C. Circle True or False.**A Child's Day in Rome**

Dear Grandma,

I am on vacation in Rome with my mom and dad. Rome is in the country of Italy. It's a very old and important city. There are many old buildings here. Some of them are ancient. There are many old churches, too. Some buildings are over two thousand years old. There is a pretty, old fountain near our hotel. There are angels on the fountain. I drank from it! The water was cold.

People lived in Rome thousands of years ago. They didn't have cars. Now there are many cars and motor scooters on the streets. There is a lot of traffic. The street signs are all in Italian, but the alphabet is the same as in English. We use the same Roman alphabet!

Love,

Sarah

C. Circle True or False.**The Dead Sea**

The Dead Sea is not a sea. It is actually a big lake. It is a very special lake.

No one sinks into the water in this lake.

The Dead Sea is between the countries of Israel and Jordan. Nothing lives in it because the water is so salty. The salt makes the water hold people up.

You can lie down on the Dead Sea and float. You never sink into the water.

The Dead Sea is the lowest lake in the world. It is about 415 meters below sea level. Its shores are also the lowest dry land in the world.

Furthermore, people go to the Dead Sea to improve their health. The salt and mud from the Dead Sea are good for your skin.

C. Circle True or False.**The Lost Land of Mu**

There are many islands in the Pacific Ocean. Do you know Tahiti and Easter Island? Some people think that these islands were part of a large continent a long time ago. The name of this land was Mu. A great earthquake shook it. Mu sank into the sea. Only small islands were left.

Some people say that human life began on Mu. They also say that people on Mu were wise and clever. They knew things people nowadays don't know. Other people say that the stories of Mu are not true. However, it is fun to think about Mu. If a wise group of people lived on Mu, did they make computers? Did they travel to the moon? Did they know answers we still don't know today?
