|-----------|-------------------------------------|--------------|
| <b>9</b>  | Corals come in one color and shape. | True / False |
| <b>10</b> | Corals can be soft or hard.         | True / False |
| <b>11</b> | Corals like cold, clear water.      | True / False |
| <b>12</b> | Some corals live alone.             | True / False |

**[13-15] Read and choose the correct answers.**

All food chains start with plants. They get food and energy from the sun. Here is an example of a food chain. Let's follow it.

This food chain starts with grass. A grasshopper eats grass. Next, a frog eats the grasshopper. Then, a snake eats the frog. And finally, a hawk eats the snake.

- 13** Plants get food and energy from the \_\_\_\_\_.
- Ⓐ moon
  - Ⓑ sun
- 14** Who eats the snake?
- Ⓐ a hawk
  - Ⓑ a frog
- 15** What is true about the food chains?
- Ⓐ Food chains start with animals.
  - Ⓑ Food chains start with plants.
