, Anansi loved to play tricks.

This is a famous story about Anansi. The Sky God gave Anansi a sack. "What do you want me to put in the sack?" Anansi asked. The Sky God would not say. So Anansi asked the Earth's animals. They gave him the answer. They said that the Sky God wanted the sun and moon.

Anansi asked a wise snake, "Where are the sun and moon?" The snake told him. Anansi put the sun and moon in the sack. He gave the sack to the Sky God. The Sky God was very pleased with Anansi.
