B. Arrange the unscrambled sentences to complete the passage.

It is often said that professional athletes make too much money. **(1)**_____ However, I disagree that they make too much money.

(2)_____ The average career length of a professional athlete is only three years, or sometimes 10 years if they are lucky. After that, they must retire. This is why over 60 percent of athletes go bankrupt within five years of retirement. However, the average career length of an office worker is about 30 years. This is much longer than any athlete's career.

Playing sports is also very dangerous. An athlete may get hurt during any game they play. **(3)**_____ And if an athlete is badly injured, they might have to retire early. Yet a regular office worker or store clerk can and often do work while injured. They can also go back to work after an injury. This is not always true for athletes.

Lastly, athletes do more than just play sports. **(4)**_____ And when they are not working, since they are celebrities, they usually take pictures and sign autographs for fans. Celebrities work 24/7 and also give up their privacy. But a regular worker doesn't deal with this kind of attention.

I agree that professional athletes make a lot of money. But their job is often dangerous, their career is short, and they do more than just play sports. **(5)**_____

When I was in elementary school, we had to wear a uniform. The best thing about school uniforms is that you don't need to think about what to wear every day. At my middle school, we don't have to wear uniforms, so we are free to wear whatever we like. (2)_____ If you wear a T-shirt that someone doesn't like, or that is out of fashion, people might make fun of you.

(3)_____ Whether you are from a wealthy or poor family, everyone wears the same thing. No one can walk around in world-famous designer brands or make poorer students feel bad about their clothes. Everyone dresses the same and is treated the same way. Of course, this doesn't mean that bullying doesn't happen, but students can't judge others on their clothing.

However, there are negatives. People say parents save money on clothing through buying uniforms, but this isn't true. Parents must now buy regular clothing and uniforms. (4)_____ It might be cheaper just to let children wear their own clothes. In addition, some people believe that school uniforms limit a student's self-expression and also make them less creative.

But, there are drawbacks to paper books. Pages can be easily ripped or torn out. **(3)**_____ Most people don't carry more than one or two books.

As for e-books, the most common reason people say they would rather have an e-book to a paper book is that e-books are much more convenient. You can read a book anytime, anywhere. And it is easy to carry with you, as whether you have 50 or 500 books on your e-reader, it won't get heavier! However, not all of it is good. You can lose all of your books if you get some water on the device. **(4)**_____

(5)_____ Even though e-books are convenient, paper books do provide a special experience. Yet the best thing is that you don't have to choose one or the other. You can read paper books one day, and e-books another. Happy reading!
