3. Then, is there an _____ number that brings bad luck?
4. Let's walk, ride a bicycle, and use public _____!

[5-8] Choose the correct meaning of the underlined words.

5. But unlike ice hockey, underwater hockey requires players to swim, not to skate.
(a) suffers (b) concentrates (c) needs
6. Doctors generally recommend around eight glasses of water a day.
(a) receive (b) suggest (c) overeat
7. That means the position of a digit in a number determines its value.
(a) decides (b) considers (c) melts
8. Billions of trees absorb carbon dioxide every year and convert it to oxygen.
(a) provide (b) bring (c) change

[9-11] Read and answer the questions.

Underwater hockey has a similar objective as ice hockey: score goals. But unlike ice hockey, it requires players to swim, not to skate. The rules of the game are simple. There are two teams with six players each. Players pass a puck with a stick. They score goals by shooting the puck into a goal tray. However, the game takes place underwater. Players must stay underwater until somebody scores a goal.

9. What is the paragraph mainly about?

- Ⓐ the history of underwater hockey
- Ⓑ the rules of underwater hockey
- Ⓒ the equipment for underwater hockey

10. What does the underlined word mean?

- Ⓐ happens
- Ⓑ improves
- Ⓒ participates

11. What is NOT true about underwater hockey?

- Ⓐ It has a similar objective as ice hockey.
- Ⓑ It requires players to skate, not swim.
- Ⓒ It takes place underwater.

[12-13] Read and answer the questions.

(A) The first _____ of dehydration is thirst. As soon as you feel thirsty, you should drink a glass of water. (B) Dry eyes, mouth, and skin are also signs that your body is thirsty. If you feel tired and cannot concentrate, try drinking water. When your body is thirsty, you may also feel dizzy. (C) Dark yellow urine is another _____ that you need to drink more water.

12. What is the correct word for the blanks?

- Ⓐ equipment
- Ⓑ patient
- Ⓒ sign

13. Which is the best place for the following sentence?

Dehydration happens when your body does not have enough water.

- Ⓐ (A)
- Ⓑ (B)
- Ⓒ (C)

[14-16] Read and answer the questions.

Look at the pictures and say the numbers. Then, cross out the zeros and say them again. Do the numbers mean the same as before? No. It is because zero has two functions in our numeral system. It is both a number and a placeholder.

Our numeral system is a place value system. That means the _____ of a digit in a number determines its value. Take the number 327 as an example. The first digit 3 means three hundreds. The second digit 2 means two tens. And the last digit 7 means seven ones.

Then, what do we do to express the number three hundred and seven? We use zero as a placeholder for the tens _____ and write 307.

14. What is the correct word for the blanks?

- Ⓐ position Ⓑ century Ⓒ luck

15. What is NOT a function of zero?

- Ⓐ a number Ⓑ a placeholder Ⓒ a letter

16. What can be inferred from the paragraphs?

- Ⓐ The value of a number depends on its position.
Ⓑ Zero is not important at all.
Ⓒ Numbers mean the same without zeros.

[17-20] Read and answer the questions.

One ____ (A) ____ is how melting glaciers affect people in mountainous regions. The Gangotri Glacier is one of the largest glaciers in the Himalayas. It is the main source of water for the Ganges River. The Ganges River feeds freshwater to the land of India and Bangladesh. It ____ (B) ____ over 400 million people with drinking water. However, its main source is disappearing.

17. What is true from the paragraph?

- Ⓐ Melting glaciers do not affect people in mountainous regions.
Ⓑ The Gangotri Glacier is the main source of water for the Ganges River.
Ⓒ The Ganges River feeds salt water to the people of India and Bangladesh.

18. What is the correct word for each blank?

(A) – (B)

- Ⓐ concern – melts
- Ⓑ concern – provides
- Ⓒ habitat – provides

19. What does its refer to?

- Ⓐ the Gangotri Glacier's
- Ⓑ the Himalayas'
- Ⓒ the Ganges River's

20. The Ganges River provides freshwater to the land of India and Bangladesh.

= The Ganges River _____ freshwater to the land of India and Bangladesh.
