

Class: _____

Name: _____

Score: ____ /15

[1-4] Complete the sentences.

tube

steer

blinds

make up

1. Surprisingly, invertebrates _____ about 97% of our animal kingdom.
2. Earthworms have a long, soft body shaped like a _____.
3. The fins help squids _____ when they swim.
4. This _____ their predators and helps them escape.

[5-8] Choose the correct words.

5. Vertebrates are animals with a (backbone / tube), such as mammals, birds, and fish.
6. Honeybees have a segmented body covered with a (transparent / firm) outer casing.
7. Many people (confuse / steer) octopuses and squids with each other because they look similar.
8. It means their body consists (up / of) a head and arms.

[9-11] Read and answer the questions.

In the animal kingdom, there are two types of animals: vertebrates and invertebrates. Vertebrates are animals with a backbone, such as mammals, birds, and fish. Invertebrates are animals without a backbone, such as worms and insects. Surprisingly, invertebrates make up about 97% of our animal kingdom. There are many different types. Let's take a look at some!

9. What is the paragraph mainly about?
 - a) the difference between vertebrates and invertebrates
 - b) the many types of vertebrates
 - c) the many types of invertebrates

10. What is NOT a type of animal in the animal kingdom?

- Ⓐ vertebrates Ⓑ invertebrates Ⓒ corals

11. What is NOT true about vertebrates and invertebrates?

- Ⓐ Fish are vertebrates.
Ⓑ Insects are invertebrates.
Ⓒ There are more vertebrates than invertebrates.

[12-15] Read and answer the questions.

Octopuses and squids are different in their body shapes. Octopuses have a round head with no fins. Squids have a triangular head with two fins. The fins help squids steer when they swim. They both have eight arms, but squids have two more long tentacles. These arms and tentacles help **them** catch their prey and move around.

12. What do the squids' fins do?

- Ⓐ They help squids steer when they swim.
Ⓑ They help squids catch their prey.
Ⓒ They help squids move around.

13. What shape is a squid's head?

- Ⓐ triangular Ⓑ round Ⓒ square

14. What does **them** refer to?

- Ⓐ octopuses Ⓑ squids Ⓒ the fins

15. What is true about tentacles?

- Ⓐ Squids have two long tentacles.
Ⓑ They help squids steer when they swim.
Ⓒ Octopuses have eight tentacles.
